Taft Makes Report on What He Learned at the Isthmus.

Construction Locomotive Engineers and Conductors Are Given Advance-Regulation Regarding Leave to Stand.

WASHINGTON, May 5.—A far-reaching decision by Secretary Taft affecting rates of pay, hours of labor, etc., on the Isthmus of Panama, following his recent personal investigation there, was made public at the White House today after being approved by the President.

MANY CASES ARE ON APPEAL

Washington Supreme Court Docket Contains 128 Hearings.

OLYMPIA, Wash., May 5.—(Special.)—There are 128 appeals set for hearing by the Supreme Court for the term beginning May 13, according to the docket completed and filed in Clerk Reinhart. East Side appeals are set as follows: Stevens County, one appeal, May 13; Klithmas and Yakima, one each, and Adams two, on June 1; Whitman, one, June 8; Chelan, one, Lincoln two, and Walla Walla three, June 10; Columbia and Garfield, two each; Asotin and Spokane, one each, June 11; Spokane, six cases, June 12, 13 and 17; Spokane four, Stevens one, June 18.

Opposed to Wage Increase.

Secretary Taft next considers the case of the steam-shovel men, who applied for higher wages, as follows: Engineers, from \$10 to \$20 per month; crane-men, from \$15 to \$20 per month; firemen, from \$8 to \$10 per month. In reaching the conclusion that the present rates are liberal, he cites a large number of instances of wage scales paid by large construction firms in the United States from New York to San Francisco and also in Alaska. He concludes that the complaint of this branch of the canal employes is not well founded. "The only method is to fix a flat rate for the whole canal."
