

Senator Holds Party Machinery, but Secretary Is Strong With the People.

C. S. WATTS ON SITUATION

Washington Correspondent of Cleveland Leader Tells About Politics in His State-Finds the West Is Strong for Roosevelt.

C. S. Watts, Washington correspondent of the Cleveland Leader, was in Portland yesterday. He is making a canvass of the Middle West and West on the Presi-dential question, and he says the Roosewelt sentiment is overwhelming in every state he has visited. Asked for a state-ment regarding the political situation in Ohio, he said: Popular sentiment in Ohio unquestion

"Popular sontiment in Ohlo unquestion-mbly is with Secretary Taft and Presi-dent Roosevelt as against Senator For-aker and his colleague, Senator Dick, and I think there is little doubt that Secretary Taft will have the state's delegation to next year's National convention. In fact, in spite of the dispatches from Ohio and Washington, I doubt that Senator For-aker will become an avowed candidate for the presidency and make a fight on Mr. Taft. The Senator is not given to butting his head against stone walls just for the tun of seeing where he will land on the rebound. He is given to playing shrewd politics, however, and in the past has demonstrated that one effective way of gatting what he really wanted was to

has demonstrated that one effective way of getting what he really wanted was to start out after something else. "As matters now stand in Ohlo, Secre-tary Tait has the people with him, while Senator Foraker, together with Senator Dick, controls the party organization. If a primary expression could be had now showing the wises of all the Republicans of the state. Taft would doubtless win out by a vote of four or five to one. He has not been actively before the people of the state as a political factor, but despite that he has a decided personal strength, which is a tremendous force in Ohlo as it is here in the Northwest and in almost every in the Northwest and in almost every state in the Fountry.

Foraker Has Lost Popularity.

"Benator Foraker has always been strong with the rank and file of the party, but he has lost caste through his opposition to the President and to admin-istration measures such as the Henburn rate bill. stration measures such as the Hepburn rate bill. Under conditions obtaining up until the last two or three years, the up until the last two or three years, the control of the party organisation would insure to Foraker the control of the Na-tional delegation, and this will be a ma-terial advantage to bim now in event there should be a finish fight between the Foraker and Taft forces. However, Foraker's grip on the organization is none too secure-on the line-up last year the two Senators had only 14 out of the Bi districts-and Taft's forces are being organized effectively under the leader-whip of A. I. Vorys. It is maintained, as a matter of fact, that Taft can now take possession of the party machinery if it comes to a show-down.

"The present complications in the situation are due largely, if not wholly, to the effort on the part of certain elements that are supporting Taft to defeat Foraker are supporting Taft to defeat Foraker for re-election as Sonator as well as to secure the state delegation to the Na-tional convention for the Secretary. Con-gressman Burton, of Cleveland, who is probably well known here through his work as chairman of the House commit-tee on rivers and harbors, is one of Taft's leading supporters, and is also under-stood to be a candidate for Senator against Foraker. The latter, if forced to fight for his political life, may fight Taft for the Presidency as well as Burton for the Senatorship, and it will require some good generalship on the part of Taft's

with the people, and says there is a strong demand for his renomination. "With the President eliminated," said Mr. Watts, "the demand is for a man Mr. Watts, "the demand is for a man of his type who is thoroughly representa-tive of the Roosevelt polleles. Taft is very generally regarded as such a man, and there is a strong potential, if not positiva, Taft sentiment in every state I have visited. However, there is also some little talk of Hughes, of Root and of La Follette. Vice-President Fairbanks and others of the conservative type do not seem to find much favor with the Republicans of the Middle West and West." Rock to Fort Stevens. COMMISSION JUNE 1

Dock and Skamokawa-Hercules It is expected that definite preliminary arrangements for the celebration of the Fourth of July in Portland will be per-

fected at a public meeting to be held at \$:20 o'clock tonight in the Council room at the City Hall. A temporary organization was effected last Wednes-day night at a meeting called by Mayor The steamer Manzanita, owned by the Columbia Contract Company, of Portland, Lane in response to a petition signed by many of the business men of the city. will go into commission June 1 and will be employed to tow rock barges between ************************

Skamokawa and Fort Stevens. She will meet the river steamer Hercules at Skamokawa and will convey the barges DEATH OF A FORTLAND PIO-NEER WOMAN. Skamokawa and will convey the barges to the dock at Fort Stevens. Work on the jetty is being pushed with all possible speed and a quantity of rock has been purchased from the columbia Contract Company for immediate use. The stone is being taken from the old ******************************

Mrs. Mary E. Bruce Phillips, of Portland, who died May 12, was born Dec. 28, 1846, at Clarksville, Pike County, III. She was married to Lucius B. Phillips on Nov. 18, 1866, who, with three sons, Charles H., Walter J. and Arthur S., all of whom reside in the city, and three brothers

survive her. Mrs. Phillips crossed the plains twice, going to California in 1852, where she resided with her parents 18 months, returning by water, when she again crossed the plains with her parents in 1864, since which time she resided in Oregon. Her married life has all been spent ing on the Columbia. This quarry has supplied rock for both the Columbia and Gray's Harbor jetties for several years. The work which will be performed by the Manzanita was formerly done by the in Portland. Her death occurred at 3 o'clock. Mrs. Phillips had a host of friends by whom she was held in the highest esteem.

tug Samson. The latter is now engaged Adjournment was taken at that time to tonight, when it is intended to outline the work of arrangement in more detail. As the great National holiday has not FOUR OF THE FLEET LEAVE UP been formally observed in Portland for

Lumber Vessels Not Delayed in Harseveral years there is a strong sentin in favor of making the celebration thi year a memorable one. It is though that business men and others will com-tribute liberally and that such attrac Four of the fleet of lumber tions will be planned as shall draw many tions will be planned as shall draw many visitors to the city. Although details have only been discussed informally as yet, there is already talk of some at-tractions that are sure to create great interest in the event.

Four of the fleet of lumber vessels which crossed in at Astoria Sunday left up yesterday. They were the schooners Expansion, Alvena, James Roth and the bark Agate. Two were in tow of the steamer Harvest Queen and two were brought up by the Ockiahama. The lat-ter steamer has been in the boneyard for more than a week. On the arrival of the inward-bound fleet of coasters Sun-day she was immediately put in com-mission and started for Astoria. Four other craft remain in the harbor At the meeting tonight a permanent organization will be formed and commit-tees appointed. Those who have been taking an active interest in the matter, including Mayor Lane, the temporary chairman, and Lee M. Clark, the tempo-Four other craft remain in the harbor at Astoria and will start up the river as soon as towboats can be secured. At least three of these vessels will load at points down the river. If You Do You Are Doctoring the Symptome Only-Dr. Williams' Pink Pills Cure the Disease.

YOU

DO

There are almost as many ways of treating rheumstism as there are doctors, Most of these treatments are directed at the symptoms and are considered suc-cessful if they relieve the pain and stiff-ness But the blood has not been purified and the rheumatism is sure to return, especially after a season of exposure to cold and dampness. The patient goes through this experience year after year and begins to think that permanent relief is impossible.

The only way to treat rheumatism is through the blood. This is the method of Dr. Williams' Pink Pills-they not of Dr. Williams' Pink Pills-they not only cleanse the blood of the impurities which cause the disease but build up and restore the broken-down system. Mr. John Riley of Cazenovia, N. Y., says: "In my work as a blacksmith, I am exposed a great deal to changes of temperature. Some time ago I noticed that my health was breaking down. The symptoms were general physical weakness, loss of appetite and nervous-nees. ness

"It was evident that my blood was weak and impure. I became no better as time went on and finally this condi-tion of my blood, with the constant exposure, brought on rheumatism. It was of the inflammatory kind and was very painful in the joints, especially of the feet and wrists. Many days I could hardly walk and suffered intense pain. I took to my bed several times for a day or so and once for six weeks. "A fellow blacksmith advised me to

"A fellow blacksmith advised me to try Dr. Williams' Pink Pills and as I had gained no help from other treat-ments, I decided to give them a trial. Within a reasonable time I noticed that Within a reasonable time I noticed that I was getting better and in a few weeks I was cured. That the cure is perma-nent is shown by my not having lost a day at my trade since then. I can trathfully say that Dr. Williams' Pink Pills put me on my feet again." Dr. Williams' Pink Pills have cured anemia, after-effects of the grip and fevers, general debility and sick head-aches, dizziness, nervous prostration, even partial paralysis and locomotor ataxia.

ataxia

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on re-ceipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Company, Schensotady, N. Y.

Large Savings! For Whom?

The first obligation of an Insurance Company is to be safe; to be safe. This the Mutual Life has met from the first; for sixty-four years its solidity has been everywhere recognized. The next obligation is to be economical. This the Mutual Life has met in varying degrees. For most of its history its record in this respect was enviable, but a few years ago its management lost sight of this and became open to just criticism. Now this has been corrected and things are different.

The Mutual Life Insurance Company

is to-day under a new management that has done much and will do all to restore and surpass its early record as the best caretaker of the insured. Meanwhile, where are the very large savings resulting to go? To its policyholders, of course. To be or to become one means therefore to share in unusual savings as well as unusual security.

> The Time to Act is NOW. For the new forms of policies consult our , nearest agent, or write direct to The Mutual Life Insurance Company

good generalship on the part of Taft's managers if the Secretary does not suf-fer somewhat through this joining of the two issues

Burton's Geographical Disadvantage

"Burton is a strong man, but is at some disadvantage in a contest for For-aker's seat because he lives in Northera Ohio. Senator Dick is from that part of the state, and there is a disposition to divide the Senatorships geographically which would mean that if Foraker is not to be re-elected his successor should come to be re-elected his successor should come from the southern part of the state. Burton led a fight on Foraker and Dick last year that was unsuccessful, but he made a remarkable showing under the

made a remarkable showing under the circumstances and demonstrated that he is a factor to be reckoned with. "I wouldn't undertake to predict the result of the fight on Forsker for the Senatorship, but, as I said, I think that so far as the Presidential question is concorned Taft has all the better of it as the situation new stands. He has the concerned Tart has all the bas the suppopular sentiment, and he has the sup-port of every influential Republican and

port of every influential Republican and independent newspaper in the state. "Moreover, state pride is an important factor in his favor. Ohio Republicans want to see an Ohio man in the White Hyuse again, and they believe Taft can be nominated and elected, while they have a fairly strong conviction that For-aker can neither be nominated nor elected. Even many of Foraker's friends concede that he is out of the running so far as the Presidency is concerned, and they are interested chiefly in seeing him retained in the Senate. In that, state pride will be a factor in Foraker's favor, for he is recognized as a comfavor, for he is recognized as a com-manding figure in the Senate, even if he has not been on the popular side of some legislative questions, and Ohioans, like the people of other states, like to have as their representatives at Washington men who loom large in the public eye.

Compromise Is Possible.

out.

Work in That Precinct.

KISER-KODAK DEVELOPING.

"It is not at all unlikely that what may be termed a compromise will be effected whereby Taft will have the Ohlo delegation for the Presidency without opposition and Foraker will go back to the Senate. This will not necessarily mean an agreement to re-elect Foraker in return for his withholding opposition to Taft, but an understanding that if Foraker does not stand in Taft's way in the Presidential contest Taft and his friends, such as he can control, will not fight Foraker for the Senatorship. This would leave Congressman Burton free to be a candidate against Foraker, but he would not be known as the Taft can-"It is not at all unlikely that what yould not be known as the Taft can-idate and would have to make the race

on his own legs. "George B. Cox, the Cincinnati hoss, is anxious for some such harmony ar-rangement, for he was to reinstate the Republicans in control of municipal af-fairs in Cincinnati. Tati, it will be re-membered, attacked Cox vigorously in the 1906 campaign, but Cox is willing to support Tatt for the Presidency in spite of that if the situation can be straight-ened out so there will not be a factional fight that will injure the Republicans fight that will injure the Republicans in the municipal elections this Fall."

to the galeties of the season just ending. The dancing party was originally con-sidered by the members of the women's annex, but was soon taken up by the entire club, and everyone is expected to make the success of the evening a personal matter. There has been a large sale of tickets and a substantial benefit is anticipated. All members are request-ed to purchase tickets and bring friends this applying to the women members as

this applying to the women members as well as to the men. The club has grown rapidly during the past year and practically everything in the way of public entertainments has proven entirely successful, the high standing of the organization and the popularity of the individual members al-ways assuring widespread public interest in any undertaking. The gymnasium classes will soon be closing for the Sum-mer season and the dance will serve as the final gathering before the members scatter for Summer vacations and travel. It will not be quite so strenuous as the society circus proved, but fully as enjoyable. Tickets can be had from any members of the women's annex or at the club. The affair is not invitational and everyone is urged to assist in making the dance on of the gayest of the year.

BREAD DYSPEPSIA

The Digesting Element Left Out.

Bread dyspepsia is common. It affects he bowels because white bread is nearly all starch, and starch is digested in the intestines, not in the stomach proper. Up under the shell of the wheat berry Nature has provided a curious deposit which is turned into diastase when it is sub-jected to the saliva and to the pancreatic julces in the human intestines.

This diastase is absolutely necessary to ligest starch and turn it into grape sugar, which is the next form; but that part of the wheat berry makes dark flour, and the modern miller cannot readily sell dark flour, so Nature's valuable digester dark flour, so Nature's valuable digester is thrown out and the human system must handle the starch as best it can, without the help that Nature intended. Small wonder that appendicitls, peri-tonitis, constipation, and all sorts of troubles exist, when we go so contrary to Nature's law. The food experts that perfected Grape-Nuts food, knowing these facts, made use, in their experi-ments, of the entire wheat and barley. Inments, of the entire wheat and barley, in-cluding all the parts, and subjected them to molsture, and long continued warmth, which allows time and the proper condi-

In this way the starchy part is trans-formed into grape sugar in a perfectly natural manner, without the use of chem-icals or any outside ingredients. The little sparkling crystals of grape sugar can be seen on the pieces of Grape-Nuts. This food therefore is naturally predi-gested and its use in place of bread will guickly correct the troubles that have been brought about by the too free use of starch in the food, and that is very com-mon in the human race today.

mon in the human race today. The effect of eating Grape-Nuts ten days or two weeks, and the discontinu-ance of ordinary white bread, is very marked. The user will gain rapidly in strength and physical and mental health. "There's a Record"
