WOOD ELECT LANE

Municipal Association Issues Appeal to Voters.

DEFEAT OF DEVLIN URGED

Victory of Republican Candidate, It Is Declared, Would Be a Triumph of the Machine Rule.

Salient Features of Municipal Association's Statement.

Mayor Lane has fearlessly and consistently stood for the interests of the public at large as opposed to those of any particular class or section.

The voters face two questions: Shall the independent public-spirited policy of opposition to corporate greed, private graft and suppression of vice or shall they tolerate further enmeshment of the old machine in the political life of the community?

The machine is not dead. If Mr. Devlin is elected the triumph of the machine will be complete.

The Municipal Association issued an open letter yesterday to the voters of the city of Portland urging the re-election of Mayor Lane.

Generally speaking the performance is one which should make the management and the company reasonably proud and haughty.

Considering all the circumstances the popular price contingent among Portland theatergoers will find "Devil's Island" to their liking.
