JIU JITSU IS MET WITH BRUTE FORCE

Rough - and - Tumble Methods Prevail Over the Japanese School.

IN POLICE COURT

Irish Streetcar Tracklayer and Subject of the Mikado Engage in Hand-to-Hand Encounter.

Irish rough-and-ready methods were pitted against Japanese jiu jitsu yester day forenoon, and the mysterious little subjects of the Mikado need not feel quite so proud of their prowess hereafter. Japan was represented by J. Takahama. a worthy disciple of the Japanese art of wrestling, while Ireland was fittingly championed by Jerry G. Hilton. Curlously enough the discussion that brought about the test concerned the respective merits of Japanese and Irlsh workmen. That it ended in a practical demonstration of the fighting abilities of the two people was inevitable.

of the fighting abilities of the two peo-ple was inevitable.

Hilton is employed by the Portland Railway Light & Power Company, his energies being utilized in the repairing of streetcar tracks. This service took him to third and Burnside streets, where the local Japanese are wont to

make their head-quarters. The dis-cussion and the trouble both were precipitated by the Japanese, whose ideas of his prow-ess doubtless had been enlarged by

talked back until Hilton made a threatening move, whereupon the littie brown man precipitated the attack. Silpping around behind Hilton he gave a deft slap at his back which doubled Hilton up like a jackmife.

According to those that saw the spectacle that followed no fight exactly like it has ever been recorded. The big workman swung terrific blows at the wiry little fellow, who came barely to his shoulder. The Japaness avoided the onslaught skillfully and dedged back and forth among the avalanche of blows without getting hit ence.

Finally seeing the opportunity, he raught Hilton's arm lightly, pressed it, pulled outward and sent the bigger man spinning around with exclamations of mingled pain and rage.

This was the beginning of the end. Hilton said something about not being able to fight with a norner, seized a big lump of cement and dashed it with terrific force on the little fellow's head.

The struggle between Orient and Oc. eident ended then and there. Taka-hama gave a frightened yell and dropped in his

rersary, took to his neels. Policeman Goltz went after him and ran him of three blocks. The combatants reached the police station before the combatants

hung limply, and while it was not
broken the muscles were badly
strained.

Judge Cameron will pass on the case today, and there are some very intricate points to be decided, for Hilton intends to set up that he was justified in using the block of cement when he found the Japanese was practicing jiu jitsu on him.

Dr. J. A. Burnett's efforts to get acquainted with the public have been acquainted with the public have been wasted. All the work and expense he has given in securing a bill-board introduction to the people at large must count for naught. Unless the doctor has undone his exploitation work today by removal of the countless ads he has posted, his patients may liave to visit him hereafter at new offices provided free of charge by the city. Dr. Burnett condescended to sub-

mit to arrest yesterday and appeared before Judge Cameron. He proved to be a distinguished-appearing spe-cialist with a Vandyke beard and a

cinlist with a Vandy new silk hat. As to the charge that he had been desecrating poles, old harrels, posts and fences with pictures of himself and a statement of his wonderful remedles he claimed to have little knowlhave little knowledge. He had hired someone to tack up the signs in order that the

public might come to know how to cure anything from spinal menin-gitis to hay fever, or from headache

gitts to hay fever, or from headache to consumption—all by the use of a new and perfectly harmless little remedy, etc., etc.

While admitting that the public doubtless would be much the better for really knowing Dr. Burnett and all the secrets of his wonderful panaces, Judge Cameron gave the medico until today to take down every sign that has been posted at his solicitation.

It is an excellent thing to be a mil-lionaire it is said. But to induige in a flight of imagination such as transforms the poor man into a per-son of wealth is not an excellent thing. and of wealth is not an excellent thans. It is likely to prove most expensive. Albert Nelson and Frank Denovan engaged in such a flight of fancy. They had been working on the North Bank all Winter and reached town Saturday with several months' wages in their possession. Between them

they had \$430.
Seven hundred dollars is a lot of money when spent for necessities, but it doesn't buy very much wine nor carry a spendthrift millionaire very far, Nelson and Denovan not out to

enjoy themselves as men of wealth, lived on the fat of the land for two days—and spent Monday night in an empty car at the terminal yards. Neither of them had a cent and were very hungry when the railway company notified them that it was not conducting a free lodging house at the terminal grounds and sent for the police.

But while the average person might be inclined to engage in morbid retrospection after two days of such expensive conduct. Nelson and Denovan were really quite happy when they appeared in the municipal court yesterday and were given an hour in which to leave town. From their standpoint the present is too brief and fleeting an instant to be of consequence. The future is indefinite and unsatisfying and the only real enjoyment consists in the past. They are ment consists in the past. They are taking something to think about and talk of back to the railroad camp where, being handy with the plck and shovel and in perfect health, it will not take them long to accumulate the price of another brief taste of luxury.

PLANS FOR CELEBRATION

CITIZENS DISCUSS FOURTH OF JULY PROGRAMME.

General Committee Named to Take Charge of Arrangements With Rose Carnival.

Portland will celebrate the Fourth and therefor there will be nothing very quiet about the celebration. The arrangement of a programme event has been delegated to a general committee of 33 members, representative of the business and professional interests of the city. This committee will hold a meeting at 8:30 o'clock Friday night at the City Council rooms when a programme will be outlined and a number of subcommittees will be named. Dan McAllen was chairman of a meeting of the celebration enthusiasts at the City Hall last night. There were many prominent citizens in attendance and the sentiment unanimously favored a celebra-

The forenoon, it was proposed, will be given over to the usual literary exercises, including an address by some prominent Pacific Coast orator. In this connection the name of D. M. Officials Scout Rumor Spokane Schedule Changed.

NO REASON FOR ACTION

After Making Hard Fight Before Interstate Commerce Commission. Absurd to Think Change Would Be Made, Say the Agents.

Advices from St. Paul that the reduc tion of the Spokane terminal rates has been decided upon at a conference of Hill and Harriman officials there is denied in Portland. Officials of the Harriman traffic department scout the idea and say traffic department scout the idea and say such a step would not now be taken. It is believed here that the sole purpose of the St. Paul gathering is to decide who will represent the railways at the session of the Interstate Commerce Commission in June, when the Spokane case will be argued. The line of defense was also to be mapped out. Portland officials do not believe that the railroads would now withdraw the case from the would now withdraw the case from the Interstate Commerce Commission after the hearings have been held on it but declared that the question will be left with the Commission for settlement. "I do not believe the Spokane rates have been reduced," said W. D. Skinner, assistant general freight agent for the Harriman lines. "That is very unlikely. I have no advices from St. Paul but I think the officials are there to determine

think the officials are there to determine upon the line of arguments to be followed in the hearing before the Commission in June."

It is said that the Soo line, coming into direct competition with the Hill and Harriman lines from Chicago and St. Paul to Spokane has forced the reduction of rates, but this is held to be absurd. The Soo and Canadian Pacific will be in a position to deliver freight in Spokane a position to deliver freight in Spokane from the East late this month but it is said the rates will be exactly similar on that road to the charges of the other lines. There is said to be no likelihood of a cut in freight tariffs.

a cut in freight tariffs.

After having made such a hard fight against a modification of the Spokane rates, it is believed the railroads will not voluntarily reduce charges and will maintain the tariffs to the utmost unless forced to make a change by the Inter-state Commerce Commission.

R. B. Miller, general freight agent for the Harriman lines, is now in St. Paul, together with W. W. Cotton, counsel for the Harriman lines in Oregon and Washington.

"My little boy in the Spring of 1901, when early an infant of three mouths, caught the Cuban litch from one of my neighbor's bables. Sores broke out from his head to the bottom of his feet. He would litch and claw himself and cry all the time. He could not sleep day or night. I had to wheel him in his carriage most all the while to keep him still. He could not bear to have his clothing touch him, and only a light dress is all he could wear. I can't hegin to speak in words the suffering the poor child had to endure. He suffered so terribly that my flusband said he believed he would have to die. I had almost given up hore have ved the would have to die. I had almost given up hope when a lady friend told me to try the Cuticura Remedies. She said she cured her little girl's ear, which was nearly esten up with the ecreme, I got a cake of Cuticura Soap and one box Cuticura Chimment, and I washed him ali over with the Cuticura Soap and applied the Cuticura Chimment and he at once fell into a sleep, and he slept with ease for the first time since two months. When he awoke I applied it again, and it gave him much ease, and after three applications the sores began to dry up and improvement began to show, and in a few days the hide from the bottom of his feet and inside of his hands began to peel off. I only used one cake Cuticura Soap and one box Cuticura Chimment to complete the cure of the dreadful disease, and in just two weeks from the day I commenced to use the Cuticura Remedies my baby was entirely well. The treatment only cost me 75c., and I would have gladly puid \$100 if I could not have got it any chosper. I feel safe in saying that the Cuticura Remedies saved his life. You Can Pay When You Are Entirely Cured

I have treated men's diseases only for twenty-five years, and one year of my practice represents a greater volume of good experience than several years brings the average physician or specialist. In explanation of this statement will say that I have been the busiest specialist upon this Coast, curing several cases to other physicians one. I began my practice with accurate knowledge concerning men's diseases, and my patients have received thoroughly scientific treatment. I have not only treated them rightly, thus acquiring an abundance of the very best kind of experience—experience of positive value to those I treat and experience that enables me to offer cures with certainty of effecting them.

Weakness

My ability to cure those derangements commonly termed "weakness" has done more to extend my reputation as a specialist in men's diseases than any other thing. I was the first to discover that "weakness" is merely a symptom resulting from a chronically inflamed prostate gland, and that to remove this inflammation is the only method of permanently restoring lost vigor. To this day my system of local treatment is the only selectific one in use. In years I have not falled to effect a complete cure. There are two reasons for this: First, the unequaled effectiveness of my method; second, because I attempt to cure no incurable cases. My long experience enables me to recognize those that have passed into an incurable stage, and I treat only such as I know I can cure.
