BAKER FOR REFORM

Fathers Stringent Ordinance to Protect Public Health.

SWEEPING IN PROVISIONS

City Council Hesitates to Pass Measure So Radical and Refers It to Committee for Careful Investigation.

An ordinance, stringent in its terms and sweeping in its application, was pre-sented by Councilman Baker at yesterday's meeting of the City Council. It is intended to regulate the sanitary condi-tions in the city and to vest in the City Health Officer and his assistants the authorny to enforce to the letter its provisions. Inspired by the recent epidemic of spinal meningitis, which thrives best under unsanitary conditions, the author of the ordinance, assisted by Preston, made an carnest attempt to have the measure enacted yesterday, but Mayor Lane and Menefee and other members of the Council cautioned a more deliber-sic consideration of so important a bill, inasmuch as it is general in its applica-tion and rigidly exacting in its requirements. Therefore the ordinance was re-ferred to the committee on health and police, to be reported for final passago at the next meeting.

In presenting the ordinance, Baker ex-

In presenting the ordinance, isaser explained that the measure had been suggested by Health Officer Wheeler and was drafted by City Attorney McNary. He said he felt satisfied the provisions of the measure were only such as are necessary to maintain proper sanitary conditions, and since the ordinance had been carefully prepared and drawn up,

"We certainly need some such law in this city and we should make it possible to enforce its provisions," said Mr. Baker. "Dr. Wheeler tells me Portland never needed such a law as badly as at the present time. I cannot see why there should be any delay in putting this or-dinance to a final vote now."

Preston followed and urged the passage

of the ordinance in the interests of the public health. He said the fatal experience this city had been having with spinal meningitis was conclusive proof that there should be no delay in accomplishing something that would tend to prevent such epidemics. But the friends of the measure were buffled and the or-dinance was referred.

The ordinance provides for better sanitary conditions in the growing, market-ing, handling and exhibiting for sale of all meats, fish, fruits, vegetables and food products of all kinds. It also makes it a misdemeaner for any hotel, restaurant or boarding-house where meals are-served to employ any person having con-sumption or any other communicable. disease. The use of any chemical dele-terious to health in any food article is forbidden. Slaughterhomes must in every case be provided with a cesspool. No animal for food shall be killed within the city limits except by permission of the City Health Officer. Fines ranging from \$25 to \$200 are provided and the Health Officer and his assistants are empowered to enforce the provisions of the

The warm weather of the last few days is believed to have put to flight the spinal meningitis germ and Dr. Wheeler says a continuance of present weather conditions for another week will rid the community of the epidemic. Not a case of the disease has been reported in the the little sufferer was improved, with

track need be laid to complete this loop and cars will be running over the new route within a few weeks.

The purpose of the change in routing is to relieve First street of the present congestion of streetcar traffic. The double tracks along that thoroughfare are too crowded with cars to admit of the best service. As all the people for the First street cars flock to First and Alder and First and Washington to take their cars. First and Washington to take their cars, this causes a crush on First during the rush hours. Facilities for switching the cars from the west track to the east at

cars from the west track to the east at the end of the run at Alder street are inadequate and often cause considerable delay in the prompt dispatch of cars.

With the operation of the proposed loop, all this will be done away with and cars entering the city will go west on Madison street from the bridge to Second, where they will turn down as far as Alder, when they will swing around the loop to First and leave the city by the Madison bridge without the necessity for changing head-lights, controller cranks or swinging trollights, controller cranks or swinging trol-leys. Conductors will be relieved from changing ends with the motorman at the end of each run and there will be no fur-ther necessity for the conductor to go through the car and turn the seats.

A. Crofton Points Out Effect of Sellwood Voting Dry.

Vigorous contradiction is made by A. Crofton of the Municipal Association's statement that if Sellwood votes "dry" at length of time but one case has been received at the hospital, the victim being Venus Service, a 3-year-old lad residing at Helbrook, Last night the condition of the little sufferer was improved at the little s this year the anti-saloon forces, headed by Rev. G. L. Tufts, have joined three other precincts onto Sellwood and called for a local-option election on the entire group, hoping to thus smother the "wet" majority in Sellwood and put the whole

group dry.

In a speech made at a prohibition meeting in Sellwood on Wednesday evening.

Miller Murdock, of the Municipal Association, made the statement referred to concerning the Mount Hood brewery. In concerning the Mount Hood brewery. In reply to a question as to whether Sellwood going dry would prevent the sale of bear at The Oaks. Mr. Murdock also said that he believed no license had been issued for The Oaks.

In regard to these matters, Mr. Crofton, who is manager of the Brewers' and Wholesale Liquor Dealers' Association, said yesterday "I think Mr. Murdock cannot have been

correctly reported. The local-option lav tion has been adopted it shall be unlaw-ful to sell or exchange or give away any intoxicating liquer within the territory included in said prohibition order.' included in said prombition order. That is clear enough. The prohibitionists have always denied this, but the law is perfectly plain, and when Albany went dry last year the Albany Brewing Company had to establish a selling office at Salem les, the Anti-Saloon League made a great protest against it. Their attorneys have suggested that the law would not be en-forced against a brewery, but we are sick of laws made for effect and which are not to be enforced except at spasmodic neclost. Let us have good laws that can periods. Let us have good laws that can and ought to be enforced.

"Regarding the matter of a license be ing issued to The Oaks, the records at the City Hall show that a license for The Oaks has already been issued and paid
