ON HIGHER BASIS

Steep Opening Prices Named on California Asparagus.

DUE TO THE SHORT PACK

Canned Goods Generally Firm in All Markets-Guessing at the Prune Output of the Southern State This Year.

Opening prices on the 1907 pack of Callfernia asparagus have been named by the Central California Canneries. The prices fixed are on a much higher basis than tho named on the 1903 pack, but occasioned no surprise in the trade in view of the very light pack. The increase over last year's price follows: Mammoth white, \$1; mam-moth white peeled, \$1.20; mammoth green, 65c; mammoth green peeled, 80c; large white, \$1.10; large white peeled, \$1; large green, 96c; medium white, 15c; medium reen, too: small white, \$1; small green, Oc one-pound tips, white, \$1.10; one-pound tips, green, \$1.10, In the Eastern markets, nearly all canned

goods are on a very firm basis. Spot to-mate prices have been advanced there with offerings of full standards very light. Spot corn in the East is also quoted firmer.
The prune market has a decidedly strong

one, both on the Coast and in the East. A California packer who a short time ago estimated the prune crop of that state at 50 per cent of last year now writes that it is not probable that the output will exceed 25 per cent of the 1906 crop. Another packer estimates the output will extend of last year's. Another statistician extend of last year's. Another statistician extend of last year's. Another statistician extend pounds, as against 120.000.000 pounds last season, and the yield of other California districts at 20.000.000 to 25,000.000 pounds, as compared with 35.000.000 to 1906.

Not all the California packers, however, take such extreme views of the situation. Referring to a recently published statement to the effect that the 1907 California prune crop would be no larger than that of 1906, when the production ran short of 1906, when the production ran short of 1906. A California packer who a short time ago estimated the prune crop of that state at

1906, when the production ran short of 50,000,000 pounds, a Vacaville, Cal., packer. in a letter, expresses the opinion that anylong on prunes. "While we have undoubtedly a much lighter crop than last season in this state," he writes, "we have every reason to believe that the output without the carry-over will reach nearly twice the We do not believe it is of benefit to the fruit industry of this state to wilfully misrepresent existing conditions."

what the yield would be. It is generally acknowledged that the crop will be less than last year, but how much less no one

BERRIES ARRIVE IN POOR ORDER Delayed Shipment Disposed of at Generally Lower Prices.

supply yesterday, but as the shipment was a delayed one, the quality proved far from good. As on the preceding day, yesterday's regular supply was also late and did not that was offered brought from \$1.50 to \$2.25 per crate, according to quality, and all of it per crate, according to quality, and all of it was disposed of. There was only a moderate quantity of Valley berries and these were quoted at 17% \$21%c per pound. A few crates of Hood Rivers came in and sold at 35 cents per pound.

Goossberries were in better supply and were quoted lower at 7% cents. There was unchanged at \$6.00 \$6.05 in the local market, but advanced 38 9d to 19 17s 6d in the English market.

Spelter was unchanged at \$2.15s in the London market and at \$6.40 \$6.50 in New York.

a fair supply of cherries, which were in York.

bers were more abundant.

market, which are almost up to the 90-cent peg, and it is probable a good round lot of spot wheat would command that figure or better. Many sections have been drained of their supply and practically nothing is left in the country in first hands.

Turkeys Are Not Wanted

The poultry market was liberally supplied yesterday and the demand was good for everything except turkeys, a number of coops of which could not be disposed of at

Eggs held steady in spite of somewhat more liberal receipts. The butter market was firm and active for all creamery grades,

Shearing Half Over in Morrow.

HEPPNER, Or., May 21.—(Special.)—
Wool is coming into the warehouses here
fast and is much lighter than last year.
The shearing is fully half over and unless
the present wet spell hangs on, will be
finished by May 25.

Two train loads of sheep have been shipped out of Heppner the past week and two or three will be sent out this week.

some early berries were shipped last week, the bulk of the crop is now ready for ship-ment. The crop will be one of the largest ever harvosted in White Salmon and the berries are of an extra good quality. The weather conditions are ideal.

Bank Clearings. Bank clearing of the leading cities of the Northwest yesterday were:

HOP BUYING SMALL.

Much Crop Talk is Heard, but Few Care to Make Estimate.

The hop market presented no new features yesterday. Some small buying was reported at the prices that have been ruling lately, but the demand was not strong. A good deal of crop talk was heard, but few of the dealers cared to venture an opinion as its the dealers cared to venture an opinion as the care its property of the dealers cared to venture an opinion as the care its property of the dealers cared to venture an opinion as the care its property of the dealers cared to venture an opinion as the care its property of the dealers cared to venture an opinion as the care its property of the dealers cared to venture an opinion as the care its property of the dealers cared to venture an opinion as the care its property of the care its property of the dealers cared to venture an opinion as the care its property of the care its property of

chnowledged that the crop will be less han last year, but how much less no one an predict.

The latest reports received by mail from the English hop trade are as follows:

Wild. Neame & Co., London: There has seen a fair inquiry for useful brewing qualities during the week, though the actual usiness taking place is somewhat limited.

PORK—Dressed love; Spring lambs, 106104c.

PORK—Dressed, 1009130 pounds, 54,6 c; 1009200 pounds, 10745c; 200 pounds and up, 6964c.

business taking place is somewhat limited. Values remain without alteration.

Manger & Henley, London: There is a steady demand for good copper hops, which are now getting into a small compass. Values remain unchanged; some fair bids are refused.

W. H. and H. Le May, London: The demand for low-priced English hops continues, with the result that any parcel which is offered at prices that have been current for the last three weeks finds buyers, and the market is kept cleared.

The Exchange & Hop Warchouses, Limited, London: There is considerably more buying passing in all classes of hops, but at prices greatly in favor of buyers. Sonic long lots have been cleared off during the past week, and stocks are now beginning to get very confined.

J. H. Meredith & Co., Worcester: There has been a little more inquiry on the local market, and although mo growers' hops passed the public scales last week, several smarket, and although mo growers' hops passed the public scales last week, several smarket, and although mo growers' hops passed the public scales last week, several smarket, and although mo growers' hops passed the public scales last week, several smarket, and although mo growers' hops passed the public scales last week, several smarket, and although mo growers' hops passed the public scales last week, several smarket, and although mo growers' hops passed the public scales last week, several smarket, and although mo growers' hops passed the public scales last week, several scale

Large Lines Unloaded in New York Market.

AGGRESSIVE BEAR TACTICS

Sharp Drive Made at Prices, and Steel, Smelting, Union Pacific, Brooklyn Transit and Amalgamated Are Sufferers.

NEW YORK. May 21.—The weakness which developed in the stock market today came rather as a surprise to the financial community, notwithstanding the symptoms of yielding yesterday. The source of the extensive selling of stocks was mysterious, and the motives which accompanied the outpouring, after such a period of quiescence in the market as that of last week, were not clear, as no immediate development in conditions was known which would change the situation so abruptly. Surmise inclined to the interpretation that an aggressive bear party had been organized to attack the market. This interpretation of the day's movement was favored by the recent return to the financial district of individuals who were credited with the leadership of the smashing campaign against prices which culminated in the March panie, and who have been absent on long vacations since that occurrence.

The action of the market for some time past has reflected the entire lack of any absorptive demand for securities, but eccasional tentative operations upon the short side of the market have been so little successful in dislodging large liquidation that a period of duliness and neglect for stocks was anticipated, rather than any active selling or buying. The more aggressive plans upon the hear side have gained impetus from the violent movements in the wheat market. The leaders of the bull speculation in wheat undoubtedly play a large part in the bear movement in stocks.

There is additional incentive for the bear movement in stocks in the renewal of anxiety over the conditions of capital supply. Lack of support for some of the stocks which are usually most carefully guarded against declines by inside interests is due to the fact of the large commitments by those interests in new socurities of the companies. Stockholders stand committed for periodical installments of subscriptions on new issues which have been offered to stockholders, and speculative terms, and they have no resources to buy offerings of their own stocks in the open market.

Some s

expected. Some of these were denied, but without relieving the depression of the stocks concerned. The heavy liquidation in United States Steel was accompanied by such a rumor, which was repeatedly denied, without relieving the stock from its depression. The fall in United States Steel had a pronounced sympathetic effect upon the whole list. American Smeltins, Union Pacific and Brooklyn Transit were other centers of depression, as was also Amalgamated Copper.

The money market was unruffled and no

mated Copper.

The money market was unruffled and no action was faken towards export of field it was not until stocks had weakened effectually that wheat became strong again. The heavy liquidation of stocks, which undoubtedly occurred, seemed to be prompted by a gradual accumulation of influences for some time past, rather than any event which has occurred recently. Short covering caused some wide railies, but the market closed unsettled and feverish.

Bonds were feverish. Total sales, par value, \$1,174,000. United States twos, registered, advanced & per cent on call.

Prunes are firm, owing to bullish crop reports from the Coast, Quotations range from 3%c to 12%c for California fruit and from 5%c to 10c for Oregon.

Apricots are quiet and unchanged.

Peaches are quiet and unchanged.

Peaches are quiet and unchanged.

Peaches are quiet and trim, with choice quoted at 11%11%c, extra choice, 12%12%c; fancy, 12%13%, and extra fancy, 13%15c.

Raisins are firm in tone and it is reported that some packers are turning down orders for future delivery. Loose Muscatel are quoted at 5%610c; seeded raisins, 7%471%c, and London Isyers, \$1.50\$1.65.

Big Jumps in Prices in the Chi-

Alarming Reports From the Grow ing Crop in This Country and Europe-Corn and Oats Also Advance Very Sharply.

growing crop by drouth, green bugs and cold weather. All deliveries of wheat, with the ex-ception of July, touched now high record marks. At the close July was up 3%47%c. September showed a net gain of 4%c and December a gain of 3%c. July corn was 1%c higher, onto were up 1%c and provisions 15@17%c to 25c higher.

The wheat market opened excited and

CHICAGO, May 21 .- The price of all lead-

The wheat market opened excited and strong, with prices ranging from 140%c to 11%c higher than yeaterday's final figures. As trading progressed, prices continued to go higher until all deliveries, except July, had sold at a higher price than previously recorded this season. Even May, in which there is very little trading, advanced to the dollar mark. September at one time sold at \$1.04 and December at \$1.04%. The high point for July was \$1.02.

from his holders. The market was influenced chiefly by crop news, the reports today being of a more serious nature than those previously received. Advances occurred on account of weather conditions, which told of great damage by drouth and cold weather. In addition to the domestic damage reports there were to the domestic damage reports, there were numerous unfavorable reports from shroad; particularly from Hungary and Southern Rus-sia, where the crop is size suffering because of lack of rain. The market derived additional strength from a message from New York, which claimed that Europe purchased about 2,000,000 bushels of American wheat on passage today. The market closed exceedingly strong. with the demand still apparently unsatisfied.

July wheat opened % to % 6% higher at 98 398%c, advanced to \$1.02 and closed at \$1.01%. September opened % 6% higher at 98% 399%c, sold at \$1.04 and closed at \$1.03%. December was %01%c higher at \$1.00%@ 1.01%, sdvanced to \$1.04% and closed at \$1.04. Commission houses and cash interests were Commission houses and cash interests were eager bidders for corn, which caused an advance of over 1c in all delivertes. Strength of wheat was partly responsible for the sharp upturn, but continued small receipts and delayed seeding were more potent influences. The market closed strong. July opened a shade to 1491c lower at 5314653c, advanced to 5475 and closed at 5416554%c.

Outs shared in the general advance in prices, September being especially strong and closing at a net advance of 2 cents, compared with

at a net advance of 2 cents, compared with the previous close. Advices from Kansas, Ne-hraska, lowa and Illinois, claiming that the crop in those states had been injured by green bugs and cold, dry weather, were the chief cause of the advance. July opened 16% thigher at 40%@47%c, advanced to 48% and closed at 47%c.

Trading in provisions was quiet, but the

market was strong. The sensational advance in grain was the main reason for the firmness of provisions, although a 5c advance in live hogs helped to some extent. At the close July pork was up 25c, lard 15@17½c higher and ribs 1716c up.
