FIRST ATTEMPT FAILURE

But Disciple of Mrs. Eddy Gets Police Court's Permission to Make One More Effort With

C. E. Young.

Christian Science has been invoked to cure C. E. Young of a dislocated shoul-der, drunkenness and of an innate aver-sion to useful work. In event local Scientists fall in this mission, Young must serve six months in the county jail. Upon the effectiveness of Mrs. Eddy's creed in this instance depends Young's hope of freedom, for he was convicted of being a drunken vagrant, in the Mu-nicipal Court yesterday forencon. It was only the interest taken by local Christian Science healers in his case and their confidence of being able to recon-struct Young's moral nature that saved him from being sent to full at saved him from being sent to jail at once.
Wide interest is being awakened in
the unusual case, for Christian Science
is put forward in an entirely new light when its adherents take a derelict from the hands of the police and essay to convert him into a useful and honorable convert him into a useful and honorable citizen. The results of the experiment will be watched with closest interest.

"If you succeed in making a man of this fellow there is plenty of other material hereabouts for you to work upon."

Judge Cameron said to Miss Carolyn Shanahan. a well-known Christian Science worker, who appeared in Young's

"If they will take a serious interest in our work I am sure we can make men of them," replied Miss Shanahan confidently.

Young's case is an unusual one in many respects. He is 35 years old, well educated and a grandson of Brigham Young, one of the founders of the Mor-mon Church, and incidentally of one of the largest families in history. Reared in the Mormon faith Young turned to Christian Science to help him when he is tottering on the edge of the gutter. He went to Miss Shanahan for treatmen after dislocating his shoulder re-cently. It was then discovered that his moral nature required treatment quite as badly as did his shoulder for he admitted his great fondness for drink and idle-

The case was considered by local Science healers and it was agreed that a cure might readily be effected with Young's co-operation, which he promised to give. To them his state was the result of wrongful conceptions of truth. His aliments were fancied, not real. His ailments were fancled, not real Nothing possesses reality or existence except the Divine mind. Eternal truth is changing the universe, according to Christian Science. Surely it could change Brigham Young's derelict grandson.

Young was at once placed under a course of divine metaphysics. This was several days ago, but with worldly practices so strong fastened upon him it was not at all strange that Young should wan-

der into Blazier's and proceed to re-cruit a jag. Eternal truths, metaphysics, faith and spiritual understanding were put aside for the wild, impulsive, uncontrollable creed of Young was again Eddy describes as a corporation of evil beliefs, passions and

appetites, fear, depraved will, pride, envy, deceit, hatred, revenge, sin, sickness and disease. He had tasted of the amber substances that drove away the Dr. Jekyll of his nature and left Mr. Hyde in control. For many hours he kept up his insobriety, incidentally established a reputation with the police for drunkenness.

and idleness. The awakening came in Jail.
Fortunately for Young, Christian Science did not despair of saving him from his unreal self. Miss Shanahan appeared in court personally yesterday forenoon and asked for his release, saying a term in jail would serve no good purpose. She was confident of her ability to effect the transmutation whereby he will be no longer the purely physical man but the Christian Science ideal of humankindwisdom, purity, spiritual understanding, spiritual power, love, health and holiness.

Young showed very plainly the effects

of the wild time that led up to his ar-rest. His face was unshaven and dirty, his eyes and lips were swollen with dis-sipation and one shoulder hung awry, giving him an aspect of utter shiftless-

"Stand up there and be a man. Hold our shoulders erect," said Judge

"I can't—my right shoulder is out of joint," said Young.
"Haven't you had it set?"
"No, that is not necessary."

"Do you expect Christian Science to repair a dislocated joint?"

"It will do so, I am sure."

"Well, it doesn't appear to have done you any good as yet and you had better do something for that," suggested Deputy City Attorney Fitzgerald.

"It is nothing. Matter is unreal—" Young commenced weakly, but apparently he became tired or timid in the midst of his explanation, for he did not complete the statement.

"You are attempting a big task when you set about reforming a man who has fallen so far," suggested Judge Cameron, addressing Miss Shanahan. "Generally persons of this class reform of their own accord or they do not mend their ways

"Just to aid this experiment along, I promise you that if you appear again in this court you will get six months," Judge Cameron concluded, addressing Young.
