Judge Wood Hopes to Complete Jury Tonight.

### MONTH'S TIME CONSUMED

Prosecution Expected to Require Another Thirty Days in Introduction of Testimony-Chief Interest in ... Trial Is Story of Orchard.

BOISE, Idaho, June 2.- The work of securing a jury in the case of William D. Haywood, charged with the murder of ex-Governor Steunenberg, will be resumed tomorrow morning at 11 o'clock, unless the prisoner has a relapse. Today Haywood is himself again. Although a little drawn and pale as a result of the medicine and the opiates administered to re-Heve him from the acute pain which he suffered yesterday morning, he appeared to be in his normal condition. He was out early in front of the courthouse and walked in the sun, afterward sitting with members of his family among the pleasant surroundings of well-kept lawns and rose bushes fragrant with blos

Judge Fremont Wood has stated that he is determined a jury shall be secured tomorrow if possible. Forty-four talesmen remain of the venire of 61 summoned last week. Only one more peremptory chal-lenge can be exercised and this lies with the defense; the prosecution having exhausted its ten peremptory challenges or Friday. This leaves two men to qualify if the defense should see fit to exercise its last challenge. That they will do so is admitted by counsel, but it is not expected that there will be much difficulty in qualifying the two men out of the talesmen yet to be examined.

## State to Present Its Case.

Should this not be done within the regular hours, it is quite probable that Judge Wood will hold a night session. With a jury secured before court adjourns tomorrow night, the case for the state will be opened by James H. Hawley, leading counsel, on Tuesday morning.

This, the first gun in the real engagesition taken by the State of Idaho in the with Moyer, Pettibone, Simpkins and Orchard, were responsible for the death of Frank Steunenberg on the night of December 30, 1905.

This opening address to the jury will be the first official outline of the case, which the prosecution hopes to prove. Ever the arrest of the three men. Haywood. Mover and Pettibone, speculation has been rife and innumerable statements, more or less well-founded in fact, have been published. It is, however, true that except in the most general way no authorfiative statement has been given out.

## Long Wait for the Story.

It is now nearly 16 months since Harry Orchard, who by his own confession, it is alleged, is the assassin of Governor Steunenberg, made a sworn statement impli cating what is called the "inner circle" of the Western Federation of Miners in the plot to murder Steunenberg and in a eries of crimes extending over many years of the history of labor and mining troubles in Idaho. Within a few days after Orchard made this statement, Moyer, the president of the Western Federation of Miners; Haywood, the secretary and treasurer of the organization, and Pettibone, a member, were arrested in Denver on extradition warrants, and brought to this state on a special train under circumstances that have aroused much discussion since the arrest, and which have country in order that the rights of the prisoners might be preserved.

Intimation of what Orchard has stated in his confession has come from one source and another and from time to in the last year, but it may be stated positively that very little is known of the contents of the confession which will figure, it is stated, as the most senwood, the first of the prisoners charged with the murder to be pisced upon trial.

of Denver, will open for the defense, but it is understood that it has been agreed that the case for the defense will not be shown until after the case for the prosecution is all in. It may therefore be several weeks before Mr. Richardson delivers his opening address. It is conceded that the introduction of the evidence for the state, and especially the testimony of Orchard, will be contested at every point. This will mean probably that the state will not be able to conclude under three weeks or possibly 30 days. The case for the defense will take equally as long. It may therefore be estimated that ment, will be a lengthy recital of the po-sition taken by the State of Idaho in the opening tomorrow-if indeed, a jury has

Fremont Wood, the presiding judge, is trying his first important murder trial. In The charge has been made by the supporters of the prisoners that the state did not intend to give the men a fair trial, and it has evidently been the determination of the judge to prove at the mination of the judge to prove at the that it was only a half-day at the outset that the utmost fairness must be Hall, and the license bureau expected throughout the trial. Haywood's Impressive Personality. Haywood, the first of the prisoners to be tried on the charge of the murder of Steunenberg, is a man of impressive physical appearance. It was therefore a matter of surprise when on Saturday it was announced that the prisoner was too ill to appear in court. The physicians who were called in were at first alarmed. Haywood was suffering great agony and was at times in convuisions and unconscious. Oplates were administered tosclous. Oplates were administered to-gether with other medicines and a fur-ther examination showed that there was nothing serious the matter. Throughout the case so fur, Haywood has been a close observer of every detail, and has consulted with his counsel on every point. Story Is That Dissatisfaction Over Decline in Northern Pacific and G. N.'s Methods of Invasion Will Help Hill's Enemies.

SEATTLE, Wash., June 2-(Special.)-High railroad officials have the story from New York that friends of President How ard Elliott have organized to wrest the control of the Northern Pacific and Burlington from James J. Hill. The most recent announcement that Hill had de cided to replace Elliott as president of the Northern Pacific is said to be responsible for the organization. Elliott was taken from the Burlington at the suggestion of George W. Perkins, of Morgan & Co. and his influence is reported to be involved in the anti-Hill move.

Ben Campbell's inexplicable resignation as fourth vice-president of the Great Northern, where he was receiving \$30,000 a year to accept \$25,000 s, year under Presi dent C. S. Mellen, of the New York, New Haven & Hartford is said to be a step in a plan to place him with the Northern Pacific if the anti-Hill scheme succeeds. Mellen, who was forced out of the Northern Pacific by Hill influences, is said to have loaned his influence in th anti-Hill fight and Elliott's Boston

friends, who have supported Hill in th past, are quoted as deserting him. Distatisfaction over the decline in Northern Pacifics has helped Elliott. for his friends claim the stock market does not reflect the showing he has made with the road. It is pointed out, too, that Hill is building Great Northern feeders into Northern Pacific territory without hindrance while he prevents Northern Pacific expansion

The story of an anti-Hill fight comes to Seattle from two directions and is credited in the higher rafiroad circles.
