Worth \$7.50 to \$9.50; special **\$3.48**

WILL BUILD MODEL ROAD

Government to Give Oregon Sample Near Forest Grove.

OREGONIAN NEWS BUREAU, Washington, June 5.—The Good Roads Division of the Department of Agriculture will in the near future build a model road in the vicinity of Forest Grove, Or., under the direction of S. C. Lancaster, one of its experts. Senator Bourne recently took up with the Department the matter of good roads demonstrations in Oregon and was assured that the Department would do everything possible to aid the people of that state in their efforts to improve their public highways. The division of Public Roads is handicapped by having a limited force of engineers and a decidedly limited appropriation. Mr. Lancaster will take with him a corps of men and the necessary machinery for use in building the sample road near Forest Grove. This point was chosen because conditions there are similar to other parts of the Willamette Valley, and moreover, because it is accessible to Portland and can be readily reached by farmers from all over the state who have occasion to visit that metropolis.

Next season Mr. Lancaster will be assigned to deliver lectures on good roads in Oregon, Washington and Idaho, in some instances building demonstration roads. It was at the joint request of Senator Fulton and Senator Bourne that Mr. Lancaster was assigned to this work for next season.

Offers France Same Privilege.

WASHINGTON, D. C., June 6.—Secretary Root has informed the Government of France that he is prepared to extend to the French Chambers of Commerce the same privileges relative to the certification of invoices in the cases of goods

exported to America as are accorded to the German Chambers of Commerce under the modus vivendi just concluded and proclaimed. It is stated that like privileges may be claimed and will be accorded to other nations if the conditions are similar, that is, if the Chambers of Commerce occupy the quasi governmental organizations which they enjoy in Germany.

No Grazing Fees for 1907 Season. OREGONIAN NEWS BUREAU, Washington, June 5.—From correspondence received at the Bureau of Forestry, there appears to be some misunderstanding as
