IDENTIFIED BY RELATIVE

DR. VAN TASSEL'S BROTHER-IN-LAW ARRIVES.

D. W. Burns Will Accompany Unfortunate Berkeley Physician Home, Leaving Today.

Having almost fully recovered his memory, Dr. Fred H. Van Tassel, of Berkeley, Cal., who has been at St. Vincent's Hospital for the past few days under the care of Dr. K. A. J. Mackenzie, will leave for his California home this morning, in company with his brother-in-law, D. W. Burns, of Redondo, Cal. Dr. Van Tassel is the man who came to Portland in search of his lost identity, having forgotten who he was or where he lived. He reported his strange case upon arriving here, to Dr. K. A. J. Mackenzie, who decided that the man was a physician, and this clue led to final identification.

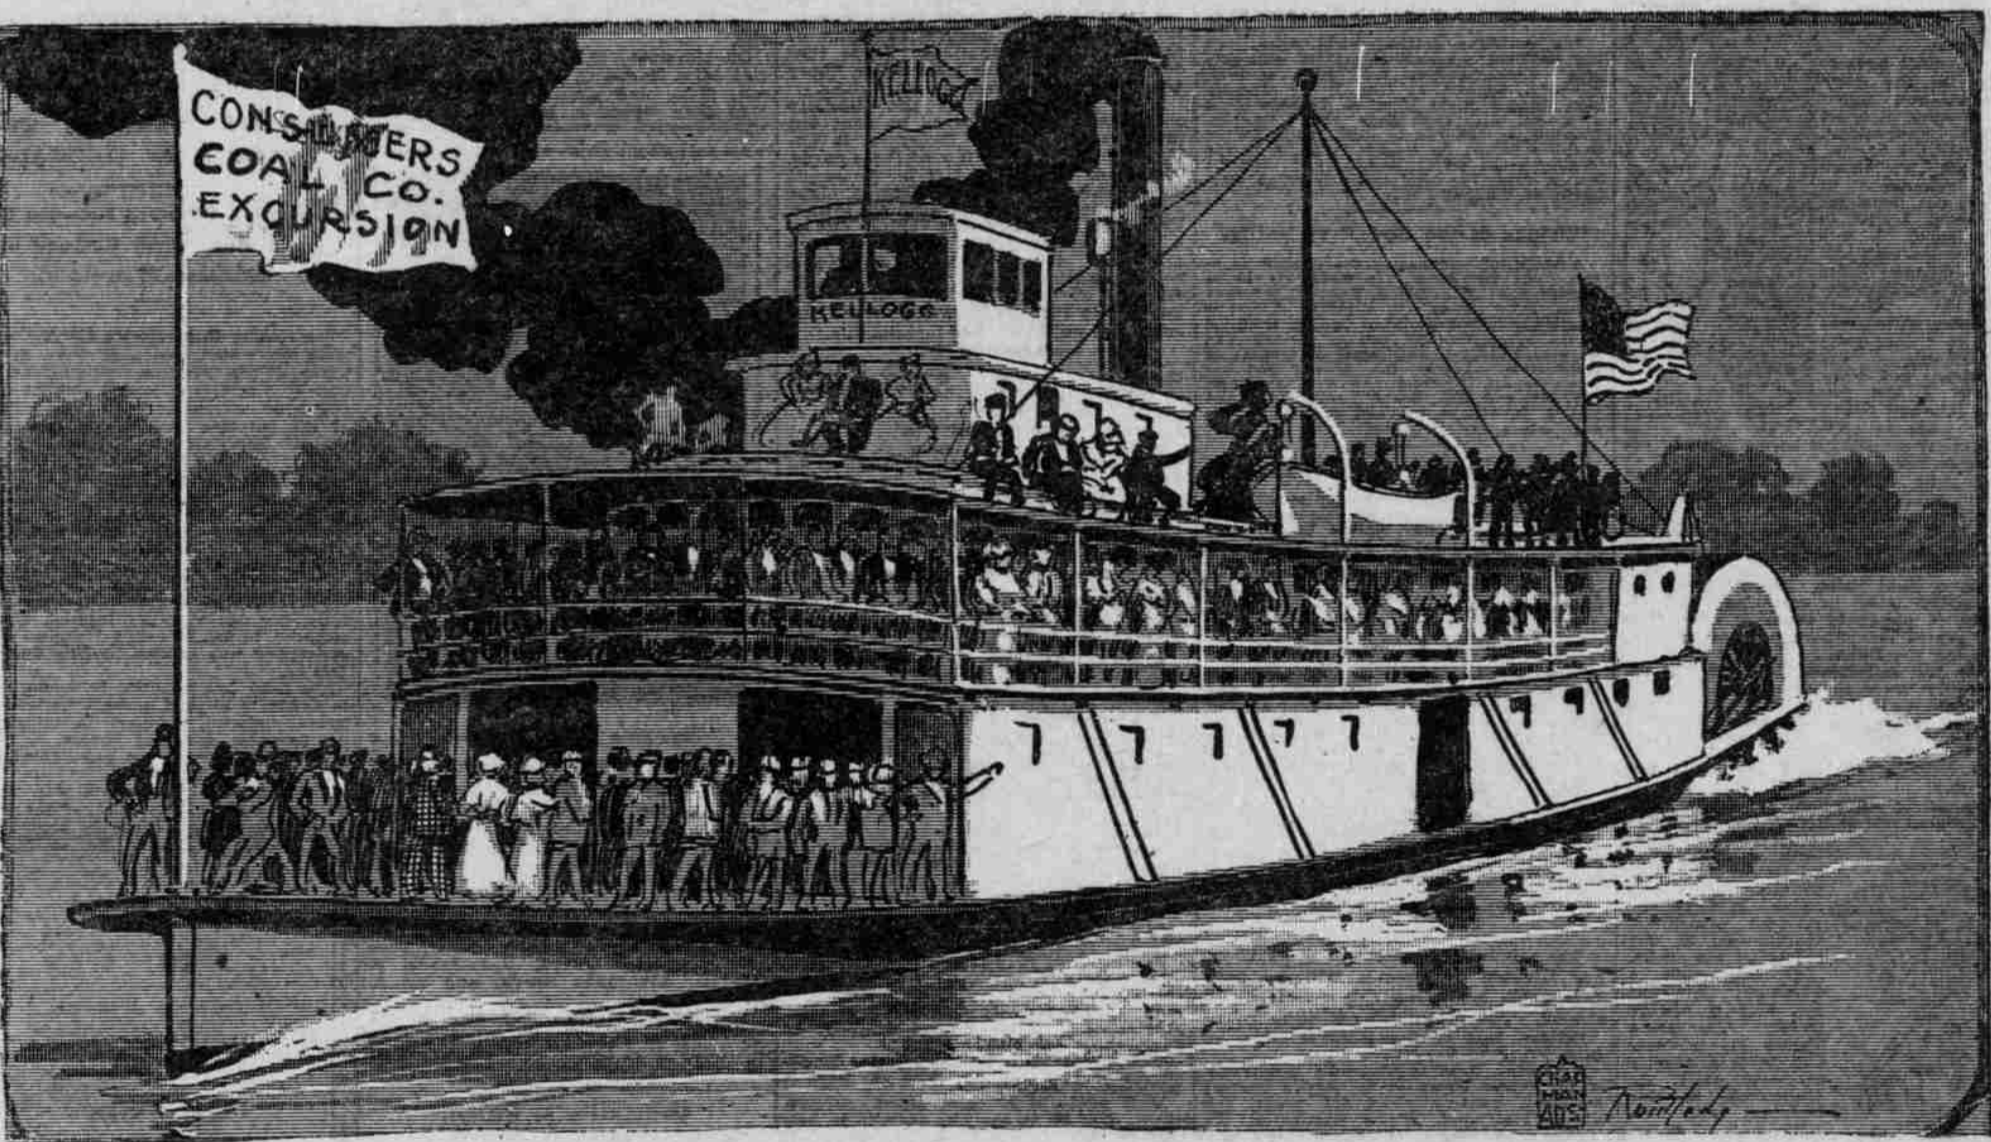

D. W. Burns arrived in Portland yesterday morning, and at once recognized the man as his brother-in-law. Dr. Van Tassel knew Mr. Burns, and arrival of the latter seemed to restore his memory in connection with his family affairs. The brother-in-law scouted the idea of any financial or family trouble being responsible for the strange disappearance, and says it was undoubtedly the blow on the head that the doctor received from robbers that temporarily deprived him of all sense of memory. The California relatives are overjoyed that the missing man has been found. While he is still somewhat hazy in his recollection of some incidents of the past, his mind seems to be clearing up gradually, and it is expected he will have full use of all his faculties again within a few days. Dr. Mackenzie is happy over the restoration of the man to his friends, which was brought about through the belief of Dr. Mackenzie that the man was a physician, and the subsequent communication with the family. How Dr. Mackenzie discovered that the man had practiced medicine he can hardly say, but a combination of minor incidents convinced him that such was the case, although the evidence was too intangible to admit of proof. This detective work on Dr. Mackenzie's part is responsible for establishing the identity of Dr. Van Tassel.

AN OLD EDITOR Found \$2000 Worth of Food. The editor of a paper out in Oklahoma said: "Yes, it is true when I got hold of Grape-Nuts food, it was worth more than a 1000 doctor bill to me, for it made me a well man. I have gained 25 pounds in weight, my strength has returned tenfold, my brain power has been given back to me, and that is an absolute essential, for I am an editor and have been for 35 years. "My pen shall always be ready to speak a good word for this powerful nutritious food. I had of course often read the advertisements regarding Grape-Nuts, but never thought to apply the food to my own use, until, in my extremity and sickness the thought came to me that it might fit my case. The statements in regard to the food are absolutely correct, as I have proven in my own case. One very fortunate thing about the food is that while it is the most scientifically made and highly nourishing, concentrated food I have ever known, it has so delicious a taste that it wins and holds friends." "There's a Reason." Read "The Road to Wellville," in packages.
