GOMMERCIAL CLUB **CORNERSTONE LAID**

Impressive Ceremony Under Auspices of Masonic Grand Lodge of Oregon.

BAPTISM FROM THE CLOUDS

Summer Shower Fails to Interrupt Exercises-Speakers Pay Glowing Tributes to Portland Business Men's Progressive Spirit.

Masons, Commercial Club members and leading business and professional men generally participated, directly or men generally participated, directly of indirectly, in the mying of the corner-stone of the \$350,000 Commercial Club-huliding, corner of Fifth and Oak streets, yesterday afternoon. The Masons followed their solemnly im-pressive ritual of their order; the mem-hers of the Commercial Club were in-terested in the structure as their new pressive ritari of their organ, the members of the Commercial Club were interested in the structure as their new home and the citizens assembled to show their appreciation of what the ceremony meant. They recognized in the building for which the cornerstone was luid a monument to the progressive spirit of Portland and they were present to congratulate the builders on the success of their work for a bigger Portland, a larger state and a greater activity in the Pacific Northwest.

A drenching Summer shower was not permitted to so much as interrupt the exercises, which were under the immediate direction of Dr. W. T. Williamson, of this city, grandmaster of the Masonic Grand Lodge of the state. Following the ritualistic ceremonics, addresses recounting the history of the commercial Club and predicting a still more active participation by that body

more active participation by that bedy in the progress of the city and state were made by Theodore B. Wilcox, Tom Richardson and Colonel James Jackson. Colonel Jackson spoke as the personal representative of Governor Chambertain, who was not able to be

Baptised by a Shower.

Baptised by a Shower.

Shortly after the moon hour it appeared that the intermittent showers of the week had ended. The clouds had partly cleared away and when the procession alarted from the intersection of Third and Alder streets, the sun was shining brightly, with not the slightest indication that the exercises would be interfered with by the shower that followed. After all, however, it seemed peculiarly appropriate that the cornersions should receive a baptism of rain, typical of the state for whose advancement the energies of the organization to be housed in the structure will be directed.

Promptly at 2 o'clock the Masons assembled at their temple, Third and Alder streets, where the procession was formed. Headed by Brown's band and the members of Oregon Commandery No. 1, Knights Templar, in full uniform, who acted us a guard of honor to the 400 members of the order who fellowed, the parade moved south to Morrison street, west to Sixth, north on Sixth to Alder, where the members

followed, the parade moved south to Morrison street, west to Sixth, north on Sixth to Alder, where the members of the Commercial Club, preceded by the members of the board of governors, joined the procession. The column then moved north on Sixth to Oak, thence east on Oak to Flfth, where the exercises were held.

Cornerstone in Place.

The ritualistic ceremony by the Masons insted about 30 minutes. It was introduced with an invocation by Rev. J. R. N. Bell, of Baker City, state chaplain, and then followed the solemn and impressive sites of the order. Before the cornerstone was put in place, a copper-plated box containing a number of interesting articles was sealed up under it. The contents of Before the cornerstone was put in place, a copper-plated hox containing a mimber of interesting articles was scaled up under it. The contents of the box were; Coples of the Oregonian of yesterday, the Telegram and Journal of Tuesday, a Masonie jewel with the Lewis and Clark insignia, presented by Sig Sichel; an engraved list of the beautiful contents of the beautiful contents of the chamber of Commerce building, and its home was certainly confortable and convenient, and the organization in every department was prosperous to the highest detection. ed by Sig Sichel; an engraved list of the beard of governors of the Commer-cial Club, presented by C. W. Hodson, president; a copy of the constitution and by-laws of the club; a list of the subscribers to the building fund; a list of the officers of the building associaand a list of the 1001 members

At the close of the ritualistic exerclass, Mr. Wilcox, chairman of the executive committee of the Commercial Club, spoke in behalf of the building association through whose efforts the building is being exected. culturly appropriate," he

said, "that Masons, who draw out and hulld up the best there is in every man who joins them, should lay the corner-sione of this structure, which is to be the home of another and a newer or ganization which is committed to build ganization which is committed to build up the best there is in the Pacific Northwest. Portland is a great city, and Oregon a grand state formed from the wilderness by the early ploneers. The late William S. Ladd. H. W. Corbett, Henry Failing, C. H. Lewis and E. C. Reed were fivemen who stood previation; and alone for the progress, development and building up of the state. They accomplished much, but have passed away and their work must have passed away and their work must be assumed by others. We now have with lofty buildings and thou-

The destinies of this city could not now be attended to by only five men. These targer responsibilities have been taken up by the Commercial Club of which, were they living, these five men I have mentioned, would be leading members. This organization now has 1000 members and the building that is being creeted for its permanent home is a monument to the progressive spirit of the business men of Portland;

It is important that we have more "It is important that we have more buildings, more homes. Would that every laboring man owned his own home. We want many more homes, for in them is assured cleaner and better administration of public affairs. Let's have the best city, not necessarily the largest city in the country, but at all events a city possessing the highest type of citizenship."

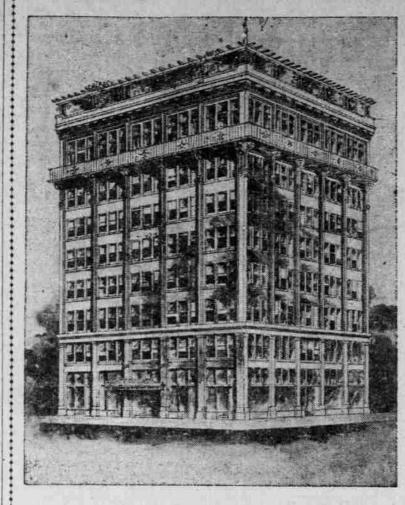

Tom Richardson prefaced his ad-

Richardson prefaced his address by reading a telegram from C. W. Hodson, president of the Commer-Cial Club, who wired from Billings, Montana, respecting his mability to be present at the exercises. Mr. Rich-actison then said in part:

Tom Richardson's Speech.

The popular commercial body has become a secondly and when I say that the Portland Commercial Club has reached a higher point of effectiveness than any other semilar organization to this country. I trust I may not be

included paintings, bronzes and marbles that

Fire Blessing in Disguise.

It can truthfully be said that the fire was the foundation for a great future. The present site was purchased and \$350,000 raised to pay for this epicniid edifice, and we all join with pride in the belief that it will be not only the most commodious, but the most convenient club building occupied by any popular commercial body upon the Western continent.

Speaks for the Governor.

At the request of the Governor of Oregon, and personating him in his unavoidable ab-sence, I here assist in laying the cornerators of an institution which is to be a great agent

In the prospecity of the community, the Com-mercial Chib. Great, because it unition and organizes the energies of all workers to ac-emplish results; great, because it harmonizes and humanizes the competitions of individuals for the good of all. Great, because in the battless of commerce and trade, which are a part of our daily existence, it is an organized acmy and not an almices zeob. What this Commercial Club has done in the past is a record to be proud of, what it will accomplish for the state and city in the future can hardly be estimated, but in its corridors will assem-ble the brains and wealth of the community and from the councils should go faceh the

ardson. In part he said:

n the prosperity of the community

Colonel Jackson followed Mr. Rich-

n similar organizations went to pieces, no in the cities of the Coast, but in most be cities of the country as well. With the organization of the executive committee in April, 1904, the name was changed by habit to Portland Commercial Club, for advertising purposes, and this name was adopted officially in supplementary articles of incorporation April 16, 1906. The executive committee at present is: Theodore R, Wilcox, William M, Ladd, A, L. Mills, Robert Livingstone, T. B. Honeyman, J. C. Ainsworth, J. Frank Watson, Walter F, Burrell and L. N. Fleischner. There have been but two changes in this committee since been but two changes in this committee since ing W. J. Burns and T. D. Honeyman suc-ceeding Allen Lewis.

The exercises were concluded with the playing of "America" by the band. Large Subscribers to Building Fund.

business of the club have been handled by this committee, and the people of the city, state and country are familiar with their week and more especially with the Cregor Development League, which is the outgrowth of their endeavors. To give even a fraction of the important functions and great undertakings initiated, festered and successfully carried out by this club would be to impose upon your time, and it is sufficient to say that it has never been other than an active organization. While each and every president of this club has done his full duty, it is only fair to say that no history of the Portland Commercial Club would be complete without speaking especially of the personal work of H. M. Cake, who for six years devoted the best energies of his brain, heart and pocketbook to the betterment of this club. word of power that will bring prosperity to the people. A great future lies before these Pacific Coast cities. The world's commercial activities are gradually changing from the Occident to the Orient and the great ocean that laves your shores for hundreds of miles will be the access of its flarcest contentions. We need perfect organization and strong men to bandle the coming crises. We will have active and shrewd competitors and will require all the ability and patriotism and power we can bring to hear to avoid being relegated to a subordinate plane. Over these halls should foat the banner of "American commercial supremacy" and within its walls should be organized the ways and means to accomplish it.

Vancouver Will Take on a Metropolitan Appearance.

VANCOUVER, Wash., June 12-(Speial.)-At the last regular meeting of the Vancouver City Council, the ordinance for paving Main and Washington streets, together with the cross streams from First street to Twelfth was passed. These streets are the main business streets in this city and the improvement will add greatly to the appearance of the place. The payement will be bitulithic and all the sidewalks will be of artificial stone and 12 feet in width.

The estimated cost of the improvement is considerably in excess of \$100,000, and

THE DOCTOR LAUGHED But the Woman Was Frightened.

A physician of Columbus, Ga., rather poked fun at a lady patient who insisted she had heart disease. The trouble really was caused by coffee

drinking, and the nerves were so affected drinking, and the nerves were so affected that it gave her every indication of heart disease. This is true of thousands of people who are badly hurt by the caffeine of coffee, and, it is understood that if continued long enough, real organic heart disease will set in.

The lady referred to above says: "I had been running down in health for a number of years and suspected that coffee was hurting me but could not get up courage to quit it. My heart troubled ins

courage to quit it. My heart troubled me so that I was very short of breath, and could do little or nothing that required exertion. I had fearful nervous headaches nearly every day, and was exceedingly nervous, with indigestion and badly constipated.

"The doctor laughed at my idea of

"The doctor laughed at my idea of heart trouble, but knew that I was in a serious condition generally. Finally I was induced to quit coffee and take up. Postum Food Coffee. The change has I feel like another per-

"My heart does not trouble me at all, and the stomach and nerves are decidedly improved. My head does not give me the old trouble if did, while the low-els are regular without any purgatives or modicines of any kind.

"I can hardly express my gratification for the relief from suffering brought on by the use of coffee, and I cannot thank Postum enough." Read, "The Road to Wellville," in packages, Physicians call it "A Health Classic." "There's a Reason." "My heart does not trouble me at all.

ARGUMENT IS ISSUED FOR THE FORMATION OF NEW STATE OF "LINCOLN"

MAP SHOWING BOUNDARIES OF PROPOSED NEW STATE, AND THOSE OF OREGON, WASHINGTON AND

IDAHO, AFTER CREATION OF "LINCOLN." Reasons for a New State Between the Rocky and Cascade Mountains' is the title of a pamphlet that has been issued by the Spokane Chamber of Commerce and embodies a report submitted to that body by a committee of members, comprised of F. H. Mason, president of the Holley-Mason Hardware Company; N. W. Durham, managing editor of the Spokesman-Review, and C. Herbert Moore, Mayor of Spokane. The bookiet sets forth arguments favoring the setting aside

of portions of Oregon, Washington and Idaho to form a separate state, for which the name of Lincoln has been suggested and which is outlined in the accompanying map.

The compilers of the report have entered into the history of the Northwest with the object of pointing out that the cleaving out of commonwealths from the Old Oregon country was carried on more by opportunism than with clear insight as to what would ultimately be best for the various districts affected. It is contended that neither Oregon, Washington nor Idaho, as at present bounded, included a district that would naturally be encompassed by the lines of a sin-

As proposed, the new state would cut off the panhandle of Idaho, a portion of Eastern Washington and the northeast corner of Oregon. Following out the project still further, the area of Oregon would be also reduced by annexing the remainder of the eastern part of the State to Idaho as recompense for the loss of the panhandle district.

It is urged in the report that the panhandle and Southern Idaho are divided by a range of mountains and that each

section has separate interests. The fact is cited that legislators from the northern part of the state must pass through Washington and Oregon to reach their state capital, as there is no railroad communication, and, in fact, little more than trails connecting Northern and Southern Idaho. Likewise, it is maintained that the interests of the eastern and western sections of Oregon and Washington are separate. It is declared this has led to friction within the state in the matter

Should the state lines be changed according to the outline, it is held that each district could work for its own best interests without fancied or real grievances against any other district. With this accomplished, it is argued, each state would be in a position to work in harmony with the others for the upbuilding of the entire Northwest.
