

City Republican and Oregon **Development Club His** Organization.

DEVLIN IS ITS PRESIDENT

Defeated Candidate for Mayor Heads New Political Association-J. B.

Coffey Is Secretary and F. E. Reed Is Campaign Manager.

Ex-United States Senator Fred W. Mulkey's senatorial boom has been launched, and the destiny of his cam-paign will be in the hands of F. E. Reed and not Phil F. Rogoway. Yesterday while the rains were murdering the roses, preventing ball games and drenching the thing the ninstrel street parade, Mulkey's boom was sounded and a brand new political organization was born with Thomas C. Deviln for president and John B. Coffey for secretary.

for secretary. And the name of the new organization will be something like this: "City Re-publican and Oregon Development Club." Just why the word development chub." Just why the word development should creep into the title of the Mulkey organi-zation has not been explained. Reed has been named campaign manager. He is the man who conducted the campaign of George A. Steel for State Treasurer and T. C. Devlin for Mayor of Portland.

The bright mind that conceived the organization of the cub called the first meeting on Friday. Some of the politi-cal wiseacres looked at the day, not the sate and shock then here by cal wiscacres looked at the day, not the date, and shook their heads, but attended the meeting. Wednesday, when a neatly printed letter, signed by Thomas C. Deviln, urging an attendance at the Swet-land building, room 318, reached them through the mails and bore the date, June 13, some of them stood up so straight that they came near failing backwards. They wanted some excuse for renegeing the meating and them 12 suited as cold as the meeting and June 13 suited as well as any, so they stayed away.

Those Who Were Present.

Fragments of the Friday, June 7, meet-ing sifted out last Monday, but because the big gathering was to take place yesthe big gathering was to take place yes-terday and fearing publication would chase the organizers to the "tall and funct," they would not let out enough to print. At the first meeting Mr. Deviln was chosen temporary shairman and Mr. Coffey, tem-porary secretary, There were present Gus C. Moner, assistant district attorney, J. D. Meyer, Mr. Mulkey, S. C. Beach, A. A. Balley, Edward Werlein and a number of others. Reed was there also and one thers. Reed was there also and one of the important things discussed first was an assessment of \$2.75 on each men-

was an assessment of \$2.75 on each mem-ber, the funds derived from this assess-ment to go toward paying Reed. This did not ault some of those present. They did not like Reed and liked his political methods and history less, so they flew the coop. They did pot even respond to the Wednesday letter of appeal which Devilo sent out. Devlin sent out.

Devin sent ool. When Devin called the gathering to or-der yesterday afternoon in Reed's offices in the Swetland building, about 16 were present. Mr. Mulkey was absent. Whether all present wore gum shoes is not a mat-ter of record. Anyway here are those who lent dignity to the assemblage: C. F. Swigert, N. D. Beurgen, J. W. Bev-evidge, J. D. Meyer, M. J. Driscoll, Ed. Werlein, A. L. Barbur, Reed and others. Once the meeting was under way, Mr. Devin was elected president and Mr. Cof-fey secretary. A vice-president, treasur-ir and executive committee were also slected, but the men chosen for the remaining positions were not at the meet-

publicans will grow wider. It will of course be denied by those who are in the new club, that there is any attempt on foot to build up a Republican machine. The new rupture in the Republican ranks will be a formidable factor in the re-election of Senator Fulton. With the lively row on that is brewing it might come to pass that Fulton will receive a majority of the Republican votes in Mult-nomah County. Just at present Senator Fulton is in Eastern Oregon looking over, and repairing his political fences. Before the Summer is over, he will make a tour of the entire state and his friends in Portland will look after his interests here. FENDERS FOR It was apparent on the streets yester-day that the Senatorial bee was buzzing

lively, for a number of shrewd politicians were discussing the "next Gregon Sena-tor." Ex-Governer T. T. Geer's name was mentioned and so was the name of W. B. Ayer.

POKER PLAYERS ARE FINED Three Sportive Citizens of Woodstock Feel Law's Hand.

Of mature years and good judges of a poker hand three residents of Wood-stock paid §5 each to the state yesterday for indulging in a quiet game of draw in the town hall of the suburb, where they were led by the Janitor of the hall, who happens to be a ward of the Juvenile Court. They pleaded guility to gambling and were fined yesterday by Judge Cle-land. The men are John Rigby, Joe De-ters and S. Maker. District-Attorney John Manning has written to the officials of the Portland Railway, Light & Power Company that they must equip the cars with new fenders by July 13. After that date, he states in a letter to General Manager Fuller, he will enforce the state law, and will cause the arrest and prosecution of the officers of the company in case of violations. He re-cites the state law and explains that, in his opinion 20 days in which to

ters and S. Maker. The janitor was also in the game with two of his boy friends, all of whom on account of their youth, were turned over to Judge Frazer. The janitor, Lorne Petrie, assured the gamesters of absolute immunity in his territory. The play was interrupted by two probation officers.

PERSONAL MENTION.

company in case of violations. He re-cites the state law and explains that, in his opinion, 30 days in which to equip the cars is sufficient. He de-clares that much complaint has been made to him of the alleged useless-ness of the present fenders, and calls the attention of the company officials to the fact that each case of violation will subject them to prosecution. General Manager F. I. Fuller had not received Mr. Manning's letter last night, but said: "I's saw by the papers Mr. Manning has written a letter to the effect that since the repeal of the ordinance le-galizing the Hunter fender, the fender we use does not conform to the state law. The information in his letter is correct, and the only exception we could take to it is that in his opinion 30 days is a freesonable time to equip our cars with a fender that complies with the requirements of the state law. "It is a physical impossibility to ob-tain new fenders and place them on the cars in that time. In fact if new fen. Rev. William Hiram Foulkes, of the First Presbyterian Church, delivered the convocation address at the annual commencement exercises of Whitworth College, at Tacoma, last night. He will return to Portland Sunday A. M.

CHICAGO, June 13 .- (Special.)-The folwing Northwestern people registered at

lowing Northwestern people registered at Chicago hotels today: From Portland-Neil O'Hare, Miss O'Hare, H. DeHaas, Wells Odbut, at the Auditorium; M. F. Wallace, at the Briggs; Mrs. W. L. Spaulding, at the Ma-jestic: Ralph S. Earnest and wife at the Stratford; Charles Chester, at, the Kal-serhof; William P. Hope, at the Palmer House tain new fenders and place them on the cars in that time. In fact, if new fen-ders were to be obtained in the East and were ready for shipment today, it would probably take from 29 to 30 days House

would probably take from 20 to 30 days to reach this city, and might take much longer. Again, if an order were placed for the necessary number of fenders to re-equip the 300 cars of the system, the probability is that the shipment could not be made for some time, for manufacturers of all kinds of street railway equipment are crowded with work, and in many lines orders are not taken for shipments inside of five and six months. OREGONIAN NEWS BUREAU, Wash-ington, June 12.-Dr. Andrew C. Smith and bride are sightseeing in Washington. They have been in New York and Atlantic City and on their return will stop at Philadelphia and Chicago.

very peculiar position. Immediately after the passage of this resolution, we would have been obliged to have run every car we operate into the barn and hold them there for weeks or perhaps months, or else we would have had to operate them technically in violation of the state law. As the object of the operation of a street rail-way system is to provide transportation facilities for the city of Portland, there was of course only one practical ourse open to us. Meanwhile the fender investigation goes on and arrangements have been made for testing a number of fenders, built for trial purposes, Saturday at 5 A. M. If the local fenders fail to show any superiority over the fenders already in the market, the decision will then be made as to the style and type of fender to be stated at the carliest possible date. The would infer from the many criti-fortland that they were selected without any regard to efficiency, and only for that they puer small variation in construction, are used very are considered by many railways as useful and effective as any. generally throughout this country and are considered by many railways as useful and effective as any. I have just read with much interest a report of the Railroad Commission of Massa-chusetts on May 21, 1907, on the sub-ject of fenders for street railways. This is an interesting article and the decisions reached are after 12 years of consideration by the Board. After giving their views on the fender ques-tion and absolutely failing to recom-mend any particular type of fender, they conclude with the following state-ment:

they conclude with the following state-ment: "It is the purpose of the Board in the enforcement of these views to se-cure actual, experience with the dif-ferent types of fenders and wheel guards that promise results better than those obtained in the past." "In other words, after over 10 years of trial of many types of fenders used in that populous state, covered with a network of electric railways, they are going to compel experiments for an-

going to compel experiments for an-other year in order to see if they can-not find another fender to do the work.

HIGH PRAISE FOR THIS CITY

Colorado Business Man Finds Much to Admire in Portland.

G. L. L. Gann, president of the Busi-news Men's Association of Pueble, Colo, arrived in the city yesterday morning from San Francisco, Mr. Gann has burg of the West," for the "Pitts-burg of the West," for the past 35 years, and while he is confident of the future not only of his home city but of the State of Colorado, he was none the less delighted with Portland. Dis-cussing the wholesalt district of the city, Mr. Gann said: "I have put in the day visiting whole-she dry goods houses, hardware houses, and those which handle crock-ery, tinware, iron, drugs, leather, and

and six months. "If fenders had to be manufactured in this city, it would undoubtedly take much more than 30 days rush work to build 300 fenders and attach them to the cars. I also note by the morning paper that the Council has appointed mother fender committee to investihouses, and those which handle crock-ery, tinware, iron, drugs, leather, and I am free to express my amazement at the marvelous extent of the stocks and the enormous business that must be carried on in this city. I had no idea that any jobbing-houses west of the Rockles were conducted on the scale of these Portland establishments. In one store I visited I was informed that they had received this season 42 carloads of washing machines, while stoves by the washing machines, while stoves by the trainload and other merchandlee in similar quantities were not in the least unusual

Members Will Not Talk.

One or two of the chosen members of the Mulkey boomers were seen last night, and an attempt was made to get night, and an attempt was made to get additional facts regarding the organiza-tion, but all were silent, had something to say about not "betraying confidences" and all denied that the new club, with Devils, the defeated Republican candi-date for Mayor, at its head, was a siam at H. M. Cake, also a candidate for Uni-ted States Senator, whose brother W. M. Cake was Deviln's campaign chairman, Be this as it may, one thing is sure. Deviln is out for Mulkey for United States Senator, and it gives some strength to the rumor floating about, prior to, and

to the runnor floating about, prior to, and after the recent campaign, that Devlin did not like the way Chairman Cake was tandling his campaign, because it was said Chairman Cake was trying to build up a machine in favor of his brother, H.

A great deal of seemingyl unjust crici-tism has been passed upon Chairman Cake, because of Devlin's defeat. The defeat of Devlin was charged in part to Cake, but many believe that Devlin's defeat if it can be charged to anyboly, should be charged to Reed. Reed came here from Quincy, III. He is a great booster of his own stock and landed here with great tales about the poll-tical jobs that he had put through in Chicago. He handled George A. Steel's campaign and also distributed struttars in the campaign against Women's Suf-A greal deal of seemingy! unjust cricithe campaign against Women's Suffrage.

Something About Reed.

In the last city campaign Chairman Cake objected to having Reed round Republican headquarters. Deviln was appealed to to get rid of Reed and and once that he had tried to, but could not. Things finally came to such a pass that Reed was finally ousted from Re-publican headquarters and he took of-fices in the Swetland building, where in secret the new club was organized Devlin denied that he was furnishing Reed with money to maintain his new offices. Just before election, Reed had a large office force buy writing letters teiling those he called his constituency

to call at room 318 Swetland building for the purpose of keeping together the organization he had built up before

the primaries. Only a few of those who were taken into the deal, know the real object and meaning of the organization. Today, however, when this story is read, it will cause a turmoil. That Deviln and Mul-key have had an understanding is patent. Mulkey walked through the streets of Portiand at the head of a Deviln parada. Portiand at the head of a Deviin parada. This occasioned some surprise at the time, but it was inlid compared to what the surprise of the allegod political wise-acres, will be when they learn that Dev-lin has turned down his campaign mana-ger, again tind up with Reed and is presi-tent of the Mulkey senatorial organiza-
