THOUSANDS TO BE GUESTS OF CITY

Three State Conventions and Rose Carnival Scheduled for This Week.

WAR VETERANS TOMORROW

Reunion of Indian Fighters Will Be Followed by Gathering of Pioneers Wednesday-Oregon Development League Thursday.

This week Poytland will again sustain its reputation as a convention city. Beginning tomorrow, with the gathering of the Indian War Veterans of the North Pacific Coast, in annual reunion and continuing until Saturday, when the spectacular Rose Show and Flesta will end, there will be at least one will end, there will be a least one organization in continuous session. Wednesday will be Ploneers' day, devoted to the annual reunion of the builders of the state. Thursday the initial programme of the rose featival will be presented, followed by others Friday and Saturday. Thursday even-ing the first session of the Oregon De-velopment Lesgue, being a business meeting of the elective officers, will be held. Business sessions of this organ-lation will be held Friday, probably continuing through a part of the next

day. In all, not less than 1100 war veterans, pioneers and delegates to the Development League from outside com-munities will be the guests of the city. This estimate does not include the hundreds of visitors who are planning to attend the rose show and fiesta. The attendance at all of these events promises to be large, the transportation companies having granted excursion rates from every point in the

Survivors of the Pacific Northwest Survivors of the Pacific Northwest Indian wars will gather at the Woodmen of the World Hall, Eleventh and Alder streets, at 40 o'clock tomorrow morning, to attend the annual reunion of the Indian War Veterans of the North Pacific Coast. It is expected 700 members of the association and early settlers of the Oregon country will attend this reunion. H. D. Mount, of Silverton, is commander of the organization. Routine business, including the annual election of officers, will be the programme tomorrow morning. At noon the veterans will be banqueted noon the veterans will be banqueted at the hall, the details of this feature of their entertainment being in charge of Mrs. C. Henry Chambreau, president of the Native Sons and Daughters. Following the banquet, a short musical and literary programme will be pre-

Pioneers from every section of the state will assemble at the Armory, Tenth and Couch streets, at 1:30 o'clock Wednesday afternoon, when the annual reunion of the Oregon Pioneer Asso-ciation will be held. Arrived at the Armory, the visiting pioneers will be welcomed by a reception committee and escorted to the assembly hall on the second floor, where a literary pro-gramme will be rendered. Mayor Lane will deliver the address of welcome, to which J. D. Lee, vice-president of the Pioneer Association, will respond. Vo-cal music will be rendered, and orches-tral selections will be given by Par-sons' orchestra. Another interesting number on the programme will be the annual address of George H. Himes, secretary of the association. A social reunion will follow these exercises until 4:30 o'clock, when a

banquet will be served under the direc-tion of Mrs. C. M. Cartwright. In the evening the annual business meeting will be held. This will be followed by another social, at which R. A. Miller will preside. It will be enlivened by campfire talks, interspersed with vocal and instrumental music.

The event that bids fair to prove a surprising revelation to the residents

of Portland and the many visitors will be the Rose Show and Flesta, which opens Thursday. The committees in charge of this festival already are as sured by the interest shown that this flests will prove among the most suc-cessful ever held on the Pacific Coast. The exhibition of Portland's matchless roses, lasting two days, will open in the Forestry building at the Lewis and

the Forestry building at the Lewis and Clark Exposition grounds at 10 o'clock Thursday morning. In the afternoon there will be a children's parade, in which 2000 pupils of the public schools will participate.

This parade will move promptly at 2:30 o'clock, and the line of march will be: North on Park to Salmon, east on Salmon to Sixth, north on Sixth to Fine, east on Pine to Fourth, south on Fourth to the reviewing stand on Salmon, facing Fourth; continue south on Fourth to Madison, east on Madison to Third and disperse. Four bands will appear 15 the procession. Ten cups appear 15 the procession. Ten cups have been offered as prizes to the schools making the best appearance.

Fiesta Parade Friday.

The grand flests parade, for which prizes aggregating \$4000 in value have been offered, will be given Friday afternoon. The parade will move promptly at f o'clock, under the direction of Colonel Charles E. McDonnell. The line of march will be: Head of column at Tenth and Couch, south on Eleventh to Morrison, east to Third, north to Burnside, west to Sixth, south to Washington, west to Nineteenth. At to washington, west to Nineteenth. At this point all marching participants who desire may take cars to the For-estry building, automobiles, floats, car-riages, etc., will continue to Fair Grounds via west on Washington to Twenty-first, north to Lovejoy, west to Twenty-second, north to Marshall, west to Twenty-fourth, north to Savier, west to Twenty-eighth, north on Twenty-Twenty-eighth, north on Twentyeighth into the Lewis and Clark Fair

Grounds.

Two solid miles is to be the length of the rose flesta parade. There will be enough of it to reach from The Oregonian offlice out past the city park if formed in a straight line. This estimate was made yesterday at flests headquarters and involves a complicated mathematical stunt, based on the number of entirestions for successions. applications for space now on fland, and the number that are assured. Even now, space has been set spart for E floats, whereas the Mardi Gras of New Orleans has never been able to boast more than

Twenty-five positions have likewise been awarded to automobiles, although the automobile applications are only be-ginning to appear. It is known that there will be no fewer than 199 automobiles will be no fewer than 100 automobiles in line and a like number of other vehicles. The ten bands will occupy five blocks and with an average of seven or eight vehicles to the block, it is quite plain that the estimated length of the parade is quite conservative.

hers precisely at the time they are most needed.

The Chinese colony is taking a lively interest in the affair. Not only have the Chinese merchants made liberal contributions to the carnival fund, but several hundred Chinamen are now organizing to appear in the parade. They will wear brilliant Oriental costumes and will be one of the features of the parade. While pink and green are the official colors of the flesta, other colors are allowable in decorations. The committee on decorations decided yesterday that a variety of colors will be permissable, inasmuch as the decorations can be used later for the Independence day festivities.

Plans for Saturday, the last day of the Plans for Saturday, the last day of the carnival have been announced and the closing day will be an eventful one. At 3 P. M. the Flower Mission day nursery will give a benefit ball game to be played between the bankers on one side and a picked nine of lawyers and doctors on the other. The same will be preceded by a big automobile parade.

Saturday night there will be a novelty in the way of an illuminated baseball game between Portland and Spokane rallway men. The fire department will likewise enliven the night by a practice run up a street to be announced later. The fire apparatus will be illumined with red fire.

Advertisers Will Speak.

Coincident with the Rose Show and Coincident with the Rose Snow and Flesta, the annual meeting of the Oregon Development League will be held. Thursday evening at the Commercial Club a Musiness meeting of the officers of the league will be held. At 3 o'clock Friday morning the principal session will be called to order in the Marquam theater. The idea of an extended programme of long engeches has been shandoned at ater. The idea of an extended programme of long speeches has been abandoned at this meeting, which will be devoted largely to practical talks by expert advertisers from different sections of the state, who will detail the methods they employed in accomplishing satisfactory results in exploiting the resources of their respective localities and attracting immigration and outside capital. The real purpose of the meeting is to acquaint the representatives of the various commercial organizations throughout the state with this work of exploitation and to encourage a general movement of this character all over the state.

This meeting of the Development

This meeting of the Development League, it is expected, will be attended by representatives from each of the 70 commercial organizations in the state that are affiliated with the league. Among the successful advertisers who will ad-dress the convention are C. C. Chapman, of Portland: Peter Loggie, president of the North Bend Chamber of Commerce; John H. Whyte, secretary of the Astoria Chamber of Commerce, and B. F. Johnson, of Corvallis, president of the Benton County Citizens' League.
Friday afternoon the delegates will view the Flesta parade and in the even-

ing will be the guests at an organ recital by Edgar H. Coursen, at the First Presbyterian Church. The sessions of the convention will be concluded Saturday.

Good weather is forecasted by the weather man for the Rose Show and Flesta, and this means an abundance of new-blown roses.

Portland's first Sunday in the sarsa-parilia zone was tough on the Tribe of Tank. All bets were off. THIS IS a busy morning in Rose City Park. The grading teams are busily at work and the cries of the men and the tramp of the horses make one feel as though there were more things going on in Rose City Park than anywhere else in the city. It is true. Street grading was never carried on on a larger scale than it is in Rose City Park. Every street will be a boulevard. It will be a delight to have such streets as will invite the best class of equipages. Rose City Park will, undoubtedly, prove

to be a favorite spot for all who love to drive or ride horseback.

And this disposition on the part of the better class to make such remarks merely indicates their wish that at some future time they may build in Rose City Park as well. Street grading is important. There will be no

finer streets in Portland than will be found in Rose City Park. Then, again, these street improvements are all included in the price you pay for your lots. They will never cost you any more.

long time before their plans are carried out.

The growth of the country and town has increased the team travel greatly, and the time has arrived when the city will take measures necessary to pro-tect the lives of those whose business makes it necessary for them to cross the railroad at dangerous points. May-or Caufield says the city cannot afford to delay the matter longer and take chances of having a repetition of the shocking accidents that have already happened on these crossings.

UNION SCHOOL IS DOUBTFUL

Certain Clackamas Sections Object to Provisions in Petition.

OREGON CITY, Or., June 18.—(Special.)—The fate of the proposed Union of saving lives, Mayor E. G. Caufield has transmitted to the city council a message advising the enactment of an ordinance to compel the Southern Pacific Company to place gates at the Tenth-street crossing, where Singer Hill lends into Main street, and also at Moss street, where hundreds of school children pass daily on their way to and from the Barclay school.

The Mayor has had this movement in mind for many months, but being aware that the railroad company contemplated the construction of an overhead team and pedestrian crossing at Tenth street, he has deferred action until now. Several lives have been lost at the Tenth-street crossing, and many injuries have been sustained, and the element of danger has long been the school, making it mandatory for the establishment of the school, making it mandatory for the school, making it mandatory for the Union School to be located in the familiar with the situation.
