## GRADUATES LARGE CLASSES—School district No. 12, at Lents, will send a large class to the Portland High School at the opening of the term in the Fall. Twenty were promoted from the grammar grades at the close of the school year. These will nearly all enter the High School, and many of the former grammar graduates are preparing to take a High School course. The district will probably contribute at least 30 students. All the teachers, including A. F. Fierstone, principal, were re-elected by the Lents directors for the ensuing year for that school before the vote on annexation was taken, and will probably be continued by the Portland Board of Education after District No. 12 has turned over its property and affairs to the Portland district. Provision will have to be made for more room for next year, as the 10 rooms in the Lents schoolhouse will not accommodate the pupils of the district. Two rooms will be needed in the west end of the district. It is understood that it will take about ten days to accomplish the transfer of the property and affairs of the district by the Portland Board.

\$2,481,176.00 was returned in death losses and dividends to policyholders. OREGON IS POORER BY

\$6,489,826.00 and New York, Wisconsin and other Eastern States are richer by becoming the custodian of these trust funds, which are draining this state.

All officers and their families reside here. All its investments are in Oregon securities. Every cent of the premiums collected, as well as the interest on loans made, remains in Oregon. ## Rose Fiesta Visitors! A Cordial Welcome

But an especial greeting to Oregon's Pioneers. You, Oregon Pioneers, trekked across the plains or braved the levers of the Isthmus for—FREEDOM. You had heard of Oregon's unsurpassed climate, her green fields and the bountiful provision made by Nature to care for the homeseeker—and you came.

Fifty years later comes the Beef Trust—a criminal aggregation, so hated and so debased we are almost afraid to mention its name in the same paragraph with yours. Its aim is to raise the price of meat as it chooses, to pay for livestock what it chooses.

Do what you can, use your influence whenever possible, to keep Oregon free from the tentacles of this monstrous ogre, that demands its import duty and its export duty off the food you eat.

proved themselves royal hosts. They took pleasure in showing the visitors about the big ship and explained the workings of the big guns that bristle from the Charleston's sides. Sightseers swarmed about the ship's deck and were allowed to climb even up to the fighting tops and upon the bridge and in the wheelhouse. While many of the crew mingled with the crowd on the decks, others were employed in cleaning the big yellow masts and upper works. On a lower deck a sailor shoemaker and a tailor were busily engaged in mending old shoes and torn uniforms. Checkers seems to be the favorite pastime of the sailor boy, several groups being engaged in that game yesterday.

## Including officers, the Charleston carries

a complement of 750 men. She is one of the latest additions to the Navy. Her battery consists of 14 six-inch and 13 three-inch guns, 13 three-pounders and eight one-pounders, a large number of Colts, Gatlings and field guns. Her average speed is 22 knots an hour.

## The Charleston was the cruiser selected

to convey Secretary Root on his diplomatic mission to the South American capitals last Fall. She is named for the cruiser Charleston, which carried the transport carrying the Second Oregon regiment to the Philippines in 1898 and which was wrecked off the coast of Luzon in 1900.
