LAST SHIP OF THE MONTH

Fiscal Year Will Close With Lumber Record for June in Excess of 12,000,000 Feet-News of the Waterfront.

The British back Jordanhill, Captain Kennealy, cleared yesterday afternoon for Callao with 1,305,069 feet of lumber, loaded at the Eastern & Western Mills. The vessel is in the atream and will leave

vessel is in the stream and will leave down as soon as a crew can be secured. This will be within a few days.

The Jordanhill will be the last of the lumber fleet to clear foreign for the fiscal year which will close June 30. The total foreign lumber shipments for the month amount to 12,22,581 feet. The Jordanhill is the only suiling craft to clear and for a vessel of her tonnage carries the largest lumber cargo that has ever been loaded in Portland. The major portion of the cargo of the bark is small stuff and consequently she carries less, in board feet, than if the timber had been in large pieces.

The previous cargoes which cleared The previous cargoes which cleared from the local Contom-House during June were carried in steamships. The Strathchyde took a full cargo to Niu-Chwang, and her sister ship, the Strathyre followed ten days later for the same port. The African Monarch cleared for the North China port with a cargo of more than 2,000,000 feet on June 20. At the present time the steamship Kalabia is loading at Rainler. She will not get way this montre but will make a beginaway this month but will make a begin-ning for the fiscal year of 1997-8.

WILL BE BUILT AT ST. JOHNS

Pacific Bridge Company Lets Contract for Dredge and Barges.

The Pacific Bridge Company has let the contract for the building of its big dipper dredge and two barges to the St. Johns Ship Building Company, and work has started. The dredge is to be delivered in 30 days. While Manager George Simons was East he left the contract for the machinery for this dredge to Feather-stone Iron Works, of Chicago, and it will delivered about the time the St. Johns

be delivered about the time inc St. Johns Ship Building Company has finished the dredge and the barges.

This dredge will be the largest and most powerful ever built in this state. It will be of the four dipper type that will It will be of the four dipper type that will scoop up four yards of material a minute from a depth of 59 feet of water. Operated 24 hours it can be figured out that a great quantity of material can be handled in that time. This dredge is to be used in making the fill on the East Side, between Union avenue and East Water street and Belmont street and Hawthorne avenue, and the amount of material to be handled on this single fill is estimated as high as 1,590,000 cubic yards. It is unns high as 1,500,000 cubic yards. It is un-derstood that the material will be handled but one time. It will be scooped up from the bottom of the Willamette River and dumped directly into gravel cars placed dumped directly into grated to the on barges, which will be floated to the dock, to be built by the Facific Bridge Company on its half-block on East Water street. The loaded cars will then be taken to the low ground and the material

dumped out.

The company will have an extensive plant and the new method of filling up the warehouse district will revolutionize the former way of making such fills on the East Side. J. B. C. Leekwood prepared the plans for the dredge. Actual operation will likely be started some time the coming Fall, and will continue for over a year.

SCOW-DWELLERS MUST GO

owners of the property adjacent to that portion of the waterfront. It is the intention of the company to construct bunkers at that piace, and the delivery of piling will commence this morning. A short distance above the place, which will be occupied by the Rock Company, W. K. Smith is arranging for the construction of a number of wavehouses and docks.

LAWTON FOR PORTLAND RUN

Japan. On the present trip the steamer will take a large quantity of flour and merchandise for three ports in Japan. She will not stop at any Chinese ports. While the cargo for the Japanese steamer is on the docks and is ready to go into the hold, she will not be able to get away during June. The Arabla will wind up the flour shipments for the cereal year. Announcement has been made that all who expect to participate in the Fourth of July parage, either marching or with

St. Johns Ferry Completed.

The new ferry for St. Johns has been completed and is moored on the East Side, north of the Morrison-street bridge. She will steam down the river to her route this week. The boat has a capacity of six teams on one trip. It will be operated between St. Johns and West St. Johns, as the settlement on the opposite side of the river is called. St. Johns is operated between St. Johns and West St. Johns, as the settlement on the opposite side of the river is called. St. Johns is expected to profit largely by this ferry. It will connect the Linton road with the Willamette boulevard and make a fine drive down one side of the river and back on the other side.

Chamber of Commerce building. At the last meeting of the general committee it was ordered that collections be completed by Wednesday, June 28, so that all financial matters may be disposed of at the meeting to be held next Thursday.

Louis Woodard and Richard Hart are arranging a programme of boat races for the morning of the Fourth, from 2 to 11 o'clock. There will be races between the crews of the two warships in the harbor; also launch and sailboat races. The also launch and sallboat races. The Yacht Club and Rowing Club are taking an active interest in this feature of the programme. Medals are to be awarded to the successful contestants in these

list, and during the time she is tied up a number of necessary repairs will be made. The Zinita arrived in the harbor with a cargo of cement for Fuller & races.

The parade of horribles on the evening of July 3, promises to be one of the most interesting features of the celebration. The prizes will consist of hats, shoes, gioves and necktles, contributed by the merchants of the city.

Arrangements for the harness and running races at the Irvington track are nearing completion. Many of the horses to be entered are well-known racers. This insures another interesting feature for the parade, a delegation from the Letter-Carriers' Association having called at celebration headquarters yesterday and informed Assistant Secretary Nicklin that they would participate. There will be at least 100 letter-carriers in uniform in the perade.

SEEKS LOCATION IN CITY

Eastern Firm Finds Portland Owners Slow to Sell.

The "NEW PROCESS" GAS RANGES

Scientifically correct construction of the burners of the "New Process" enables double the amount of work to be obtained from every foot of gas consumed. This remarkable economy is secured by the proper mechanical mixture of gas and air, thereby producing the greatest amount of heat for the gas used. This is only one of the many superior features that combine for the efficient and economical operation of the "New Process." Every burner is under separate control, and each is operated independently of the rest, so that baking, roasting, broiling, stewing, frying and boiling can all be done at the same time, if desired. "New, Process' Gas Ranges are made in a number of styles and sizes. Our easy-payment terms-\$1.00 down, \$1.00 per week-will enable you to install one of these in your home. A comfort and convenience during the Summer months.

Factory Employes Protected.

OREGON CITY. Or., June 24.—(Special)
—Deputy State Commissioner of Labor and inspector of Factories and Workshops C. Henry Gram, of Portland, today made an inspection of the factories in this city. He visited the huge plant of the Willamette Pulp & Paper Company, where he made a close examination, and declared the protection afforded the lives of the employes was first-class, as was also the fire protection. Mr. Gram is president of the State Federation of Labor has no instructions to effect a show.
