Ex-Senator Gearin Speaks.

The feature of today's programme was the address to the class by ex-United States Senator Gearin, of Portland. In a scholarly, polished and eloquent address, he pointed out the prospects and duties of the University of Oregon graduate. He said that the occasion reminded him of his own graduation 30 years ago at Notre Dame: that then the voice of his alma mater commanded him to carry into the world its teachings and ideals, and now the air of Villard hall was vibrant with the same injunction. with the same injunction.

with the same injunction.

Mr. Gearin told the young men of the class to disregard the widely expressed opinion that the educated man should most meddle in politics. He should make it his duty to become a leader in affairs; to enter politics and make them pure; that they should make money and use it as the means to attain good ends. For the young women, he expressed the wish that they might gain happy homes of their own, where mutual love and sym-

their own, where mutual love and sym-pathy would smooth the rough places in life's journey.

The distinguished speaker closed his re-marks with the statement that the Uni-versity of Oregon is the equal of any institution in the land in its efficiency and methods of work and as the years go by it will become increasingly greater in its usefulness as the educational center of the State of Oregon.

At the close of the war, Mr. Blythe journeyed westward, spent three years in Montana, one year in California, and came to Oregon in 1870. In 1873 he was associated with Judge Bellinger, John J. Curry and John S. Hughes in the publication of the Dally News in Portland; later he was connected with the Dally Bee and still later with the Farmer and Dairyman. From 1894 until 1904, he was publisher of the Hood River Glacler, and helped as much as any man to make this now famous fruit section known to the world. He is now a successful fruitgrower and owner of a 40-acre farm just west and owner of a 40-acre farm just west of this city.

Mr. Blythe is past Commander of Canby Post, G. A. R., of Hood River; was a delegate from Oregon to the Na-tional encampment at Boston in 1890, and again at Washington City in 1902.

Force of Switch Engine Rolls Huge Timber From Car Upon Arthur E. Sloan.

VANCOUVER, Wash., June 26 .-(Special.)-Arthur E. Sloan, a conductor on the Yacolt branch of the Northern Pacific Railroad, lost his life this morning as the result of an accident that occurred on the logging train of which he was in charge. Sloan, with several other trainmen, was sitting beneath the edge of a car, which was loaded with logs that had not yet been chained to the car, when the engine of the train sent another car bumping into the one above the men, so that the

logs upon it rolled off.

The fireman on the engine called to the men, warning them of their danger, and all except Sloan sprang away from the car in time to escape. was struck by a log and thrown to the ground. The log passed completely over his body, crushing him so badly that he died in a few minutes. S. W. Rypkima, another of the men, suffered a slight injury to his hand. A special train was immediately made up and the body of the dead conductor was brought to this city.

Mr. Sloan leaves a wife and two children, who reside at Yacolt, an aged mother in Chehalis, and a brother in Colorado. He had been an employe of the Northern Pacific for many years. and some time ago had one foot badly injured in another accident on the road. He was well known in this city, where he resided for a long time.

#### How to Exercise the Bowels

T OUR Intestines are lined inside with millions of suckers, that draw the Nutrition from food as it passes them. But, if the food passes too slowly, it decays before it gets through. Then the little suckers draw Poison from it instead of Nutrition. This Poison makes a Gas that injures your system more than the food should have nourished it.

The usual remedy for this delayed passage (called Constipation) is to take a big dose of Castor Oil.

This merely make slippery the passage for unloading the current cargo.

It does not help the Cause of delay a trifle. It does slacken the Bowel-Muscles, and weakens them for their next task. Another remedy is to take a strong "Physic," like Salts, Calomel, Jalap, Phos-

phate of Sodium, Aperient Water, or any of these mixed. What does the "Physio" do? It merely flushes-out the Bowels with a waste of Digestive Juice, set flowing into

the intestines through the tiny suckers. Cascarets are the only safe medicine for

the bowels. They do not waste any precious fluid of the Bowels, as "Physics" do.

They do not relax the Intestines by greasing them inside like Castor Oil or Glycerine. They simply stimulate the Bowel-Muscles to do their work naturally, comfortably, and nutritiously.

They are put up in thin, flat, round-cornered Enamel boxes, so they can be carried a man's vest pocket, or purse, all the time, without bulk or trouble.

The time to take a Cascaret is not

only when you are Sick, but when you first suspect you need one. Price, 10c abox. Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet
