LAND MONOPOLY

Senator Fulton Uses Strong Language to Describe Railroad Greed.

HEARS MANY COMPLAINTS

Gathers Information at First Hand Trip Through Southern Oregon - Writes Harriman Company Pointed Letter.

"Intolerable" and "outrageous" are fit words, in the opinion of Senator Fulton, to apply to the refusal of the Southern Pacific to sell its railroad grant lands in

Western Oregon.
The zenator was in Portland yesterday after a visit in the southern part of the State, where his ear was filled with State, where his ear was filled with numerous complaints from the citizens against the Southern Pacific and where his eye beheid many evidences of the railroad bars against settlement. Desiring to know from the lips of a railroad official why things are thus and so, he betook himself to the office of the railroad's head attorney, W. D. Fenton, only to find that gentleman absent. But somebody informed the senator that the bars were up because nearly fifteen months ago a large part of the land records of the railroad were burnt up in San Francisco.

As the bars were up more than two years prior to that time, this explanation did not strike the senator so forcefully as it might ofherwise have done. Forthwith, he resolved to write an inquiry to the land office of the railroad in San Francisco-where applications for pur-chase of land by would-be "actual setthere" at \$2,50 an acre, receive thrown into the waste basket. recently were

Not Alarmed at Prospect.

"Suppose," the senator was asked, 'your letter should go into the waste

Your letter should go has the basket, too?"
"We'll write it, anyway," he replied, "and see whether we got an answer."
Today the letter will be posted from Astoria, whither Senator Fulion went last night. It will say that Senator Fulton has been informed that the Southern ton has been informed that the Southern Pacific has refused for about four years to sell any railroad grant land and will ask if this is true. It will ask how much longer this policy is to be maintained. It will point out that the barring of the lands retards the progress of the country and has incurred the hostility of the people. It will say that, if adhered to, this method will drive the people to any necessary expedient to overcome it. The letter will say further that sale of the letter will say further that sale of the lands at reasonable prices might have warded off the movement, now started, to force the railroad to sell at \$2.50 an acre and even yet might lessen the pop-

ular hostility.
"The Government should pursue this matter vigorously," said Senator Fulton. matter vigorousiy," said Senator Fulton.
"Evidently it plans to do this. The department has sent to Oregon a special United States Attorney, B. D. Townsend. I shall assist him all the ways I can and hops he will be able to obtain from the courts the relief that the people so

"It does not seem to me that there is anything for Congress to do in the matter. But I believe that much can be obtained from the courts. The Government should begin several suits at once, I think, so as to get at the issue from

Purposes of the Suits.

"Suits could be brought to restrain the railroad from seiling the lands for more than \$2.50 an acre; to compel sale at \$2.50 an acre to actual settlers; to declare forfeit to the United States the remaining unsold lands of the grant, and to compel the railroad to sell at reasonsble prices, if not at \$2.50.

The Government, it seems to me, is party best qualified to bring suit. There is a doubt whether an individual has an interest in the land which the courts would recognize. The courts might hold that non-performance of the terms of the grants is a matter between the grantor and the grantee. Such a decision has been rendered by a Federal Court in Oregon, in the case of a wagongrant. But in that grant, it is actual settlers were not declared by act of Congress, as the class of cit zens alone entitled to the lands. done in the railroad grants. This specific declaration may be upheld by the courts as meaning that the railroad should be virtual trustee of the lands for actual settlers and that the lands must be sold

people should be cautioned against spending any considerable sum of money to wrest lands from the railroad, under claims of actual settlers. The meaning of actual settler is rather vague and is woven with fine-spun legal technicalities. The Government is really the proper authority to make the test."

BUILDING IN BAD REPAIR

West-Avenue Schoolhouse Is Allowed

to Deteriorate.

It is conceded that the bad condition It is conceded that the bad condition of the West-avenue schoolhouse and ground is entirely due to the financial policy that was followed by the old Mount Tabor district before it was consolidated with No. 1. For more than five years before consolidation at all the school meetings all tax levies were held down to the lowest point, and no improvements or permanent repairs were made because it was announced at the meetings that annexation to Portland meetings that annexation to Portland would soon come and these items would be cared for. The school property was let run down. It was mpt the fault of the directors, who generally asked for money enough to maintain the school property, but their requests for sufficient levies were turned down.

At the last annual meeting the directors asked for 5 mills, but a 2½ mills levy was made when it was known that such levy would not produce enough money to pay the running expenses, and it did not. When the district came into the city it had \$33 in the treasury and there were a lot of unpaid bills. All this ac-counts for the disgraceful condition of the West-avenue school building, and this is understood.

The progressive men of the district who are members of the Mount Tabor Improvement Association feel keenly the situation and hesitate about asking the Board of Education to replace the pres-ent structure with a modern building. They are the men who wanted to clean up floating debts and put the property in good shape before asking for annexation, b.t they were defeated, but are now railed on to deal with a situation which they tried to prayent.

At the meeting of the Association Monday night it was hard to cet

flay night it was hard to get a com-mittee to take up the question of a new schoolhouss, although members of the Association resilise that something must

be done. It is thought that a block can be purchased for a new site a short dis-tance north of the Base Line road for \$600. It is announced that a block of ground in Center Addition will be donated outright for a school site.

HOLD FLOWER SHOW TODAY

School Children of County Will Exhibit Sweet Peas.

The perfume of sweet peas will per-vade the corridors of the City Hall build-ing today when the second annual floral exhibit of the pupils of the Mulinomah County public schools will be held on the hird floor of that building. The exhibit will be in place and open to the inspection of the public at 1 o'clock this afternoon and visitors will be welcome to visit the display until 9 o'clock tonight. No charge will be made visitors to the exhibition, which is under the care of the Oregon State Congress of Mothers and Multinomah County Teachers. Progress. omah County Teachers' Progress

ve Club.

During the last year the pupils in the county schools have been experimenting with the growing of sweet peas and the exhibit today will represent their efforts. For the convenience of classifying the exhibit the county has been divided into six divisions with three prizes of \$2, \$1, and 50 cents for each

THEIR TRIAL POSTPONED

Absence of Attorney Gives Discharged Detectives Further Time.

The trial of ex-Detectives Joseph Day Joseph Resing, L. G. Carpenter and Frank J. Snow, charged with incompetency and refusal to obey orders, will not be held before the police committee of the Executive Board Saturday, the day set for the hearing. Ralph E. Moody. set for the hearing. Raiph E. Moody, attorney for the suspended detectives, is absent in the East and the trial will be deferred until his return. This is the same case that was before the police committee a few weeks ago when Attorney Moody raised the technical objection that the trial should not be heard by a share witten of the Expective Board. subcommittee of the Executive Board. The members of the committee did not contest the point and decided to drop the hearing. Mayor Lane immediately filed another complaint against the exeleuths preferring the same charges of incompetency and disobedience of orders.

These charges duly came before the
Executive Board, which referred them to the police committee with instructions to proceed with a hearing. Mayor Lane and the members of the Executive Board will insist on the trial before the police committee and will defend in the courts all attacks the discharged officers may make on the legality of their proceed-

POSITION IS ABOLISHED

O. R. & N. Will Not Have Livestock Agent in Future.

No appointment of a livestock agent for the O. R. & N. will be made to fill the position made vacant by the promotion of C. J. Millis to be general manager of the Harriman interests on Coos Bay. The title of livestock agent will be abolished.

There is said to be less and less

need for a livestock agent for the com-pany, largely because of the lessening-prominence of this industry, as the state lands are settled up and the ranges become constantly curtailed. However, railroad officials say the livestock industry will receive just as much attention as ever from the company. During the past two years while livestock agent, Mr. Millis depany. voted the greater part of his time to work other than the livestock traffic.

This branch of the traffic will here-after be attended to by W. J. Leonard, formerly Asiatic clerk, who will be made livestock and grain clerk. The work will be handled as formerly in the offices of R. B. Miller, general' freight agent for the Harriman lines freight agent for the Hi in the Pacific Northwest.

before one. Ask any car conductor to give transfers or let one off at the Portland Public Baths.

The hours are as follows: For boys every day, from 9 A. M. to 12, and from 1:30 P. M. to 3:30 P. M., with the exception of Saturday afternoons; for girls and women, Wednesday from 3:30 to 6 P. M.: Monday, Thursday and Saturday from 3:30 to 6, and Monday, Wednesday and Friday from 7 to 8:30 the baths are reserved for men and women together. and Friday from 7 to \$:30 the baths are reserved for men and women together. Women alone are admitted Tuesday and Friday from 3:30 to 6. Men alone are admitted Sunday from 1:30 to 5, and Tuesday, Thursday and Saturday from 7 to \$:30. "Boys are considered to be under the steep of the proposite me, about fifty feet from the stopposite me, about fifty feet from the day. Thursday and Saturday 170m.

Si30. Boys are considered to be under 15 years old; from 15 years up all are rated as "men." Adults and children do not hathe together except in the case loud crash in the brush near by, and loud crash in the brush near by, and

of the women and girls.

Each day from \$150 P. M. a charge of 25 cents is made with the exception of Wednesday afternoon, Saturday evening and Sunday. This charge includes every-thing-towels, sults, dressing-rooms and Otherwise the baths are absolutely free. Bathers may use their own suits and towels on charge nights, but the cost will be the same. Bathing suits are required under all circumstances, and private dressing-rooms are provided. Everything in regard to the baths vis

maitained with strict regard to sanitary conditions. No suit or towel is used by more than one person without being boiled. This prevents all chances of spreading any disease whatever. Except the bathing, no other form of amusement is allowed, such as refreshments, music or catch-pennies. The es-

ablishment is strictly a first-class bath-ng float, and nothing else. It is said to be the finest floating bathing estabishment in the United States, and with-in the past week a letter of inquiry came all the way from Trenton, N. J. asking for drawings, pictures and other data as a guide for the building of a similar one in the East. The baths are the creation of L. Sam-

uel and Edward Holman, for the public convenience, pleasure and health of the people of Portland. The charge made barely maintains the baths, and these two gentlemen supply the difference, when there is any, from their own private pockets. Others give now and then, but these two men are the main-stay. One exception, however, is that stay. One exception, however, is the of William Isensee, who every year sends in a check for \$75 in memory on this little boy who was drowned seve years ago in the Willamotte. Since there when the bathing float was begun not one boy has been drowned in the Willam-ette within the city limits, whereas from five to 15 deaths by drowning occurred during previous years. Since the baths ing, or even an unpleasant incident, has occurred on the float.

Last year, during the flood the swin ming cage was swept away, but this year it has been replaced by a bigger and better one at a cost of more than \$1000, supplied by Mr. Samuel and Mr. Holman. The new cage has a depth of from 3 inches to 8 feet, and is so de-signed that even a baby has a chance to signed that even a baby has a chance to wade and splash, or an expert swimmer can dive to his heart's content. It is impossible to lose anyone from the cage. The current keeps the water always fresh and clean, and a constant watch is maintained by the swimming master. The baths this year are under the charge of Mr. and Mrs. Alphin, who act as superintendent and matron respective. superintendent and matron respec-

The baths can accommodate from 500 to 600 at one time, and about 100,000 persons bathe there during the season. The baths keep open all Summer, usually 75 days from the opening, but longer if the weather permits it. They will close this year about the last of September.

Asks Corvallis for Gas Franchise.

CORVALLIS, Or., July 9 .- (Special.)-A franchise sought by James Steel of Port-land, for the manufacture of gas in Cor-vallis is under consideration by the City Council. The ordinance was introduced in the Council and passed to third read-Rich red blood paturally results from in the Council and passed to third reaching Hood's Sarsaparilla. PARADE PHOTOS-FIESTA.

Resignation of Dr. Wheeler Will Stand.

AT OUTS WITH THE MAYOR

Meeting Will Be Held Today, When New Incumbent of City Health Office May Be Selected

by Commissioners.

Mayor Lane has called a meeting of the City Board of Health to be held today for the purpose of considering the resignation of Dr. C. H. Wheeler, City Health Officer. The considera-tion of Dr. Wheeler's resignation and the election of his successor are the work of the City Health Board, which work of the City Health Board, which will undoubtedly accept the resignation, since the breach between the Health Officer and the Mayor appears to be beyond mending. Neither Mayor Lane nor the members of the Health Board will give any intimation who Dr. Wheeler's successor will be. "Personally I like Dr. Wheeler and consider that he has been a faithful and competent officer," said Mayor Lane yesterday, "but the cause of our disagreement was his failure to comply with the provisions of the city charter respecting the making of

charter respecting the making of requisitions for supplies in his department. The charter specifically provides that on the first of each month the head of each of the city departments shall file with the Auditor a statement of the probable expenses of his department for the month. This statement must be itemized showing the particular objects for which an appropriation is asked, together with the bable cost.
This was not done by Dr. Wheeler

in submitting his estimate for the mouth of July. The item over which the trouble has arisen appeared on the estimate as follows:

"'Labor and material, etc., to repair pesthouse and grounds, \$150." Would Give No Estimate.

"When I asked Dr. Wheeler what improvements were necessary he answered that a fence was needed. I asked him what kind of a fence but he did not know. Neither would he estimate the kind of a fence he wanted nor the probable expense. I then insisted that he should specify what improvements were actually demanded and he said: 'The boiler might blow up'. The following item was then inup. The following seried in the estimate:

Should the boiler of the pesthous need repairs, \$20."
"The Item of \$150 was stricken from the estimate and it was this that angered Dr. Wheeler and has resulted in the filing of his resignation. Per-haps I would not have so closely scrutinized this particular estimate, but for the fact that I noticed one but for the fact that I noticed one item of \$20 for repairing the cookstove and boiler at the posthouse. June 29, four days before the meeting of the Executive Board. The requisition for this expense was presented for my signature and I unwittingly signed the same, only to discover subsequently that the requisition had been anti-dated 15 days, being dated June 12, when, as a matter of fact, the bill for the repairs was dated June 27, or two-days hefore the requisition directing the expense had been issued. I considered this practice of a fraudulent sidered this practice of a fraudulent character and disrespectful to myself and I promptly informed Dr. Wheeler

of my resentment. Trustees for Taxpayers.

"We are merely trustees charged with the expenditure of the taxpayers' money. These funds are raised by taxation, to which the poor as well as taxation, to which the poor as well as the rich contribute and they are entitled to know where their money goes and I propose that they shall know as long as I am connected with the city's government. That is my conception of my position and I shall adhere to that policy, even if I have to part company with my best friends. We are expected to spend the people's money carefully and intelligently and

the city's government. That is my conception of my position and I shall adhere to that policy, even if I have to part company with my best friends. We are expected to spend the people's money carefully and intelligently and we should not incur the slightest expense unless we can show that it is necessary and that the money has been properly expended."

As the Mayor discussed the Dr. Wheeler incident he was checking over a large number of bills against the city preparatory to signing the warrants for their payment. Each account was checked over carefully and when the items were found to be correctly listed and the bill regularly approved by the proper board or committee, then and not until then did the Mayor affix his signature.

"This work is not required of me," concluded the Mayor, "but I have folnecessary and that the most, properly expended."

Mayor affix his signature.

"This work is not required of me," concluded the Mayor, "but I have followed this practice ever since I became Mayor and I shall continue to do so as long as I occupy my present posi-

MAYOR IS NOT TO APPOINT

Executive Board Must Name City En-

gineer and Police Chief.

"The mistaken impression is current, said Mayor Lane yesterday, "that the appointing of a City Engineer and a Chief of Police rests with the Mayor. But such is not the case, these appointments being vested in the executive coard. Under the city charter the ap-sointment of all subordinate officers in the city's government is removed from the Mayor to prevent the rewarding of political friends. The heads of the dif-ferent departments are elective by the different boards charged with the su-pervision and management of these re-spective departments. The only appoint-ing power vested in the Mayor is that of special policemen or the naming of such subordinates as are not covered by the different boards. The executive by the different boards. The executive board having charge of the Police Department and the office of City Engineer has the naming of those officers.

"To the Health Board belongs the appointing of a successor to Dr. C. H. Wheeler, who has resigned as City Wheeler, who has resigned as City Levil Officer. Wheeler, who has resigned as City Health Officer. The only time the Mayor has a voice in selecting these different officials is when a tie results in the voice of the members of the different boards, otherwise he has nothing to say, although the city's chief executive is generally consulted regarding the propagation erally consulted regarding the pro tive appointment and selections are in-variably made that have the indorse-ment of the Mayor and are in harmony with his policy."

Under the construction of the charter it is not to be expected that successors to City Engineer Taylor and Chief of Police Gritzmacher will be announced be-fore the next meeting of the executive board, which will be held next week.

Forest Fire Near Elma.

ELMA, Wash., July 9.—(Special.)— The most serious forest fire to rage thus far this season in this vicinity is now burning with great fury in the old logging works of the S. E. Slade Lum-ber Company, known as "Mack's Camp," about three miles from Elina.
