Export Demand Shows Improvement. Estimates of Coming English Crop Are Reduced-Weather Is Very Unfavorable.

The largest transaction in hops that has coursed in the Northwestern market this season was closed at North Yakima yesterday when Harry L. Hart, of this city, bought 1000 bales of the 1906 crop from rowers of that section. The bulk of the t was secured from the Moxee Company. These hops were purchased on London account and will be forwarded immediately.

The exact price paid by Mr. Hart is not known here, but it is under 6 cents.

The sale of this big block of hops will make quite f hole in the Washington surpius. It shows that the English trade, though said to be well-stocked, is willing to on more Pacifics when offered at prices that are attractive to buyers. John Carmichael, of Salem, has also been doing ansiderable buying for export of late and it is rumored in the local trade that his purchases will aggregate almost 1000 bales.

A recent London cable reports a firm market with the growth of the coming crop checked by unfavorable weather. An English estimate of the growing crop is 250,000 cwt., Last year England produced 245,685 cwt., her smallest crop in 24 years. As the average production there is almost 500,000 cwt. it would seem that two short crops should have a beneficial effect on

pear and it is fortunate for the growers that there is a good cannery market for the fruit. The Weber-Bussell Canning Company, of Scattle, which operated heavily in berries, has become a big purchaser of Oregon cherries as well, and because of its operations, prices are holding up sitiffy. The company's agents have already shipped to its Puyaliup plant eight full cars of Oregon cherries besides numerous amaller express shipments. These cherries cost the Seattle company an average of about 4% cents per pound.

The scarcity of fresh ranch eggs holds the market for this quality in firm shape. Held eggs are more or less abundant and hard to work off at any price. Eastern eggs, when of good quality, sell well.

In the Season.

The market for grain bags is now on in full swing. Farmers are buying freely and interior dealers are replanishing their stocks. Bags are quotable at present on a wholesaile basis of 9 cents.

The future of the market is a somewhat uncertain proposition, but the feeling in the trade is nevertheless a decidedly firm offe. In a general way the available supply is said to equal the prospective demand, but no one knows this for a certainty. The plares dealers are in the dark as to the quantity available, as they are also in regard to the final crop outcome. The situation is complicated by the crop developments in California, which have released a considerable quantity of bags for disposal in the north, and these are now being worked off.

It is very likely that, even with the additional supply from California, there will be no surplus of bags in the north, and tales the Everything depends on the size of the crop in the three northwestern states. So far the conditions are most favorable. Fall grain is doing exceptionally well, and about the only danger that threatens the Spring crop is the possibility of hot winds this Summer. Old-timers in the wheat beit profess to have no fears on this score, arguing that the quantity of snow in the mountains will obviate the danger by keeping the soil damp and the air cooler.

The biggest part of the bag supply is siready on hand and all the shipments promise to be in in ample time. The bulk of the local supply is hought of the local

GERONIMO TRIES TO FLEE Captive Apache Chief Captured While Attempting to Escape.

CHICAGO, July 9 .- A dispatch to the Tribune from Cache, Okla., says: The old Apache warrior, Geronime who terrorized the Southwest for many years with his bloodthirsty band, while attending a celebration at Cache under parole as the guest of the Comanche chief, Quanah Parker, made an attempt to escape across the Texas panhandle into New Mexico.

Geronimo was missed from the Indian camp for about eight hours and a detail of soldiers from Fort Sill captured him several miles out of Cache yesterday. The old warrior had heard of the troubles of the Apaches in Arizona, who, according to reports have threatened to go on the warpath. The chief says he wanted to go with his people and help them fight. He has been having family troubles lately, his eighth wife, having left fiim. Recently he drank liquor to excess and lay out on the reservation all night. This incensed the church-going people. Geronimo recently joined the Dutch Reformed Church to which Pres-ident Roosevelt belongs, in the hope, it is said, of obtaining a pardon.
