SAN FRANCISCO, July 9 .- A new angle was given the municipal eltuation late this afternoon, when the Board of Supervisors met and by a vote of 10 to 2 elected Charles A. Boxton, one of its mber, Acting Mayor, to succeed James of Mayor Eugene E. Schmitz on the charge of extortion, has been acting as Mayor. The two votes opposed to Boxton were those of Supervisors O'Nell and Tveitmee, who were appointed to the a Board to fill vacancies by Mayor Schmitz.

The action of the Supervisors came as a surprise, as it had been intimated that it was the aim of the graft prosecution to retain Gallagher as Acting Mayor until the complete abdication of Mayor Schmitz could be brought about.

Mr. Boxton is the principal witness in the trial of Louis Glass, vice-president of the Pacific States Telephone & Telegraph Company, on the charge of bribery; which will be begun tomorrow.

With a view to curing the anoma lous situation in the municipal government resulting from the graft prosecution, it was decided tonight by District Attorney Langdon and his associates to invite the commercial labor bodies of the city to send delegates to a convention which is to be called within a few days for the pur-pose of chooting a Mayor who will fill out the unexpired term of Mayor Schmitz. Supervisor Boxton will hold

office until a Mayor is chosen.

The proposed convention is to be composed of 30 delegates, 15 of whom shall represent labor and 15 employers generally. The delegates are to be named on or before July 17, and a Maynamed on or bettere July 17, and a may or is to be named within five days thereafter. As a condition of the as-sembling of the proposed convention, it is prescribed that the invitation is spied by all the bodies to whom it

SCHMITZ RETURNED TO JAIL

Application for Bail Postponed and

Privileges Cut Down. SAN FRANCISCO, July 9 .- Judge San FRANCISCO, July 9.—Junge Dunne this morning refused to admit Mayor Schmitz to bail and denied him the privilege of visiting his attorneys. When Schmitz appeared in court he was self-possessed, as defiant and apparently as confident as he was yes-terday. He came for the double pur-pose of asking for ball and answering the indictments charging him with ac-cepting bribes from the gas company and the United Raliroads. In the first he failed. The second was a formality

Drew offered his motions to set aside the indictments and to stay the proceedings. They are identical in terms with those filed in the other cases. Then he offered a stipulation that all the pro ceedings taken before Judge Lawlor in the gas, trolley and telephone cases should be considered as if made on behalf of Schmitz. This Mr. Johnson readily agreed to, but instead of filing a written compact he thought that the same end could be accomplished by an oral stip iton which could be incomed. ald be incorporated in the

Mr. Johnson then moved that all the motions be submitted for decision, and Judge Dunne announced that a continuance would be granted for one week for the purpose of enabling him to look over the record. After this had been agreed to, Mr. Fairall added to the other motions another, asking that the entire proceedings be stricken from the There was no objection and it

was incorporated.

Then came Schmitz' application for release on bail. "If your hanor please," said Mr. Drew, "we also have an application for release on bail."

"The application may go over until that time," replied the court.
"But, remember, your honor," retorted Mr. Fairall, "we gave notice in open

Judge Dunne made no comment and the application will not be heard until Will your honor permit the defendant

Schmitz left the courtroom with his at-torneys on his return journey to the County jall, where he will have to wait

until the papers for his appeal are pre-pared. They are now in the hands of a printer and will be ready Saturday.

JURY READY TO TRY GLASS

Charge of Bribing Boxton May Be Disposed of in Week.

SAN FRANCISCO, July 2.—The jury to try Vice-President Louis Glass, of the Pacific States Telephone & Telegraph Company on the charge of paying Super-visor Charles Boxton a bribe of \$5000 to vote for the withholding of a franto vote for the withholding of a franchise to the Home Telephone Company, of San Francisco, was completed shortly before 5 o'clock this evening. Six jurors were chosen and sworn yesterday and six were selected and sworn today. One change may be made in the jury as it stands. A doubt has arizen as to whether Hugo Schuessel's name appears on last year's assessment roll.

In reply to a query by one of the jurors, Mr. Heney said he thought the trial ought not to consume more than one week, exclusive of the deliberations

CITIZENS BACK UP COUNCIL

CHEHALIS, Or., July 2.—(Special.)—A mass meeting of the citizens of Chehalis was held last evening in the Council was nein last evening in the Council rooms, in response to an earnest invita-tion on the part of the City Council and the Citizens' Club that the property-holders and taxpayers meet and express-their views on the various road matters now being agitated in the city. The Council has under discussion improvements to the city streets aggregating over \$80.000. At the meeting last evening many speeches were made by promicitizens, all favoring the action of Council in these matters. It was unanimously voted that all improvements should be of a permanent character, all to be under the supervision of the City Engineer, C. J. Hermans, who was employed last week by the Council to take charge of the various projects now under way. The matter of preparing a number of city parks, sites for which are available and secured to the city was available and secured to the city was available and secured to the city, was thoroughly discussed The Council has lately created a Park Board and pro-vided a fund therefor. Advocates of Labor Unionism Fail to Attend Convention - Bishop Conaty Speaks-Why There Are Too Few Teachers.

LOS ANGELES, July 2.—The members of the National Educational Association spent the entire day today in the sessions of the 17 different departments. Scores of papers were read upon a multitude of subjects and discussions of the topics followed.

nunities; fourth, shortage of teach-

era; fifth, moral education.

The paper which produced the most discussion and the largest interest was the one upon the shortage of teachers. The general consensus of opinion as to the causes was that the requirements are too high and the remuneration too low; future is lacking and the work confining. One teacher urged the stu-pidity of many sets of examination questions as a constant deterrent to eachers.

The discussion of moral education

brought out a strenuous protest against unrestricted foreign immigration. The session of the department of Indian education was one of the most interesting of the day. The 50 Indian children from Sherman Institute were put through exercises under the guidance of their instructors for the entertainment of a large audience at the State Normal School. The children also gave demonstrations in cooking and in cutting and sewing.

cutting and sewing.

Elmer Ellsworth Brown, United States Commissioner of Education, delivered a 15-minute address.

The joint session of the departments of higher education, normal schools and secondary education was largely attended. The papers read were largely of a technical nature, dealing principally with the preparation of High School teachers. The department of child study held its first aession during the forenoon, and papers were read the forenoon, and papers were read upon subjects relating to the depart-ment.

The department of business education The department of business education at its initial session listened to the address of the president, H. M. Rowe, educational publisher, Baltimore. Papers were read by H. B. Brown, president of Valparaiso University, Valparaiso, Ind., and others.

OFFICERS STILL SEARCHING FOR FUGITIVE CONVICT

WILLIAM WILLIAMSON.

Officers are still searching for William Williamson, the trusty who escaped from the State Penitentiary at Salem last Saturday night. No trace of the fugitive has yet been found. Williamson had no trouble in getting away, for he has been employed as a trusty at the prison ever since he was sent there a year ago from Multnomah County. His conduct was of the best and he was accordingly allowed more freedom than would be granted the ordinary prisoner. Williamson was convicted here of obtaining money under false pretenses and had two years more to serve.

ost important feature. Unless some thing unforeseen occurs, the convention will elect Superintendent E. C. Cooley president for the ensuing year, accept the incorporation provided by act of Congress with its constitution and bylaws, and select Cleveland as the place for the next association meeting. A movement is on foot tonight to vote an increase in the number of members of the National council, the chief advisory body of the asseciation, from 60 mempers to 100 or more. This question will

be brought up tomorrow. Personality of Teachers.

The third-general session of the con vention was held tonight and was en-tirely taken up in the addresses and musical numbers. Dr. U. Y. Francisco, the representative of tae Mexican De-partment of Education, spoke upon the subject, "Greetings From a Sister Re-public." Right Rev. Thomas J. Conaty, bishop of the Roman Catholic diocese of Monterey and Los Angeles, addressed the convention upon the subject "The Personality of the Teacher." In the course of it he said:

Personality of the Teacher." In the course of it he said:

Education aims to form men and women, to develop soul as well as body, heart and will see well as mind; in a word, to train all the faculties of man under the influence and in harmony with God's intention in the creation of man. The unfortunate tendency to divorce religion from school instruction gives serious doubt to the ability of such educational systems to fully develop the morality that is necessary. Fifty years ago general education was thought to be the panacea of all the lils of the social body, but the results are not of a character to warrant confidence. Positive religion alone can make man moral and keep him in the way of morality. To be the instrument in the upbuilding of the character of men and women is indeed an important and honorable vocation. The teaching profession has the character of a priesthood of truth, for it aims to teach the truth of life and to search after and to find the knowledge which satisfies the human intelligence, and nothing but the truth of God can give that satisfaction.

Bishop Conaty appealed for the teach-

satisfaction.

Bishop Conaty appealed for the teaching personality endowed with knowledge and sympathy and possessing an absolute Chinatown testing aged until a late hour last night in their former duties of "cleaning up" the city. As a result of their activity, five persons are under arrest.

The entire system of education, from kindergarten to university, maintained at tremendous sacrifices by the Catholic people, builds itself upon the great principle that underlies all true education, conscientious conviction of duty to childhood with God and country and truth as the ends to be reached.

W. O. Thompson, president of the Ohlo State University, Columbus, conluded the session with an address upon The Economic Relations of Educa-

Archbishop Quigley, of Chicago, said:
"Our system must be Cathollo, not at all a compromise with any other system: ex-clusively and thoroughly Catholic. Catholic education is necessary for the preservation of the church and for the preservation of the Nation itself. It is the Catholic system of education that is going to save the world. We must save it from contamination; we must not allow interference by legislation."
