SAN FRANCISCO, July 16 .- Dr. Edward R. Dr. Taylor was the third man to whom the election was offered by Rudolph Spreckels and District Attorney William H. Langdon. His election came as a complete surprise to the city, for at no time in the past week of daily guessing was his name mentioned by anyone outside of the secret councils of the District Attorney and his half dozen associates The office was tendered to Dr. Taylor a few minutes after 4 o'clock this afternoon, and his acceptance was in the hands of Mr. Langdon and Mr. Spreckels before 5 o'clock. Dr. Taylor is between 50 and 65 years of age.

The District Attorney dictated for the Associated Press the following state-

We feel that San Francisco is to be congratulated upon having a public servof the character and standing of Dr. Edward R. Taylor. A resident of San Francisco for 45 years, his heart is in the city's future, and the high serv-ices that he can and will render this stricken city will. I trust, be fully appreclated by a grateful people.

The wide authority that has temporarlly lodged in the District Attorney's office will now be restricted within the bounds prescribed by law, and the ex-traordinary functions hitherto directed from this department will, to our great satisfaction, have come to an end."

#### Schmitz Asserts Claim.

Mayor Eugene E. Schmitz, who was recently convicted of extortion, is yet a factor to be reckoned with in the solving of the municipal problem. Today he appointed Samuel Sawyer, a member of the Typographical Union, a Supervisor to succeed Charles Boxton, who resigned to be appointed temporary Mayor by the graft prosecution. It is announced that Schmitz will applied successors to the re-maining 15 Supervisors who will be forced by the District Attorney to resign.

The city will then have two govern ments, one headed by Mayor Taylor, the other by Mayor Schmitz, who maintains that he is not incapacitated until after the court of last resort has confirmed his conviction. It is held by the prosecution that the conviction of Schmitz in the trial court incapacitated him from further holding office, and on that theory it has

Heney Extorts Facts in Glass Trial

SAN FRANCISCO, July 16.—Both disappointment and success fell to the lot of the prosecution in the Glass bribery trial sub-agent of the Pacific States Telephone & Telegraph Company, and Miss Ryan, stenographer, formerly in the employ of T. V. Halsey, proved unwilling witnesses. Miss Ryan was relied upon by prosecution to tell of the incrimin

ating conversations between Halsey and Glass, but the best Assistant District Attorney Heney could get from her was that she had seen Boxton in Halsey's office in the company's building at Bush street and that she had been dismissed from the room when Halsey and Boxton entered to converse.

From E. S. Pillsbury, attorney for and director of the company and for many years a well-known lobbyist in this state Mr. Heney, after much difficulty, elicited the statement that Halsey reported directly to Glass, and that at the time of the alleged briberics Glass was the only official of the company with power to sign checks for disbursements the approval of the board of directors

Mr. Heney questioned Miss Ryan at length as to which of the is supervisors she saw at the telephone company's offices at different times. Some she remembered, others she said she did not

Asked a trivial question by Mr. Heney.

Miss Ryan insisted that her memory did not serve her and, when Mr. Heney re-peated the question, Mr. Delmas came to his feet with this remark to the court:

"Your honor, we most seriously object

to the sneering manner adopted toward the witness by the Assistant District At-"It was not sneering," retorted Mr. Heney, hotly, "and you know it, Mr. Del-You have no right to characterize

my attitude as sneering."
"It submit to the court that it was eering," replied Mr. Delmas, "and I will now inform the gentleman on the other side that my rights in the conduct of my client's case are not to be pre scribed or limited by him."

"I shall address myself to the cour whenever it appears to me that the gentleman is transgreasing," replied Mr. Hency, "and I will tell him now if he does not cease questioning my statements, I will settle with him elsewhere, 'Ha, ha, ha," laughed Delmas.

Witness' Memory Fails.

After Miss Ryan testified that she 'was acquainted with Mr. Louis Glass," Mr. Heney asked, "Did you ever see Halsey in Glass' office?" "Perhaps once in three months," Miss Ryan replied.

"Were they talking together?" "I suppose so. "Did you hear anything they said?"

"I was not paying attention "Did you hear anything without paying

"Did you ever take down any letters or reports or anything else addressed by Halsey to Class? "I don't remember.

Then came the most sensational incident of the examination. Mr. Heney, looking full into Miss Ryan's face, asked: "Did you have a talk with Halsey in the corridor yesterday?"

Mr. Delmas entered an objection, which Judge Lawlor sustained.

yesterday, urge you not to testify-to forget what you knew?" asked Mr. Heney. Again Mr. Delmas objected, but before the court could rule Miss Ryan answered: "He certainly did not."

"But Halsey talked with you yesterday for 15 minutes in the hall, didn't he?" Mr. Heney persisted. Mr. Delmas' objection was sustained.

The defense recalled Mayor Charles

"Was the grand jury made aware of the fact by Mr. Heney that the prosecution had granted you immunity?" Mr. Heney objected and was sustained. Mr. Delmas said he had no further questions. In re-direct-examination, Boxton said he was on the salary list of the Pacific States Telephone Company from June, 1905, until the departure of Halsey from San Francisco for Manila in November, 1906, and got 3100 per month.

Defense Answered on Vindicator Mine.

SHERIFF ROUTAN WITNESS

Tells of Colorado Reign of Terror and Forcible Deportation of Union Miners - Another Blow at McGee.

BOISE, Idaho, July 16 .- In the last stages of the case against William D. Haywood, the prosecution put six witnesses on the stand today to rebut the evidence of the defense. They testified to conditions in the Coeur d'Alenes in 1899, and to the situation in Colorado during the strike period of 1903 and The important witnesses of the day were called to contradict the showing made by witnesses for the defense that there was no reason for calling out the militia of Colorado other than a desire upon the part of the mineowners to drive members of the Western Federation of Miners from the mining district. One witness flatly contradicted the evidence introduced by the defense to show that the explosion at the Vindicator mine was due to an accident.

Trying Aller for Perjury.

While the big trial was going on in the District Court, before Judge Fremont Wood, an interesting offshoot of the case was being heard by Justice of the Peace Savage. W. H. Aller, the depot agent, who was arrested yesterday charged with perjury, was brought before the magistrate for apreliminary hearing. The state was represented by Prosecuting Attorney Koelsch, and the prisoner by Peter Breen, an attorney of Butte, who has been associated with Haywood's counsel, having been retained by the Miners' Union of Butte to watch the case. Fred Miller, who was Orchard's counsel at his preliminary hearing at Caldwell, immediately after the murder of Governor Steunenberg, assisted Mr. Breen.

Orchard Is Chief Witness

The principal witness in the perjury hearing was Orchard himself. prisoner was brought in from the Penitentiary in charge of Warden Whitney and a Penitentiary guard. No more than half a dozen people outside of the principals in the case and the other witnesses were present when Orchard went over his testimony as to his connection with D. C. Scott, the railroad agent, who had sworn he interviewed Orchard in Cripple Creek two or three weeks before the explosion at Inde-

pendence in 1904. Orchard was closely cross-examined by Mr. Breen, but no amount of questioning brought out any material change in the original story. Mr. Breen was more severe in the little magistrate's court than was the cross examiner when Orchard was the star witness for the state in the Haywood rial; but Orchard maintained the same calm exterior and answered each ques tion with quiet positiveness. A number of the other witnesses were examined the case taking up most of the day. A motion to dismiss will be argued tomorrow afternoon. Aller was released on deposit of \$2500 bonds.

Disproving Orchard Alibi.

In the Haywood trial Edward Alvard, physician of Burke, one of the min ing towns of the Coeur d'Alenes, swore that he saw Orchard on the day the blowing up of the concentrator at Wardner, and that he came from there on the train returning from Wardner The train was in possession of the mob, which blew up the mill. Alvard's testimony was in direct contradiction of that of Dr. McGee, who swore he saw Orchard playing cards at Mullan, several miles away.

A. T. Holman swore in rebuttal of the testimony of Thomas Wood, a witness for the defense. Mr. Wood had said that he saw Beck and McCormack, the two men killed by the explosion a the Vindicator mine, in the eighth level before the explosion, and afterward found their bodies in the sixth level. He sald that Beck carried a revolve on that day, and that he saw a box of powder on a water barrel in the eighth level just before Beck and McCormacl went up to the sixth, where the explosion occurred a few minutes later. The impression created was that the two men carried the powder with them, and that Beck dropped his revolver which exploded and the powder went off. This would also account for finding of the shattered parts of a re volver near the bodies.

Flatly Contradicted Wood.

Orchard swore that he fired the powder with a pistol. Mr. Holman was superintendent of a neighboring mine and formerly superintendent of the Vindicator. He was one of the to go down the shaft of the Vindicator after the explosion. His evidence, given largely from a prepared chart of the interior of the mine, contradicted Mr. Wood on many points.

L. G. Ramsey, a young man and a relative of McCormack, followed Mr. Holman. He was in charge of the powder in the mine at the time of the explosion. He knew Beck and McCormack well, and swore that neither of them ever carried a revolver; that there was no powder in the mine at the time, so far as he knew, and that was no water barrel on the eighth level, as Mr. Wood had stated.

Sheriff Routan, of San Miguel County, Colo., was the last witness of the day. He testified as to strike conditions. Under a searching cross-examination by E. F. Richardson, he admit ted that union miners were deported and driven by force from the county while he was Sheriff, and that no attempt was made to prevent or punish those who attacked the union men. He said that the deportations were the work of the leading citizens of Telluride.

Impeaching the Defense.

Lawrence Guibbini, the San Fran cisco grocer, having been recalled and answered a few questions of the defense about the topography of the scene of the Bradley explosion, A. C. Cogswell, of Wallace, Idaho, came forward to further impeach Dr. McGee. The doctor had fixed certain dates by reference to the date. reference to the date of the Republican County Convention, and Mr. Cogswell, who was chairman of the convention, gave different dates.

The State offered in evidence a copy

of the Idaho Tribune, the official or-gan of the Western Federation in the Coeur d'Alenes, containing a long neount of the Bunker Hill and Sullivan outrage, for the purpose of answering Mr. Darrow's opening statement that the mill was attacked by an unorganized mob. A heated argument ensued between Messrs. Hawley and Richard-son as to its admissibility, and Judge Wood finally ruled it out, the defense having offered no evidence to sub-stantiate Mr. Darrow's statement.

Dr. Edward R. Alvard, a druggist of Bunker, testified that he did not see about that town while the mob was at Wardner, but did see Orchard imme diately after its return. He denied am a Democrat in National politics, but having a grudge against the Federal I pin my faith just the same to such tion, though he admitted having a men as Roosevelt, La Foilette, Hughes member arrested for ordering him to and Folk." leave the country.

Explosion in Vindicator.

A. I. Holman, manager of the Golden Cycle Mine, at Cripple Creek, since 1903, prior to that date of the Vindi-cator Mine, gave a description of the Vindicator explosion, saying he reached the sixth level, where Beck and McCormick were killed, within 20 minutes after. His evidence was in-Vindicator tended to rebut that of Mr. Wood, who testified that the explosion was acci-

Under cross-examination, Mr. Holman said he took an active part in the strike as a member of the Mineown-ers' Association. He had been told of the beating of Stewart, who worked at the Vindicator during the strike, but had never heard that Stewart went home drunk and was beaten by his wife. The mining companies paid quarterly assessments to the Mineowners' Association and bought the state certificates of debt issued to pay the expenses of the militia.

"You decided to get rid of the Western Federation of Miners because it had called a strike and you got the militis out to help you, didn't you?" demanded Mr. Richardson,

"No," replied Mr. Holman; "we got the militia because the sheriff couldn't keep order and protect the mining

Judge Ben B. Lindsey, Denver's belligrent Juvenile Court Judge, sat in the Sreat Northern Hotel tonight and recited the story of a politically-rotten state. He is the La Follette of Colorado, and admits that he is the most cordially hated man in the Rocky Mountain region. He is sick and tired, so he says, of the methods that prevall in the state that has just elevated Simon Guggenheim, the smelter king, to the United States Senate.

Corruption a Fine Art.

"That Colorado leads all states in its p-to-date methods of defeating the people's will; that it has solved the problem of throttling legislation and, instead of buying legislators, sends men to the General Assembly who are servile to the corporations; that the motto, 'It is easier to elect a friendly man as member of the Statehouse or Senate than it is to buy one after he lands there," is the dominant policy in Colorado politics; that, moreover, it is much cheaper to elect your man than to purchase a stranger who has happened to receive the people's insement; that the Legislature porate interests in Colorado; that men of the Guggenheld stripe remain triumphant in the saddle; that not so long ago the big corporations in Colorado supported Governor Peabody for chief executive and in exchange were permitted to select a committee that named as counsellors for the Governor two members of the State Supreme Court; that the Colorado eight-hour law invalid and threw this question, a vital one to the miners and laborers, back into the Legislature for settlement.

Roosevelt Is Only Hope.

"I have no special quarrel with Mr. Guggenheim," said Judge Lindsey, "He is a millionaire, but has as much right to go to the United States Senate as a cabdriver or a painter of fine pictures. I object, however, to the methods used by the machine which boosted Guggenheim into the Senate."

"You say Colorado is ridden down with corruption; now what can save it?" was asked.

"I feel that the Roosevelt influence is our only hope," he replied quickly.
