COREAN IS ANGRY

Peace Congress Visitor Talks of Abdication.

CALLS IT JAPANESE INFAMY

Some Dissatisfaction Noticeable or Lack of Progress at The Hague Meeting - Panama Delegation Wants to Change Its Vote.

THE HAGUE, July 19.—The abdication of the Emperor of Corea was the general topic of conversation among the delegates to the peace conference today. A majority of them inclined to the belief that, even if the Emperor had been dethroned. should be considered an indispensable measure to give the Japanese a free hand in establishing a modern system for de-veloping the resources of Corea.

Yi Sang Sul, ex-Premier of Corea, who is here with the Corean delegation which was denied recognition by President Nell-doff, after reading the dispatch announc-ing the abdication, said:

JAPANESE ACTION AN OUTRAGE

Corea's American Emissary De nounces Oppression of People.

NEW YORK, July 19.-Declaring that the Japanese control over Corea is de-bauching the Coreans and fast tending to the complete eradication of Corea as a state, Homer B. Hulburt, for many years engaged in educational work in Corea, is here today on a mission from Corea to bring to the attention of the United States government and the people of this country the conditions in Corea under the Japanese protectorate. Mr. Hulburt arrived today upon the steamship Deutsch land with his family after a two months' journey from Seoul. He said the sending of the Corean delegation to The Hague had been made a pretext of by Japan to force the abdication of the Emperor and so gain further control over Corea. Mr. Hulburt went to Corea over 20 years ago to engage in educational work at the re-quest of the Corean government.

have seen a Japanese boy rush out into
the street and belabor a Corean gentleman with a stick and laugh. The Corean man with a stick and laugh. The Corean could do nothing, for protests to the Japanese would avail nothing. The Japanese anese have seized their salt works, driv en away the Corean fishermen from their fishing grounds and taken every form of profitable industry in the country for themselves. The Coreans will tell you that the Japanese are striving to drive them from the country that they may occupy it for themselves. Japan wants Cores for herself, and while the government at Tokio is openly declaring that Corea is open for the trade of the world, she is seeking by every possible secret act to ald her merchants by creating conditions

which will drive every foreign merchant out of the country. "Japan is debauching the morals of the Coreans by selling them morphine in great quantities. Especially is it true in Northern Corea."

Mr. Hulburt said that the accession of the Emperor, who has now abdicated, desired to create improved conditions for his people, he knew that he was utterly unable to do anything. Mr. Hulburt said the Emperor's last almost despairing attempt was sending a delegation to The Hague to protest to the nations that the Japanese pro-tectorate over Corea was illegal and

Fish Are Large Ones, 75 Per Cent Going 25 Pounds-Cold-Storage Plants Are Crowded-Pack May Yet Be Large.

ASTORIA, Or., July 19.—(Special.)—While the number of salmon in the river has been gradually increasing during the past few days, the first real run of the season commenced on this morning's the The Summer normal school fund.

The Summer normal school which is being conducted at the Monmouth Normal this year, which has over 70 students under instruction in pedagogical work, is carried on under the new system, the state employing the members of the facture of the glinetters are reported state employing the members of the facture of the factu well, both this morning and afternoon, and some of the gilnetters are reported as getting as high as 1800 pounds to the boat. A peculiar feature is that the fish continue large, fully 75 per cent of them weighing 25 pounds or over, each. They are of exceptionally fine quality and are what were known as the June salmon of a few years ago. As a result the great majority of them are going to the cold storage plants, which are crowded with of the State Board that this arrangement will be permitted to continue this year, the practice will have to be abandoned in future.

ROAD WOULD LOSE MONEY

Manager Fuller Says Fare of 15 Cents to Oak Grove Is Just.

SALEM. Or., July 19 .- (Special.)-In answer to the complaint of B. Lee Faget, on the part of the citizens and the Commer-cial Club of Oak Grove, asking for a reduction of the fare between Oak Grove and Portland on the Oregon City branch of the Portland Rallway, Light & Power Company, Manager F. I. Fuller, of the company, represents to the Railroad Commission that a reduction of this fare, which is now 15 cents each way, would operate as an injustice and great loss to the line.

Mr. Fuller acknowledges the regular one-trip cash fare is 15 cents, for the dis-tance of 8.12 miles, and the special commutation 20-trip rate is \$1.70, or at the rate of less than 1 cent per mile. This latter rate, however, is without transfer privileges. He explains that if passengers from Oak Grove would pay the 10-cent fare to Golf Junction and thence into the city for 5 cents more than would get the city for 5 cents more, they would get the benefit of a ride to any part of the city on the city lines for 15 cents, or a round trip, covering a distance of 30 miles, for 30 cents, instead of 40 cents, as represent-

M'MINNVILLE, Or., July 19 .- (Special.—A mass meeting of considerable importance to the dairying interests of this section was called at this place this evening to hear the report of the committee from the push club having in hand the proposition of the establishment of a milk condensery in this city. The committee reported that by a careful canvass they had ascertained that there were 2851 cows here willed that there were 2861 cows being milked within a radius of 10 miles, and some 1500 in the vicinity of Sheridan and Willamina, whose product would very naturally come here. Much enthusiasm was manifest at the meeting, and since the committee is in cor-respondence with interested parties, it seems evident that this enterprise will materialize. In the event of the es-tablishment of a condensery here the farmers who have been interviewed promise an increase of 40 per cent in their dairy herds.
