

GIVES PRIZE OF TELEGRAPH TRUST

Western Union Order for Diversion of Business With Postal.

NEW YORK SUIT EVIDENCE

Large Amount of Business Turned Over to Rival and Receipts From Many Offices Divided Pro Rata.

NEW YORK, July 22.—(Special.)—That a coast-line business agreement exists between the Western Union and the Postal Telegraph companies—a charge made by the Attorney-General in a suit to annul the charter of the two corporations on the ground that they constitute an illegal monopoly—is indicated by a special order of the Western Union to managers of its offices throughout the country.

Order Shows Combination. The order is printed on a large sheet and is headed: "The Western Union Telegraph Company, Superintendent's Office."

Prepaid day or night messages to the places named below to which your square, state or special rate is 25 and 2 or less, should, as soon as accepted from their sender, be handed with what is referred to as the Postal Telegraph Company for transmission from point of origin to destination.

Then follow in tabulated form the schedules, with the division of the money between the Postal and Western Union, including a list of 33 cities and towns in Delaware, two in the District of Columbia, 48 in Maryland, 112 in New Jersey and 139 in Pennsylvania.

PLEA FOR HAYWOOD'S LIFE

Delving into the Coeur d'Alene troubles, Mr. Richardson declared that most of the mines were owned by the Standard Oil Company and he proclaimed that wherever conditions were such as to create a Rockefeller at one end of the line and a man with a gaunt dinner-pail at the other, more or less friction and trouble is bound to occur.

Why Stenness was Hated. I am not going to explain or apologize for the men who blew up that mill. It is sufficient for me to say that Haywood, Moyer and Pettibone were not parties to it.

Orchard Dime Novel Hero. Before taking up the Cripple Creek troubles, Mr. Richardson turned to the history of the Western Federation of Miners, and pointed out what its objects had been—to better conditions, to care for its sick and dying, the widows and orphans of its members.

Victorino Affair Accidents. He next entered upon the Victorino mine explosion, arguing that it was an accident. At the evening session of court, Mr. Richardson said he would do all he could to abridge his remarks on account of the intense heat and believed he would be able to conclude some time tomorrow.

Food a Costly Item. To feed the jurors up to June 5 it has taken groceries to the amount of \$17.50 and that included the purchase of some tableware and cooking utensils. The meat bill up to that time amounted to \$19.

Gould's Son Goes to Work. NEW YORK, July 22.—Kington Gould, youngest son of George J. Gould, is one of a party of half a dozen Columbia University students who are now studying mineralogy at first hand and doing some prospecting in Southern Arizona. The party is under the charge of Dr. Charles Z. Beckey, instructor in geology at Columbia. The plan was to go to Bisbee, where there are big copper mines, and then to make a close observation of the formations on the Mule Mountains. The expedition was organized by young Gould last winter. Since entering Columbia he has shown deep interest in mineralogy. It is said to be one of his ambitions to discover "pay dirt." The party will "rough it."

CHOKES OFF THE SUPPLY TELEGRAPHERS' UNION HAMPERS RAILROAD WORK. Forbids Training of More Operators Just When Law Requires Enlarged Force.

CHICAGO, July 22.—(Special.)—Operating officials of the railroads are not greatly pleased with a circular which has just been issued to all officers and members of the Order of Railway Telegraphers by its president, H. B. Perham, of St. Louis. The railroads are having difficulty now in securing sufficient telegraphers and are facing the fact that in eight months when the Federal law goes into effect, prohibiting any railway telegrapher from working more than eight hours a day, they will be obliged to increase their force nearly 40 per cent, or more than 5000 operators.
