MANNING DENIES HALF LID RUMOR

Says There Is No Truth in Story That Gladdens Hearts of Saloonmen.

POLICY IS NOT CHANGED

Baseless Canard Was to Effect That Drinking Places Would Be Allowed to Open at 1 P. M. Sundays.

Joy unrestrained reigned among the fisciples of Bacchus in Multnomah County yesterday when a rumor gained circu lation that District Attorney John Man-ning had relented and would consent to a half-lid regulation of the saloons on Bunday. But the jubilation following the report was short-lived, investigation proving that the story was without foundation. District Attorney Manning vigorously declared that no departure from the Sunday-closing policy announced some six weeks ago was contemplated by the District Attorney's office.

"Nobody has asked me to take the ild off and in fact there is not the slightest demand that it should be raised even partly," said District Attorney Manning yesterday, "It would not make any difference if T should be asked to change

my policy regarding Sunday closing. The lid is on to stay as long as I am in office, if I should serve for 40 years."

The substance of the report was that the saloons would be permitted to resume business at I o'clock Sunday afternoon, after being required to remain closed for after being required to remain closed for the preceding 13 hours. In connection with the same report it was said that an ordinance would soon be introduced in the City Council legalizing the Sunday of the liquor license committee of the Council, who say the only ordinance before that committee relating to the saloen question is a measure by Vaughn conferring on the Council the right to enforce the closing of saloons on Sunday

Opposes Sunday Closing.

This committee in the Council, whe the Vaughn ordinance was before it for consideration, went on record as posi-tively opposing Sunday closing. Of the seven members of the committee, Vaughn was the only member who indorsed the ordinance, which was placed on the table. It will probably never be taken there-from, judging from the temper of the members of the license committee.

Several of the members of this committee are of the opinion that under the city charter the Council has the right to regulate the saloon question independently of the state statutes. The more conservative members, however, maintain that this contention is not warranted for the reason that the state law takes prece-dence over municipal legislation, particularly when that legislation relates to subjects coming under the criminal laws of the state. Interpreting the situation in this light, these same Councilmen hold that, no matter what the wishes of the municipal lawmakers may be, the control of saloons as to Sunday closing will be in charge of the state and district authori-ties until the present statute is repealed or the District Attorney relaxes in his present attitude and public sentiment will nsent to tolerate liquor traffic on the

Would Lift the Lid.

When the Vaughn Sunday-closing ormittee a majority of the members of that imittee were correctly reported as oping any Sunday-closing policy either the state or the municipal authorities," said Dr. W. I. Cottel, chairman of that committee, yesterday. "Personally, I do not believe the time has arrived for this sort of reform. Portland is a West-arn city, and it is difficult for us to become accustomed to these restrictions. believe that saloons should be regulated by law and properly conducted, but I do not consider they should be required to suspend business one day each week.

Not a Sunday has passed since Portland's saloons have been closed that I have not refused a dozen applications for liquor. Reputable people have called at my store and requested from 25 cents to a dollar's worth of whisky, wine or gin, and because I would not supply them I am satisfied they were offended. But under the law it is a crime for druggists to sell any liquor unless on prescription of a registered physician. The principal busi-ness of many drugstores is selling liquor and the Sunday closing of saloons has been a boon to their business. Such places should be closely watched and all violations of the law should be prosecuted. If hese places are to be allowed to do this business on such a wholesale scale they should at least be required to pay a dicense if they are not to be governed by the same restrictions that are imposed on

What is believed to be the first instance of the admission of a Chinaman to Henry T. Hudson and C. E. DAY IN JAIL FOR CONTEMPT

Robert Cook Punished for Shaking Fist in Face of Judge.

Robert Cook spent yesterday in the County Jall for contempt of court. Early yesterday morning Cook called at the Courthouse and, confronting Judge Frazer, of the Juvenile Court, demanded that his children be restored to him from the custody of the court officers. His request being denied, Cook shook his fist in the face of Judge Frazer, and a possible assault was prevented by the arrival of Juvenile Of-ficer White, who accompanied the dis-turber to Jall. Cook had been sum-moned before the court to explain his abusive treatment of his three young children last Saturday, while he was under the influence of intoxicants. The children have for several weeks been under the jurisdiction of the Juvenile Court, and it was because the court refused to surrender their custody to the father that Cook is his account. the father that Cook in his anger insuited Judge Frazer.
