

ANGELS AGAIN

Beavers Beaten Four to Two in Sweaty Matinee.

LUCK ALL WITH VISITORS

Portland Could Have Taken Game 2 to 1 if Fortune Had Smiled. Errors Do Not Figure in the Run Getting.

PACIFIC COAST LEAGUE. Yesterday's Results. Los Angeles, 4; Portland, 2. Oakland, 2; San Francisco, 1.

Los Angeles took Portland down the line for another defeat in the sweaty matinee at the Vaughn-street grounds yesterday afternoon. The score was 4 to 2, but might have been 2 to 1 in Portland's favor had luck and good playing favored our side.

The errors contributed by McCredie's men were inconsequential as far as the visitors' run-getting was concerned, for the "Angels" tallies were accumulated, with one exception, on lucky hits; hits that under ordinary circumstances would not have benefited the batter in the least.

Los Angeles inaugurated the scoring in the second inning. Nagle, first up, placed a fly in Bassey's hands, and followed the proceeding by joining the silent ones on the bench. Dillon connected for a low drive which landed just out of reach of the infielders and hurried base. Lovett and Bassey, when they had retrieved it, the Los Loos captain was knocking at the door.

McCredie pitched for the Los Loos half of the fourth inning by connecting for three bases, but was left because Bassey, Donohue and Fay failed to get the ball out of the infield, but "Shub" Bassey proved the real article by hitting a clean single to centerfield.

On the sound of the hit Casey was off for the outfield, but he was not scoring all the way from second, even though Bernard fielded the ball close in. Hartman weakened in the seventh and successfully pitched to Bassey and Burns gave the Angels another ace.

The fourth run for the visitors and the last for the game was practically a donation. Casey pitched a wide shoot with his shoulder and was given a life at first. Brashear placed a neat sacrifice and Carlisle took second. Jud Smith lead off at third, but he failed the ball and threw to Atherton, getting the teeth carper, but in spite of Atherton's quick throw to Donohue, who apparently touched the speedy Carlisle, Derrick ruled that he came all the way from second base on the play. The score follows:

Doc Newton, the former Los Angeles twirler, pitched for New York against the Detroit Tigers and as a result Cleveland has again ousted Arnold's men from the second position. Poor old John McCloskey. His hopelessly last aggregation received a double reversal yesterday at the hands of John McGraw's rough house hirelings. Wonder what the Portland fans would say if McCredie's men were rated as "Shub".

Delmas, the Angel shortstop, made a beautiful stop of Casey's drive back of secondbase in the sixth inning yesterday, but the fleet little Beaver was too fast to be caught at the final sack. Carl Moore was sent in to bat for Hartman in the ninth, but the best he could do was to pop a fly to Brashear. His out ended the game.

Jud Smith seems to make easy work of throwing a runner out at second when the batsman attempts to sacrifice. The Los Angeles pitchers also have secured this league in fielding runs, but it seems im-

Seattle 4, Seattle 3. May Have All-American Auto Race. NEW YORK, July 31.—The Vanderbilt cup race for automobiles has been abandoned, because of the refusal of foreign manufacturers to enter cars unless the race is held in New York or New Jersey, and there is talk of holding a race exclusively for American cars. At a meeting of the executive committee of the American Automobile Association, unanimous sentiment in favor of such a race was expressed. If it is decided to hold such a race it will be held at Ormond Beach, Fla., probably next March.

An automobile convention will be held in this city during the automobile show from October 24 to November 7. Papers will be read and discussions held on practical motor topics, such as legislation, good roads, touring facilities and other features. Motorists will be required to be present and give their views on these subjects, from all parts of the country.

WATER SUPPLY SUFFICIENT. CONSUMERS HAVE FEW COMPLAINTS TO MAKE. Service Much Better Than Last Summer—Officials Give Credit to Meters.

With the Summer more than half gone, Portland's water system is giving satisfaction. Only a few complaints have reached the water office of an inadequate supply and the only dissatisfied patrons are found to be residents in the outlying districts, where it is considered surprising that the one and two-inch pipes are so nearly meeting the requirements. Unless there comes a protracted period of excessively warm weather it is believed there will be an abundance of water for all consumers.

Last year the water office was flooded with complaints from practically every section of the city. In a great many localities residents were unable to get water at times either for domestic use or for irrigating. But this year the amount of water actually used, it is believed, has been to stop the waste of water with the result that there has been more water for those who had need for it.

The principal complaint this season comes from the residents of Mount Tabor, where the small pipes do not carry enough water to serve all of the consumers. Members of the Water Board are impatiently waiting until the legality of the bonds voted in the last city election can be established in the courts. If the election by which these bonds were authorized is held to have been legal the Board will be able to dispose of bonds to the amount of \$1,000,000, with the proceeds of which an additional pipeline is to be constructed from Bull Run to this city and new mains will be laid throughout the city. The members of this Board are specially desirous to proceed with laying these needed mains as soon as the funds can be made available.

Until new and larger pipes are laid to meet the demand for city water the possibility of a water famine becomes the greater as the city grows and the number of patrons of this service increases. Unless the additional \$1,000,000 becomes available for enlarging the municipal water system, the Water Board will be forced to adopt a miserly policy in expending the meager balance of the fund that was appropriated for maintaining this department during the remainder of the year.

In that event action on immemorial petitions for extending mains and for laying larger pipes will have to be deferred, as there will be sufficient funds for the most urgent improvements only.

LONG JOURNEY BY AUTO. D. L. Burke Completes Run From Los Angeles to Portland.

D. L. Burke, an old-time bicycle rider and now a devotee of the automobile, accompanied by his wife, has just completed the trip between Portland and Los Angeles in a big touring car. The auto left Los Angeles on June 8 and Mr. Burke's purpose in taking the trip was to study the real estate situation along the Coast and to buy such properties as he should deem good investments. Along the route he spent much time looking over various properties from Los Angeles to Portland, and the actual running time of his machine while en route north was 71 hours, almost equal to the average time made by the railroads. Mr. Burke declared that the worst roads encountered on the journey were those between Oregon City and Salem. The distance between Portland and Los Angeles is 1200 miles.

and Mr. Burke advocates the organization of an auto association which would have for its object the building of an auto road between the Southern California metropolis and Puget Sound.
