HAYWOOD GOING AROUND CIRCLE

Will Tour West and Address All Unions of Miners' Federation.

and Richardson Each Reto Work With Other-Dar-Moyer and Pettibone Trials.

BOISE, Idaho, Aug. 1.—(Special.—"I have had hundreds of calls from the boys in all parts of the territory covered by the Western Federation of Miners to come and talk to them, and as soon as I can arrange matters in Denver, I shall respond to as many of them as possible." That was the statement made this evening by William D. Haywood, secretary-treasurer of the Western Federation

of Miners,
Mr. Haywood said that, aside from the
many unions of the Federation, he had
received many offers to go on the public
platform as a lecturer. He said he did not care to pose as an orator or public speaker of entertainer. He had some flattering offers from a financial stand-point, one society in Scattle offering him \$1000 and expenses for one night. But he said, "My boys will be the first considered. They want me to come to them and talk to them and I shall make plans to accommodate them."

Start for Denver Today.

Mr. Haywood, with his family, mother and stepsister, John Murphy, the Federation's attorney, who is dying of consumption, and a number of Socialists from Colorado, who were here all through the trial, will leave on the early train to-morrow morning. Today Dr. Disbrow, of Denver, family physician, arrived and said it would be safe for the party to travel. He will accompany the party back. Mrs. Carruthers and daughter ex-pect to leave the train at their home in

Charles H. Moyer stated that he would not leave for Denver probably before Saturday or Monday.

Richardson and Darrow Split. It leaked out over a week ago that Clarence S. Darrow and E. F. Richardson would never appear in any case again for the same clients and it is now given out that in the coming cases, those of George A. Pettibone and Charles H. Moyer, Mr. Darrow will never the company of the company will never the company will never the company of the company will never the company will never the company of the company will never the company of the company will never the company of th er. Mr. Darrow will probably have the leading role as attorney for the detense and that Mr. Richardson will not again appear. Mr. Darrow states positively that either himself or Mr. Richardson will have to get out. He said he would never be associated with Mr. Richardson in another trial and that in another trial, and that, but for the effect it might have had on the Haywood trial, he would have resigned long ago. "Mr. Richardson was very hard to get along with," he said. "He was very egotistical, arrogant and exceedingly jealous. We never could travel double again."

Darrow's Glaring Faults.

Mr. Richardson, on the other hand, sald that Mr. Darrow was headstrong, heed-less and hearsighted when the interests of the clients were being considered. His great fault with Mr. Darrow was that he was a Socialist and was inclined to put the interests of the party shead of the interests of the men who were on trial for their lives.

DENVER PREPARES OVATION

Great Outpouring of Unionists to Do Honor to Haywood.

DENVER, Aug. 1 .- Practically all the unions of the city were represented at a meeting tonight which had for its pur-pose the perfection of plans for honoring pose the perfection of plans for honoring William D. Haywood, secretary-treasurer of the Western Federation of Miners, who was acquitted of the charge of consiracy in connection with the murder of ex-Governor Steunenberg, of Idaho, on his his arrival in this city from Salt Lake next Saturday evening.

A great popular demonstration will be made in which it is estimated by unionists between 25,000 and 50,000 people will take part. Mr. Haywood will be met at the Union station and will ride to his hotel in a carriage drawn by six white horses, white signifying his innocence of the crime with which he was charged. An effort will be made to have Mr. Haywood address the populace somewhere along the line of march and also submit to a reception, when all wishing may

On Sunday, if agreeable to the princi-pal himself, a great outpouring of people will greet Mr. Haywood at a mass-meeting to be held at one of the open-air gardens, during which time he will deliver an address. Everything depends upon the willingness of the proposed guest of honor to submit to the plans, for the local unionists place no limit upon the scope of the reception or the number who will participate.

STILL HUNT FRAUDS.

Congress Has Not Cut Down Appro-

printions. OREGONIAN NEWS BUREAU, Washington. Aug. 1.-There is not the slight est foundation for reports that have recently been given currency in the West to the effect that the Government is be-

ing unduly hampered in the work of run-ning down and punishing individuals guilty of participation in land frauds. The appropriation for special agents and inspectors of the Interior Depart-ment and General Land Office is exactly the same this year as last, namely, \$250. 000. There are as many special agents and inspectors now at work as were employed in the days when the notorious

frauds in Oregon were unearthed. There is no intention of reducing the number of agents, and there is no necessity for reducing their number. It is true, that the President wanted Congress at the last session to double the appropriation for special agents, and he urged that \$500,000 be set aside for this purpose. Congress denied the request and appropriated only the regular

and appropriated only the regular amount. But there was a good and sufficient reason for the refusal of Congress to increase the appropriation, and it was not due, as has been charged, to an effort on the part of Senators and Representatives to protect the land thieves.

On January 25, 1807, President Roosevelt signed an order that had been prepared by Secretary Hitchcock, then head of the Interior Department, stipulating that thereafter no patent should be isthat thereafter no patent should be is-sued for any piece of public land until the entry had been personally inspected on the ground by some special agent or other representative of the department. or other representative of the department. Secretary Hitchcock, with all his com-

mendable qualities, had a suspicion that every man was a thelf unless he bore the stamp of approval of some one of his rep-resentatives; at least, he feit that way towards every man who sought to ac-quire public land.

That order brought forth a tremendous howl from all parts of the West, for it meant all kinds of congestion in the Land Office, and meant delays of years in pat-enting homesteads and other forms of entries. It was punishing the innocent in order to detect the guilty and statis-tics show that about 98 per cent of the public land entrymen are honest. Senator Fulton of Oregon was very pronounced in his opposition to that order, and in talking with the President asked him what assurance he had that the special agents would make honest reports. He intimated that the order might have the opposite effect to what was intended, for it gave an opportunity to land thieves who had money to buy up special agents, and at the same time would compel them to find undue fault with honest entrymen in order that they might maintain their standing with the Department.

standing with the Department.

Naturally this order of the President could not be carried out by the regular force of special agents. The force would have to be doubled in order that entries could be inspected as fast as entrymen proved up. It was with this situation confronting him that the President urged a doubling of the appropriation for special agents, and it was solely to meet th demand created by his order of January 25 that he made the recommendation.

25 that he made the recommendation.

Later when the President found the weakness of his order, and realized that he would be hardshipping every honest entryman for no other purpose than to gratify a whim of Secretary Hitchcock he modified his order on February 12 by excepting various kinds of entries that excepting various kinds of entries that need not be personally inspected before passing to patent. But even as modified the order called for a large increase in the number of special agents, so the estimate to Congress was allowed to stand. Western Senators and Congressmen knew why the order of January 25 had been issued, and they knew it was their last chance to pay their respects to Secretary Hitchcock who had announced his intention of retiring on March 4, so they stood pat, refused to raise the appropriation, and soon after Congress adjourned, the President, realizing the folly of further holding up land entries pending per-

the President, realizing the folly of further holding up land entries pending personal investigation, issued an order on March 12 absolutely revoking his previous orders of January 25 and February 12, and the old order of things was restored. The public land situation is therefore today just what it was a year ago, and the Government has the same force and the same resources now for ferreting out fraud that it had in July, 1906. There has been no diminution in the force and no diminution in the appropriation. And so far as the presecution of iand thieves is concerned, the appropriation for the current year is larger than that for the year just closed.

That there is need for more special agents of the General Land Office there

That there is need for more special agents of the General Land Office there can be no doubt, but there is a right way as well as a wrong way of asking for increased appropriations. Unfortunately the President permitted himself to be led into the wrong way by Sanata of the led into the wrong way by Sanata of the led into the wrong way by Sanata of the led into the wrong way by Sanata of the led into the wrong way by Sanata of the led into the wrong way by Sanata of the led into the wrong way by Sanata of the led into the wrong way by Sanata of the led into the wrong way by Sanata of the led into the wrong way by Sanata of the led into the wrong way by Sanata of the led into the wrong way by Sanata of the led into the wrong way by Sanata of the led into the wrong way by Sanata of the led into the wrong way by Sanata of the led into the led the President permitted himself to be led into the wrong way by Secretary Hitchcock. If Hitchcock had not been a party to the request, and if the President had not signed the order drafted by the Secretary, Congress would have been in a much more friendly mood, and it is possible some increase could have been secured. But there is no ground for the charge that Congress has interfered with the prosecution of land frauds. Such talk is due either to ignorance, or to some ulterior motive on the part of the man who makes the charge.

FRANCE, SPAIN AND ITALY WILL PUNISH MOROCCO.

Exact Satisfaction for Casa Blanca Massacre-Refugee's Story of Slaughter of Foreigners.

PARIS, Aug. 1 .- A well-known diplomat in an interview tonight stated that Italy would send a warship, as well as Spain, to Morocco, and that a composite force of French, Italian and Spanish troops would be landed at Casa Blanca to restore order in co-operation with the Sultan's forces. All the signatories of the Algeciras envention will be informed as to the steps which it is deemed necessary to take to exact satisfaction.

EXTERMINATE THE EUROPEANS

Refugee Gives Details of Massacre at Casa Blanca.

TANGIER, Aug. 1.-Dr. Merle, who arrived here last night upon the German other refugees from Casa Blanca, is the bearer of a report to the French Charge d'Affaires here, showing that the slaugh ter of Europeans in Casa Bianca was an outcome of a holy war preached by the Arabs for the extermination of Europe-

tered Casa Blanca and demanded that the improvement work cease. The of Casa Blanca pointed out that this work was being done with the sand tion of the Sultan, whereupon the chiefs stated that the Sultan was no longer their ruler, as he obeyed the Christians. They then began to incite the natives to exter-minate all Jews and Europeans in the town. On Tuesday morning the natives town. began their attacks by stoning a Euro-pean, and when the man tried to flee he was surrounded and hacked to pieces. This was the signal for another attack and as soon as the danger became known the French and Spanish residents rushed to their respective consulates for protection. During this flight at least eight were

"IN SIMPLE TRUST"

One of the most common services a Trust Company performs, is to hold the title to real property "in simple trust."

This means the title is conveyed to the Trust Company, which issues a certificate reciting that the property is held in trust for you, and subject to your directions in writing. When you are ready to deed the property, on a written request from you the Trust Company executes and delivers it deed as instructed by you. You do not need to bother about drawing the conveyance, getting your wife's signature, hunting up a notary, and you may be in Portland or in Europe—your request is all that is required. The papers are sure to be right, a careful record of the transaction is kept, your papers safely preserved, and above all, the transaction is kept absolutely and unvaryingly confidential, and unless you disclose it, your interest need not be known. The French newspapers generally advise that the government administer a lesson to the Sultan. They declare that the gov-erning board is directly responsible for the occurrences at Casa Blanca, as it persisted in maintaining the present Pasha there in spite of the protests of the dip-lomatic corps at Tangier.

The Eclair says it considers that France has been caught in a trap, and that the occupation of Oudja by France has only served to fan the Mussulmans' fanaticism without demonstrating the power of the government. Advices received by the For-eign Office here confirm the reports that five Frenchmen, two Spaniards and one Italian were killed and their bodies thrown into the sea.

CALLS FOR ENERGETIC ACTION

Government Organ Says Mauchamp's Murderers Not Punished.

PARIS, Aug. 1.—The Temps attributes he outbreak at Casa Blanca largely to lack of decisive French action in Moocco. It calls attention to the fact that the real assassins of Dr. Mauchamp, the Frenchman who was killed in Moroe City, have neither been imprisoned nor discharged. It contrasts this course of action with Germany's vengeance in 1855, when a German subject was killed, and insists that energetic action is a national duty as well as a duty to the powers.

No Americans at Casa Blanca.

WASHINGTON, Aug 1.—The State Department today received from United States Minister Gummere, at Tangler, a brief cablegram stating that several foreigners had been murdered at Casa Blanca, Morocco, and that "a foreign ves-sel had been dispatched to Morocco." It is believed at the State Department that there are no native-born Americans in Casa Blanca.
