

## GARFIELD GAINS AID FROM HENEY

Prosecutor Will Supervise  
Land-Fraud Trials on  
the Coast.

### OREGON CASES IN OCTOBER

Many Wealthy California Land  
Pirates to Be Indicted—Heny  
Too Busy With Graft Trials to  
Personally Manage Cases.

SAN FRANCISCO, Aug. 2.—(Special.) It was learned today that during his visit in San Francisco last week Secretary Garfield, of the Interior Department, was in conference with Francis J. Heney in regard to the land frauds in Oregon and California. The meeting was secret, and the Secretary in behalf of President Roosevelt, asked Mr. Heney to assume supervisory control over the prosecutions in both California and Oregon.

Mr. Heney said that his work in San Francisco would require his close attention for some time to come, but that he would nevertheless endeavor to oversee the land fraud prosecutions and perhaps at times take an active hand in the court proceedings.

Oregon Cases in October. The land fraud cases, according to the information of those in a position to know, will be resumed in Oregon in October. If Mr. Heney can arrange his work here to enable him to be in Portland when the prosecutions are resumed he will do so. He is anxious to do so, and believes that he will be able to make arrangements accordingly. United States District Attorney Bristol, of Oregon, will reach San Francisco tomorrow, and will confer with Mr. Heney on the situation in Oregon. Together they will map out a plan of campaign.

Not only will the campaign be resumed in Oregon, but Mr. Garfield is authorized for the statement that the vigorous prosecution of the California land pirates will soon be begun. Several wealthy men, it is stated, are to be indicted by the grand jury. The California prosecutions will be carried on by United States Attorney Devlin, under the direction of Mr. Heney. While Mr. Garfield was in conference with Mr. Heney he took the opportunity to go over the land situation in all the Western states. The meeting was kept secret and it was not intended that the facts should become public at this time.

Graft Cases Last for Months. Mr. Heney and Mr. Garfield had breakfast together and talked land frauds from dusk to dawn. After the meal the conference continued for several hours. The Secretary asked Mr. Heney if he would be able personally to undertake the prosecutions, and was informed that there appeared little chance of his doing so. Mr. Heney returned to the fact that he would act in an advisory capacity in the prosecution, if he could not devote all of his time to the work.

MAGILLS ARE INDICTED  
Six Counts, Naming as Many Methods of Killing Pet Magill.

CLINTON, Ill., Aug. 2.—The grand jury that is investigating the death of Mrs. Pet Magill, the first wife of Fred Magill, who, with his second wife, is in jail here, having been brought back from California to answer to the charge of having caused the death of Mrs. Pet Magill, today returned one indictment against Magill and one indictment against Mrs. Magill. The indictments were exactly alike, each containing six counts. The counts are: That Mrs. Pet Magill was murdered by the administration of strychnine poison; that the murder was done by arsenic; that the woman was murdered with a quilt; that she was strangled with a chloroform; that she committed suicide as the result of a compact and agreement; that her death was caused by the defendants by means unknown to the jury. Magill and his wife were four weeks were in the crowded courtroom when the indictments were returned. They sat together inside the railing, and four attorneys around a table in front of them. While hundreds looked at them, they looked straight ahead at Judge Cochran. As soon as the indictments were filed, the prisoners were hurried out of the courtroom. As the two prisoners, escorted by the Sheriff and his wife, came out of the Courthouse, 1000 men, women and children surrounded them eager to see Magill and his wife. Neither paid much attention to the crowd, but walked, walking the five blocks to the jail.

NOTHING TO FIGHT ABOUT  
American Rulers Will Spend Cuban Funds on Improvements.

HAVANA, Aug. 2.—It being the opinion of almost every one except the politicians, that if there is little money in the treasury of the Cuban republic, the possibility of trouble which might lead to the downfall of the republic will be reduced to a minimum, plans have been made for vast and much needed improvements. The provisional government will start the programme of improvement by road building, and accomplish as much as possible during the occupation. It will then turn over the administration of the republic with what will amount to orders to carry it out.

Less Irrigation Work to Be Done. LOS ANGELES, Aug. 2.—It was announced today upon the arrival of Secretary of the Interior James R. Garfield, that following the conference in Nevada between Mr. Garfield and Director Newell and the engineers of the reclamation service, the Government expenditures for reclamation work in California, Arizona and Nevada would be cut from \$15,000,000 for last year to \$800,000 for the present year. All of the projects in this district, with the

exception of the Salt River work, are nearing completion.

Naval Militia Will Contest. WASHINGTON, Aug. 2.—Attorney-General Bonaparte has rendered an opinion to the acting Secretary of War holding that the naval militia is a part of the organized militia, which if accepted by the Department, will give an opportunity for teams from the naval militia to enter the rifle contests at Camp Perry, Ohio, during this month. Last year the War Department held that the naval boys were not entitled to participate in the rifle contests and there were considerable complaints in consequence.

Repair Ship for Navy at Sea.

WASHINGTON, Aug. 2.—The supply ship Colgoe is to be fitted up by the Navy Department as a repair vessel, with a full equipment of machinery for repairing vessels at sea. The decision is the outcome of a request made by Admiral Evans while at the Navy Department yesterday. The officials have urged upon Congress the appropriation of money with which to construct and equip a repair ship.

Baldwin Going to Arctic Again.

KANSAS CITY, Aug. 2.—Evelyn P. Baldwin, the explorer, who passed through Kansas City last night, announced that he hopes to lead another expedition to the Arctic. He has made a proposition to Eastern capitalists. Mr. Baldwin criticizes the idea credited to Walter Wellman, that the Arctic zone is an ideal region for ballooning.

## ASK COURT TO STOP FIGHT

TELEPHONE COMPANY SAYS  
STRIKE RUINS BUSINESS.

Trades Unions Charged With Conspiracy Before Federal Judge  
in Helena, Mont.

BUTTE, Aug. 2.—A special from Helena to the Miner says that the Rocky Mountain Bell Telephone Company today filed suit in the Federal Court against the Montana Federation of Labor, the Livingston Board of Trade and Labor Council, Telephone Operators' Union, H. O. Smith, Almodose Greiner, and Effie LaFevre, to secure an injunction restraining the respondents from interfering or molesting the business of the company, and to shut off the boycott, which the complaint alleges has been in force since March 14 last year which has damaged the company to the extent of \$5000. No temporary injunction was issued.

An order to show cause why the application for the injunction should not be granted was made by Judge Hunt, returnable September 16. The telephone company charges the Federation of Labor with having entered into a conspiracy with the employees of the company to compel the company to accede to the demands of its employees for higher wages, it being alleged that the Federation is causing handbills and circulars to be distributed containing injurious epithets, with a view of ruining the business of the company.

The trouble is the outgrowth of the strike of the linemen of Utah, Idaho, Wyoming and Montana Federation having the company declared in default in all Montana cities and ordering out all switchboard operators.

NEGOTIATIONS CAME TO END  
Colorado & Southern Switchmen Reject Overtures of Company.

DENVER, Aug. 2.—Negotiations looking to a settlement of the strike of local switchmen and yardmen of the Colorado & Southern Railroad came to an end this afternoon when two propositions from each side were rejected. The railroad proposed arbitration or reference of the demands for an increase of two cents an hour in wages and the switchmen's general managers of the Western roads and committee of the Brotherhood of Railway Trainmen, to be held in the near future.

Grandmaster P. H. Morrissey responded with the suggestion that an increase of one cent an hour be granted now temporarily, and the matter be left to a meeting of general managers and representatives of the Brotherhood for approval. The Brotherhood leaders declare a general strike is now unavoidable but that the only road to be affected at this time is the Colorado & Southern.

There are something in the neighborhood of 500 Brotherhood men employed by the Colorado & Southern Railroad and a general strike would bring them all out, say the leaders, and the result would be to cripple the entire system.

FAIL TO SELECT UMPIRE.  
Chicago Stockyard Teamsters May Yet Go on Strike.

CHICAGO, Aug. 2.—Arbitration without an umpire proved to be a failure in the case of the packing-house teamsters and their employers. Negotiations were broken off today after the arbitrators for the second time had failed to agree on an umpire. A strike of the packing-house teamsters is expected to start within a few days. At a meeting held on the eve of the threatened strike, the teamsters decided to defer the action in the interest of arbitration. The strike vote stands at 1000 to 100 in favor of the strike. The business agent of the teamsters' union may call a strike of the teamsters at any time without voting to place the matter before the rank and file of the union.

Churches to Discuss Labor.

NEW YORK, Aug. 2.—The pastors of the 11,000 Presbyterian churches in the United States have been requested by Rev. Charles H. Stenzel, superintendent of the Presbyterian Department of the National Council of Churches, to discuss the phase of the labor question on September 1, the Sunday before Labor Day. The plan has the hearty endorsement of the leading central labor bodies. Invitations will be sent to local labor unions by the ministers of these churches, and it is expected that many of them will attend church in a body.

Death in Pennsylvania Mines.

PHILADELPHIA, Aug. 2.—More than 1000 persons were killed last year in the coal mines of Pennsylvania, according to the annual report just issued by James Rodenbeck, chief of the Department of Mines. The figures show that many of the accidents resulted from the careless handling of dynamite and that the remaining third may be taken as the reasonable percentage of accidents to miners.

The accidents left nearly 1000 widows with 3410 children under 16 years of age.

Roosevelt's Guests at Luncheon.

## Sale Today of White Walking Skirts, Waists, Hosiery, Knit Underwear and Outing Hats

Values Now at \$1.25

## NO REFUSE DUMP

John Burns Gives Packers Warning for Britain.

PROPOSES PURE FOOD BILL

Commons Adopt It After Its Sponsor Has Exposed Scheme of American Packers to Dump What Other Nations Reject.

LONDON, Aug. 2.—The bill introduced by John Burns, President of the Government Board, enabling the Board of Trade to institute more stringent regulations "for the prevention of the danger arising to the public health from the importation, preparation, storage and distribution of articles of food," passed its second reading in the House of Commons today.

In the course of the debate on the bill, Mr. Burns explained that it empowered the authorities at all ports to inspect food imports, take samples and destroy unsound goods.

He was prepared not to enforce the regulations for a period of 40 days after the adoption of the bill. The government would not insist on the enforcement of the regulations for a period of 40 days after the adoption of the bill.

BIRRELL PLAYS PEACEMAKER  
Hopes to Settle Strike of Belfast Police and Laborers.

BELFAST, Aug. 2.—The strike situation tonight is much more hopeful. Chief Secretary for Ireland Birrell will arrive here tomorrow and will use his personal influence to secure a peaceful settlement of the difficulties. Although the hot-heads still talk of defying the authorities, among the cooler men there appears to be a growing spirit of compromise.

When the constables paraded today to the various barracks to receive their weekly pay, there was not a murmur of discontent. Everything passed off without incident, and it is now believed that it will not be necessary to hold the proposed parade of the disaffected members of the local police force.

The bread disputes also are in a fair way of settlement. According to statements published in a local paper, Constable Barrett, who was dismissed from the force for agitation, declares that among the grievances of the men is the fact that under the present Dublin Castle system, only those men who are willing to play the part of provocative agents can gain promotion. Barrett claims that the present agitation will put an end to the "abominable" system of manufacturing crime.

The situation is greatly aggravated today by the threatened renewal of the coal dockers' strike. These men recently resumed work, but today the strike leaders aver that the employers are not observing the compact made with the men. In the meantime the Government is drafting all available policemen to be ready for any emergency. The famous "Black Watch Regiment" has been transferred from Kildare to Dublin and is there awaiting instructions to enter the north. A detachment of the Royal Artillery also is held in readiness.

British Heads Are Expanding.

LONDON, Aug. 2.—That the British head is shrinking and British muscles are degenerating, as recently charged by certain scientists, was refuted by evi-

dence introduced at the meeting of the British Association at Leicester. Records for the last 20 years at Marlborough College show that the 14-year-old boys there averaged five pounds heavier and nearly an inch taller than those of 1885. A hatter who furnishes hats for six schools vouches that hats of 2½ inches in circumference formerly were rarely obtained, while now hats 2½ inches in circumference are needed continuously.

Shells Burst on French Warships. PARIS, Aug. 2.—After the recent naval maneuvers reports were current that the shells were bad and burst prematurely. These reports are confirmed now by Admiral Touchard, in an interview in the Matin. He says that the shooting was attended with results which were very bad. The premature bursting of shells was not confined to the smaller guns. The battleship Suffren had six premature explosions out of 12 shells fired, the Republic one and the Carnot three out of five. The St. Louis had 11 premature explosions out of 12 shells fired and some of these shells burst without exploding.

His Daughter Too Ugly to Live. VIENNA, Aug. 2.—A Hungarian peasant at Neudorf, charged with murdering his daughter, pleaded that she was ugly she had no chance of getting married. The jury decided that this plea was not a mitigating circumstance, and brought in a verdict of manslaughter. The court accepted this and sentenced the prisoner to three years' imprisonment.

Will Try Wrights' Aeroplane.

PARIS, Aug. 2.—It is reported here that a secret trial of the Wright Brothers' aeroplane is about to take place in France, as the result of an arrangement with the French government. The aeroplane, it is understood, has been shipped from the United States, and orders have been issued to the customs authorities to pass the case unopened.

France to Dig Great Canal.

PARIS, Aug. 2.—The Minister of Public Works has approved the project of the construction of a canal to connect the Valley of the Rhone with the port of Marseilles. The project involved a tunnel seven kilometers in length at a cost of \$5,000,000.

Gun Explodes Scattering Death.

TOULON, France, Aug. 2.—Three men were killed and five others wounded by the explosion of a gun during target practice today on board the French battleship Suffren. Two of the wounded men sustained dangerous injuries. The breach of a 100-millimeter gun was blown off.

May Build Road for Chile.

VALPARAISO, Chile, Aug. 2.—The Chilean syndicate, which owns valuable concessions to construct the great Atacama La Paz Railroad but desisted from proceeding with the work for want of funds, is now trying to sell the concession to an English syndicate is negotiating for them.

Offer Premium for Hosiery.

RIO JANEIRO, Aug. 2.—A bill granting special privileges to any one who will put up a hotel in any of the principal towns of Brazil and construct it in accordance with specified standards, was brought forward yesterday in the Chamber of Deputies.

Cannot Find the Murderer.

COLORADO SPRINGS, Aug. 2.—The announcement of Charles A. Coey, the millionaire owner of the Colorado Springs, immediately following the funeral of Miss Laura Matthews in Kansas City today, that the murderer of the young woman, who was shot to death by a bullet fired from a gun, was not found, was a source of great mystery.

In the meantime the authorities admit there are many suspicious circumstances surrounding the death of Miss Matthews, which were not cleared up at the coroner's inquest. It is contended that there will be nothing added from the testimony given at the inquest which would criminally implicate any one.

It was proved that Rumbaugh, to whom suspicion attached and who Mr. Coey says murdered Miss Matthews, was about his hotel all of the afternoon and evening of the day on which the young woman met her death.

## TABLES ARE TURNED

Vardaman Now Leads in Senatorial Fight.

WILLIAMS STILL HAS HOPE

Returns From Over Half State Give Vardaman Majority and He Still Gains—Bourne-Cake Story Being Repeated.

JACKSON, Miss., Aug. 3.—The Senatorial race is fast closing, with Williams 215 votes behind his opponent when the official returns from 51 counties, more than half the state, were totaled.

Shortly after midnight Congressman Williams gave out a statement saying that he had heard from every county in the state and that these returns indicated a victory for him with a plurality of about 3000 votes. This was the smallest plurality which had yet been claimed for Williams.

The 51 counties showed the following totals: Vardaman, 38,313; Williams, 35,098.

Of the candidates for Governor, Noel, Scott and Brewer were still ahead in the order named, with a small margin separating them.

JACKSON, Miss., Aug. 3.—Vardaman continues to gain as the count nears the close. He was 515 votes in the lead with 44 counties heard from.

HOME STATE SOLID FOR HIM

Hanley Says Indiana True to Fairbanks for President.

OMAHA, Neb., Aug. 2.—(Special.)—Governor Hanley of Indiana arrived in Omaha today to take part in the Chautauque Assembly at Bellevue. He said he did not care to discuss politics at length, but made it plain that his state is fully prepared to support its native son for the Presidency. Speaking of Vice-President Fairbanks, he said:

"There is no question about the sincerity of Indiana for Vice-President Fairbanks for the Presidency. We know him and believe in him. He is one of the most honest and capable of men in the country. He is a man of high character and high ability, and we all know President Roosevelt is a man of high character and high ability. I think there is no doubt of the sincerity of President Roosevelt's determination not to enter the field. He has said so, and we all know President Roosevelt is a man of his word."

"Over in Indiana we are not particularly interested in the Ohio fight. The candidacy of Secretary Taft has not yet invaded Indiana with any noticeable effect. I do not think Judge Taft would want to enter the Indiana field in deference to the Vice-President's candidacy. The Ohio fight is certainly an interesting one. Senator Foraker is a game fighter, whatever may be his ultimate success. Senator Beveridge is, of course, supporting Vice-President Fairbanks, as are all good Indiana Republicans."

MURPHY BEGINS LIBEL SUIT

Magazine Says He Got Contracts in Pay for Influence.

NEW YORK, Aug. 2.—Charles F. Murphy, leader of Tammany Hall, through counsel, today served notice of suit for \$50,000 damages upon Thomas H. McKee, as president of the Broadway Magazine (Inc.). The suit grew out of the publication in the magazine of an article entitled, "Hearst versus McCallan," and New York Mayoralty Imbroglio. A paragraph of the article cited in the complaint intimates that as Tammany leader, Murphy received business contracts in return for his sanction of public franchises and other private enterprises.

Oklahoma Convention Is Over.

TULSA, I. T., Aug. 2.—The Republican State Convention, which adjourned at midnight, after nominating Frank Frantz,

the former rough rider, by acclamation for Governor of the State of Oklahoma, and naming candidates for the other principal offices, met again today to finish the ticket. There were no contests.

The following ticket was named: State Superintendent of Public Instruction—Calvin Ballard, of McAlester, I. T. State Examiner and Inspector—J. S. Fischer, Texas County.

Labor Commissioner—L. A. Murlin, Oklahoma City.

Insurance Commissioner—Michael Burke, Perry, Okla.

Clerk of the Supreme Court—J. W. Speake, Chickasha, I. T.

At 5:35 this afternoon the Convention adjourned sine die.

Fairbanks to Speak at Lincoln.

CHICAGO, Aug. 2.—Vice-President Fairbanks spent last night in Chicago on his way to Lincoln, Neb., where he will deliver an address before the Nebraska State Epworth League assembly.

DETROIT'S GIRL DIVER.

Miss Baker Employs Her Own Crew and Makes a Good Living.

Detroit Dispatch to New York World. Detroit's girl diver, Miss Frances Baker, is regarded as a protegee by all the sailors of the Great Lakes. She is 21 years of age, and has laid up a comfortable bank account by following her hazardous calling. Her first professional work was when she raised \$30,000 worth of copper from the ship of W. H. Stevens, which sank in 80 feet of water in Lake Erie several years ago.

Miss Baker's father, Captain H. W. Baker, was a captain of divers, and from the first time she was allowed to go down to the river alone, she used to watch her father's wrecking ship leave the dock and long to go with him. The ambition to become a diver matured in her as she grew older, and she deplored the fate which had condemned her to be a girl.

At last her desire to become a diver overcame the objections of her friends, and she began making wrecking trips with her father, and soon became his inseparable companion. She made a study of every part of the machinery connected in any way with diving, and in time learned to climb to corking boats with great skill and assurance.

Her first descent was in Lake Huron, where a big wooden barge had gone down, and before the wrecking steamer had reached the spot where the barge had sunk, the owner spoke to Miss Baker, regretting the loss of a diamond ring which was in the cabin.

Miss Baker immediately offered to recover it for him, as she had been planning for some time to make her first descent upon the first favorable opportunity. When every thing was made ready for her to descend, her own father manned the compressed air apparatus, which meant life or death to her, as she clung to the side of the ship's ladder and without a moment's hesitation disappeared under the water.

In describing the sensations of the initial trip she said that the feeling at the outset was as if some great creature were pressing her gently but firmly on all sides, and as if in a few minutes her breath would be cut off entirely, but she was far from frightened, and continued her descent until the shadow of the sunken barge loomed up before her. She had a strange feeling of buoyancy, and the 20 pounds of lead attached to her feet seemed no heavier than leather shoes as she followed her companion to the walls of the sunken ship, and, with his aid, climbed over them.

At this point she experienced severe pains in her head and felt as if her nose were going to bleed, but, still undaunted, she reached the cabin of the barge, where she sat down, and, with the aid of the electric light at her belt, sought out the small stand, upon which was the tiny box containing the much-desired diamond ring.

In her haste to reach it she stumbled and fell, and for the moment was consumed by a terrible fear, as the pressure of the water, together with breathing the compressed air, had now become almost overpowering, but she quickly gained her self-control, and with the box in her hand returned to the deck of the wrecker.

As a reward for this exploit Miss Barker was presented with the diamond ring she had recovered, and it is now in her possession.

The ring marked the beginning of her fortune, as she had proved that she could live under the water, and to be able to do this means that a person is worth anywhere from \$50 to \$300 a day to a wrecking company. As 20 out of every 100 men who descend into the waters of the lakes will in a few minutes begin to suffer from bleeding at the nose, head-splitting pains, and suffocation, that is why all good divers from one end of the Great

Lakes to the other may be counted on one's fingers and toes.

Roberts Sees Prosperity Ahead.

CHICAGO, Aug. 2.—George T. Roberts, former director of the mint, assumed his new position as president of the Commercial National Bank on his arrival in Chicago from Washington yesterday. Mr. Roberts worked at his desk in Washington up to the last minute before train time yesterday night, clearing up his work as director of the mint.

"The prospects for business are excellent throughout the country," said Mr. Roberts. "I believe that the slight check we have experienced during the past few months has been a good thing. It has proved beyond question that business in this country is on a firm footing."

"Capital undoubtedly is invested pretty near to the limit, and the brief period of stringency through which business has just passed served to show that the resources of the country were great enough to withstand any temporary pressure that over-investment may cause. The country was never in a more prosperous condition than it is now, and business was never on a sounder basis."

Noted Woman Painter Arrives.

NEW YORK, Aug. 2.—The Marquise Crele de Wentworth, the American artist, who painted the portrait of President Roosevelt, which was exhibited in this year's salon in Paris, has returned to this country for a holiday and has brought with her the picture of the President. The Marquise is the only woman except Rosa Bonheur whose works have been bought for permanent exhibition in the Luxembourg Gallery, Paris. She and Rosa Bonheur are the only women painters who have been decorated with the cross of the Legion of Honor.

Passing Opportunities.

Megendorfer Blatter. "How your oldest daughter changes color while she reads the newspaper?" "Yes, she isn't affected by the political part; but she looks blue when she reads the daily events, red when she reads the novelties, and green and yellow when she reads the list of engagement announcements!"

An equal division of the water used daily in New York City gives each inhabitant 50 times his own weight.

## The Kidneys

When they are weak, torpid, or stagnant, the whole system suffers. Don't neglect them at this time, but heed the warning of the aching back, the bloated face, the sallow complexion, the urinary disorder, and begin treatment at once with

**Hood's Sarsaparilla**  
which contains the best and safest curative substances.

In usual liquid form or in chocolate tablets known as Sarsatabs, 100 doses \$1.

## COFFEE

The dealing is simple. If you don't like Schilling's Best, it costs you nothing.

Your grocer returns your money if you don't like Schilling's Best; we pay him.
