### MAYOR TO ASSIST THE HEALTH BOARD

Will Join in Urging Council to Purchase Site for New Garbage Crematory.

#### OLD PLANT INADEQUATE

Capacity Too Small to Handle All Refuse Collected and Surplus Is Rapidy Accumulating to Breed Disease.

Mayor Lane and the members of the City Board of Health have joined forces and at the meeting of the Council next week will urge that body to select immediately a site for a new garbage crematory. They are prepared to show the Council that the present crematory does not meet the require-ments of the city in any way, and that a larger plant is demanded for the preservation of the public health. It will be explained that the plant now in use was installed about 1) years ago and is not large enough to do what

is now required of it.

This crematory has a capacity of but 20 tons a day, though the men in charge manage to dispose of about 20 tons every 24 hours. The average amount of garbage delivered at the amount of garbage delivered at the plant daily is 40 tons, and the surplus of 10 tons is deposited on the grounds surrounding the crematory, where it is rapidly accumulating.

Early in the present year an appropriation of \$45,000 was made for a new commatory, but this action was subse-

priation of \$45,000 was made for a new crematory, but this action was subse-quently rescinded by the Council, which, when its attention was called to the need for additional facilities for handling the city's garbage, rec-ommended that the capacity of the plant now owned by the city be in-

#### Resented by Health Board.

This plan was resented by the City Health Board for the reason that the plan was not considered feasible. The members of this board objected for mbors of this board objected to mbors of this board objected in the present plant is reason that the present plant is little stunt of the police.

No discrimination has been exercised by the officers, their orders being by the officers, their orders being the present their watches and lay their tape. of the city.

Selected nearer the business center, by the officers, then the selected nearer the business center, by the officers, then the selected nearer the business center, by the officers, then the selected nearer the business center, by the officers, then the selected nearer the business center, by the officers, then the selected nearer the business center, by the officers, then the selected nearer the business center, by the officers, then the selected nearer the business center, by the officers, then the selected nearer the business center, by the officers, then the selected nearer the business center, by the officers, then the selected nearer the business center, by the officers, then the selected nearer the business center, by the officers, the selected nearer the business center, by the officers, the selected nearer the sel

having the refuse to the old plant obeyed to the letter. Therefore, when north of the Exposition grounds would be more than enough to build and operate a suitable crematory nearer the city. But the Council would not modify its former action and for some time nothing has been done. The two detectives since they took up their task and it is said that everywhere Health Board and the Mayor now pro-pose to make one more effort to in-duce the Council to provide them with a site and funds for establishing a new

Mayor Lane thinks a plant of suit-Mayor Lane thinks a plant of suitnble capacity could be provided at a
cost of about \$40,000. He is opposed
to any plan for enlarging the old
plant in its present location, for the
reason that any repairs that are made
will meet the city's needs only temporarily. When the appropriation of
\$45,000 was available for a new crematory bids were asked, but no proposals
were received for the reason, the were received for the reason, the Mayor says, that a location had not been decided for the new plant. Until contractors know where the plant would be located they declined to submit bids for the work,

#### Dr. Glesy Gives Views.

"A new garbage crematory is a pub-lic necessity," said Dr. A. J. Glesy, member of the City Board of Health, member of the City Board of Health, yesterday. "The present plant is inndequate in every respect. It is old and obsolete, and its operation costs three times as much as would a modern plant of capacity to meet the needs of the city, For this reason the board does not consider feasible the from the Second Ward, was read and ordered accepted. The resignation leaving a vacancy, W. C. Francis was nominated to fill it and elected unanimously. He was suggestion of the Council that the old plant be enlarged. The public health endangered in maintaining the crematory plant under present conditions. If anything should happen to disable this dilapidated plant the city would this dilapidated plant the city would be without means for disposing of this garbage and would be obliged to do as was done a few years ago—dump all refuse on ground owned by the city. The situation is a serious one, and we look to the Council for assistance."

"A number of sites on both sides of the river and convenient to the central part of the city have been offered for a new crematory," said Mayor Lane yesterday, "and as such crematories are now operated there is no objection to their location, either in the business or the residence districts of a city."

#### NEW HOME FOR MASONS

East Side Lodges Will Lay Temple Cornerstone Saturday.

The corner-stone of the new Masonic Temple to be crected on the southwest corner of East Burnside and Eighth streets by Washington Lodge, No. 46, and Washington Chapter, Royal Arch ons, will be laid at 3 o'clock next Saturday afternoon, with appropriate ceremonies. Grand Master Lot L. Pierce, of Salem, will have charge of the exerclises. He will be assisted by George H. Burnett, grand commander of the Knights Tempiar: F. H. Davis, of union, grand high priest of the Crand Chapter of Royal Arch Masons, and H. H. Par-ker, of Portland. J. H. Ackerman will represent the lodge and chapter and H. W. Scott, grand orator, will be the principal speaker.

The building is erected by the Wash-ington Building Association, the direc-tors of which are: H. H. Parker, president; W. A. Dempsey, vice-president; J. H. Richmond, secretary; E. W. Ames-bury, E. F. Hitchcock, T. M. Hurlburt and A. M. Wright. The stock is owned by members of the lodge and chapter. The building will cost \$25,000, and be

of brick, two stories high. The lodge-room will be on the second floor, 42x63 feet in size, with a music gallery. There will be a banquet hall, 21x63 feet, on the floor with the lodgeroom. It is expected that the building will be completed by January 1, at which time the lease on the old hall in the Burkhard building will expire.

transfer of the land to the state by the National Government, it is required that the state shall exercise supervision

over the irrigation companies and com-pel them to actually bring the land un-

der ditch. The purpose of this trip is to determine how fully these require ments are being met."

Governor Chamberlain and the state officials are directly interested in the work, for the state is expected to safe

guard the rights of the settlers on the lands parcelled out by the irrigation com-

pany. If the latter fails, action must be taken by the state.

POLICE TIME AUTOMANIACS

DETECTIVES LIE IN WAIT WITH

STOP WATCHES.

List to Be Turned in to Chief May Contain Names of Promi-

nent Citizens.

Since last Sunday morning police de-tectives have been in the field, armed

with stop-watches and tapelines seek-ing to entrap reckless automobile drivers. Policemen Smith and Inskeep, in plain

clothes, have been busying themselves exclusively with the problem of ensnar-ing automobiles, and when they make

their report to Chief Gritzmacher there is no telling how many or what names

will appear on the list of speed law breakers.

The operations of the detectives have

been conducted on a strictly secret basis by order of Chief Gritzmacher and, there-

fore, it is impossible to ascertain the numbers of the automobiles of which the drivers or owners are to be brought

into the Municipal Court. It is known,

however, that Smith and Inskeep have

been exceedingly busy, and any automo-bile owner whose machine has been out on the street since Sunday morning, rac-

the officers found plenty of work. Ac

Arctic Stream and H. Hackfeld COURT APPROVES PLANS Police Chief Transfers Detective Sergeant.

> The County Court has approved the specifications for a detention home to be built on the four acres in Central Addition recently deeded to the court WILL WORK IN UNIFORM

> for this purpose by Dr. S. A. and Dr. E. C. Brown. The home is to cost \$10,000, and the County Clerk has been instructed to advertise for bids for its construction. Popular Officer Said to Be Slated to Command East Side Station

as Soon as It Is Established.

Sergeant of Police Baty was transferred from the bureau of criminal investigation to the uniformed branch of the Police Department, yesterday, by order of Chief Gritzmacher. The change gives Baty a promotion, as he will as sume command of the day relief at headquarters this morning and will have charge until the return of Captain Moore, who will be absent two weeks on vacation. Baty will rank as acting captain in the absence of Captain Moore. When Moore returns and reassumes his command, Baty will go on his vacation, after which he will return to duty and, it is said, take charge of the new East Side station early in Sentember. September.

There will be no captain for the East Side station, and it is understood that Sergeant Baty's staff will consist of two desk and three field sergeants. All the East Side patrolmen will be under his command. He probably will be on duty days from 7 A. M. to 4 P. M. This will be a position of much responsibility.

for July shows that the receipts for the city, county and recording departments were \$4697.52, and that the expenditures were \$2737.62, leaving a profit to the county of \$1959.99. This is a gain of \$591.40 over the profits for the same month of 1906 and a gain Sergeant Baty was detached from duty on the detective staff at his own request, as he did not like that branch of the police business. He asked to be transferred two months ago, and it is understood that his wish would be granted at the first opportunity. He is regarded as one of the most efficient officers in the department, and has never been in any trouble over police matters. He served with the Oregon Volunteers in the Philippines, and on his return entered the employ of the city as a patrolman. Meritorious work caused him to be named as a sergeant nearly two years ago. He had charge of the field on the second relief under Captain Balley for a long time. Later he was assigned to the detective bu-reau, where he has since worked with Circuit Court against the National Rope Computing Company for \$1700, alleging that he sold his stock, valued at this amount, to various parties, and the company refused to transfer the stock on its books. much success. He had charge of the office in the absence of his immediate superior officer, and frequently directed the entire staff. Recently he had full command of the secret service officers for two weeks.

The transfer of Sergeant Baty is one of the big changes that long have been scheduled, but his case is exceptional because of the fact that it is at his own request that he will don a uniform. William Jones is now the only detec-

tive sergeant in the service.

The East Side station will be located in the present home of Chemical No. 3 It is announced that an effort will be made to resume work on the oil well on the Ogden farm, north of St. Johns. A well was drilled there 300 feet when funds became exhausted and work had to be supposed at the last drilling operations. became exhausted and work had to be suspended.
