the different interests.

WASHINGTON, Aug, 6 .- It was stated at the Department of Justice today that an amended bill had been filed by the Government in the powder trust case at Wilmington, Del., alleging that since the preparation of the Government's petition on or about July 7 last, the E. I. Dupont de Nemours Powder Company of Delaware transferred a large part of its unsold finished products and raw materials and things necessary to the operation of its business to the E. I. Lupont de Nemours Powder to the E. I. Dupont de Nemours Powder Company of New Jersey.

The reason for this, the amended bill

says, was the discovery in the Recorder's office at Wilmington, of papers indicating such a transfer by one of the three operating companies to the holding company in the alleged powder trust. It is stated that these papers disappeared, but the amendment was persisted in, because it should have the effect of requiring something to be said in the answers of the defendants to this supposed transfer.

After the amendment and a petition had been sent to Delaware for filing, the bill continues, the papers on yes-terday reappeared in the Recorder's office and show that such a transfer was actually made on July 21, three days before the petition in the case was filed. In the meantime the Recorder is declared to have given his certificate to the District Attorney that he had no such papers.

MILWAUKEE, Aug. 6 .- An Evening Wisconsin special from Appleton, Wis.,

Says: John L. Hanrahan, of New York, is in Appleton looking over the paper mills, with the alleged object of form-ing a combine of all the mills in the state, in such a manner that the combine cannot be declared a trust. Mr. Hanrahan would neither affirm nor deny that Eastern capitalists were attempting to get control of the Wiscon sin paper industry, but John Van Nort-wick, president of the Five Locks Company, said he understood that this was the object of Mr. Hanrahan's visit. It is said that the Menasha Paper Company property will be first appraised.

NEW YORK, Aug. 6.—The Baroness Annie Harden-Hickey, daughter of John H. Flagler, has been committed to a sanitarium in Connecticut by order of the Probate Court in Stamford. There is said to be little hope of cure. Her mental breakdown is traced back to the death of her husband. John H. Flagler, her father, has been appointed conservator of her fortune, which is said to be almost entirely in Standard ing the Civil War.

The baroness Harden-Hickey was Miss Annie Flagier. She married the translated into Chinese,

He took the title of James I, but England objected and a cruiser of that country took away the entire kingdom to the United States. The baroness was queen of Trinidad then for a time, the kingdom being supported on her money. When her supported on her money. When her husband died she went abroad but was brought back from France to this country, when her health began to be impaired. The baron committed suicide in a hotel in El Paso, Texas, in 1898.

This is an action to establish the line of division of the water frontage between the two owners of tide-lands and water frontage on the south shere of the Colimbia at Astoria. There was a dispute as to the starting point of the dividing line; one claiming it should extend due north from the shore point of division, north from the shore point of division, the other from the shore point of division at right angles to the pier head line. The Supreme Court decides the Government's new pier head line in front of the properties should control, and orders the decree drawn accordingly.
