

Sayer's, secretary of St. Paul's Cathedral

protective properties against the disease. A considerable number of guinea pigs

ROME, Aug. 7 .- The Cirre d 'Italia an-

-George Wallace Delamater, ex-State Senator, Republican candidate for Governor in 1890, and for many years one of Pennsylvania's conspicuous political leaders, brought a long and eventful cial reverses, to an abrupt end this afternoon by shooting himself in the

in 1890, Mr. Delamater went to Seattle where he remained until 1900, meeting with many vicissitudes and reverses. He returned to Pittsburg in 1900, and since that time he had been engaged in the insurance business and had been from \$10,000 to \$15,000 per year.

Senator Quay's defeated candidate for Governor in 1890. Quay forced his nomination on the Republican convention against the violent opposition of the Magee faction of Pittsburg, which had strong ailies in other parts of the state. supported Robert E. Patilson, Demo-crat, in 1882 and brought about his election, again supported Mr. Pattison, who received the Democratic nominadent of a bank at Meadville. He spent money lavishly on his campaign, touring the state on a special train with many speakers. He was defeated and within a day or two a run on the bank forced its closing. He was arrested for receiving deposits after he knew the bank to be insolvent, which offense is legally emberatement. He was ac-

CHARGED WITH FORGERY Duncan Campbell Sayers, Prominent

Sayer's, secretary of St. Paul's Cathedral Society of Garden City, L. L. formerly a member of the faculty of that Episcopal-institute, was arrested last night in this city, charged with forgery. The com-plainant named was Rev. Paul S. Swett, a member of the governing committee of the school, at the head of which are Bishop Burgess, Alex Orr and George Foster Peabody. Mr. Sayers, who is 53 years old and sin-gle was taken to Garden City. No de-

gle, was taken to Garden City. No de-tails of the alleged forgery have yet been disclosed, except the bare statement that there were discrepancies in his accounts. The many friends of the accused hope that the trouble will prove due simply to his ignorance of the proper way to keep accounts. Mr. Sayers, while a member of the faculty of Cathedral Institute several years ago, risked his life in a vain at-tempt to save the school from being blown up by the gas plant. The en-gineer had abandoned his post and there was a call for volunteers to turn off the pressure at the gas plant. Mr. Sayers dashed to the basement. As he entered the plant exploded. Sayers' nose was blown off and he was disfigured for life. Since then he has been very nervous and irritable and altogether changed. After this incident the managers of St. Faul's there were discrepancies in his accounts. Cathedral voted him a pension of \$1500 a year for life, and he was given the secre-taryship, the work attached to which is light.

BIG CYANIDE MILLS BURN

Spectacular Fire in Colorado Makes

Hundreds Idle.

COLORADO SPRINGS Colo, Aug. 7.-The Golden Cycle Mining Company's 1.000,000 reduction plant located in the foothills south of Colorado City, was practically destroyed today by fire. The fire originated in the roasting rooms and rapidly spread to other buildings which cover an area of ten acres. Lack of water and inadequate fire-fighting facili-tiles made the work of the firemen diffi-cult and it was only by heroic efforts that the fire was finally brought under control after three-fourths of the plant tars were also consumed. The fire was very spectacular. The excellant view of the conflagration could be had from al parts of Colorado Springs. It is thought the destruction of the mills will result in the closing of several mines at Cripple Creek, thereby throwing hun-set Cripple Creek, thereby throwing hun-set Cripple Creek, thereby throwing hun-tars were also composed to the mills will result in the closing of several mines at Cripple Creek, thereby throwing hun-was addigners sender to be used in the reconstruction of the new lines. The Japanese government, one of the engineers said, will shortly un-dertake the building of 6000 miles of addi-tional steam railways, making a total of more than 11,000 miles in operation in japan. Trying to Agree With Shippers. NEW YORK, Aug. 7.-Traffic managers representing a large number of important manufacturing and jobbing concerns con-roling annually freight shipments ag-gregating millions of tons, after several ment esgarding their discussions: "Matters pertaining to interstate com-merce law and rulings of the commission a affecting shippers were discussed. The puscions considered are of great impor-tures on the meeting was adjourned to a

men's strike which terminated in the Cripple Creek labor difficulties. Shortly after the strike the mills closed down and were taken over by St. Louis parties, who rebuilt the plant. The mill had been in operation but a few weeks and is the largest cyanide plant in the West. The loss is estimated at \$700,000, with

\$300,000 insurance.

BOMBS FOR MISSIONARIES

They Inject Religion by Trance and

Nutmeggers Object.

- 24 1

GREENWICH, Conn., Aug. 7.—Resi-dents of the viliage of Pemberwick and nearby hamlets are stirred up over the advent of a man and woman call-ing themselves field missionaries of the "Apostolic Faith." Their revival

mission in a decision handed down by Commissioner Harlan today directing that, beginning on September 15 next, the through rate on wheat from points in Nebraska to the Pacific Coast termi-nals should be not more than 65 cents per burdled assimilar. METEOR SIZE OF FOOTBALL hundred pounds. The rate now in force on the Chicago, Burlington & Quincy Rallroad is 75 cents per hundred pounds. The Commission holds that any rate over Seen in Mexico Throwing Off Show- tion in Italy.

The contents of a nucleo that any fail of the route in question in success of 65 cents per hundred is unreasonable. The order was made in the case of A. K. Poor Grain Company against the Burlington company and others. The complainant contended that not only the rate should be reduced, but that it be EL PASO, Aug. 7.--A remarkable me-teor was seen here at 4:15 this morning and was visible slowly moving across the heavens from the southwest skies to the rate should be reduced, but that it be from Nebraska points to ... acific Coast terminals at the higher rate. The decisapparently 50 feet long, from which showers of meteors fell continuously. The ball was of a greenish yellow color lon grants the reparation demanded. while the tail was white.

Japan Studies Our Railroads.

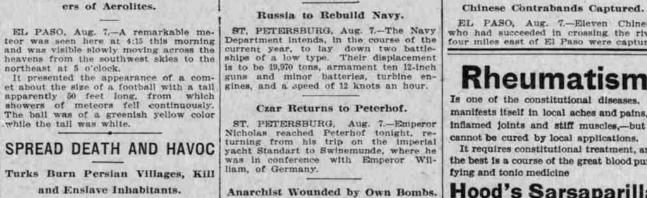

SAN FRANCISCO, Aug. 7.-In pursu-ance of its early custom to send repre-sentatives to visit foreign countries and the commercial and manufacturing centers of the world, the Japanese government has sent to America this year seven prom inent rallway engineers and managers to study out the latest railway methods and improvements. The Nippon Maru on Mon-TEHERAN. Persia, Aug. 7.-The latest advices from the frontier say that the Turkish troops which recently crossed by an anarchist group. The police here day brought three Japanese railroad en-gineers, two railroad managers, one har-bor engineer from the financial departthe northwest frontier of Persia are have adopted precautionary m

bor engineer from the financial depart-ment of the Japanese government, and one steamship operating engineer. After railway systems in this city have been inspected the party will go to Los Angeles, Denver, Chicago, Kansas, City, Boston, New York and Philadelphia and later to Ogden and Omaha. The visitors hope to return to Japan with many new ideas to be used in the reconstruction of the new lines. The Japanese government, one of the engineers said, will shortly un-

It is thought the destruction of the mills will result in the closing of several mines at Cripple Creek, thereby throwing hun-dreds of men out of employment. The plant was formerly known as the tallsts, and was involved in the mill-men's strike which terminated in the Cripple Creek inhor difficulties. Shortly tions and facilitate the handling of traf-

Largest Locomotive in World.

NEW YORK, Aug. 7.-The largest NEW YORK, Aug. 7.—The largest steam locomotive in the world is about to be turned out from the plant of, the American Locomotive Works at Schen-ectady for the Erie railroad. It will hauf on grades a train of loaded cars a mile and a half long without the aid of help-ers. Its weight is 413,000 pounds. The engine is really two engines and one boiler. It has four cylinders. The en-gine is designed for pusher service and will operate between Susquehanna and Gulf Summit Pass.
