FRENCH SHELLS SCATTER MOORS

FIGHTER IN THE WINTER
Franklin-Ashland edition.

CLOVELAND, Aug. 30.—Judge George H. Hallock, of the Federal Court, declared that the operators, who are in the contest with the Combinations, had no right to strike, a determination that is in conflict with the Federal Labor Court certificate that they have the right.

Informed of the Judge's decision, the operators went to work this morning. There was a general strike at the time, and the men stated that they would continue their strike until the strike was declared legal.
