McCredie Has Difficulty in Persuading His Men to Finish the Game-Umpire Does Not See the Play.

LOS ANGELES, Cal., Aug. 25.—(Special)—The struggle today at Ball Park between Los Angeles and Portland furnished some big league baseball for 4000 fans present. Cavath, rightfor 4000 fans present. Cavath, right-fielder of the local team, who has been sold to the Boston-Americans for \$2000, gave an exhibition of dirty ball and helped the locals win a game that they had apparently lost by a score of 3 to 1. The incident threw Portland players high in the air, and almost the entire bunch declared that McCredie and everyone else could go to a famous Summer and Winter resort with their old bal game anyway. McCredie had to use all his coaxing to get his men to finish the game.

The trouble came in the last of the eighth inning, with the score 2 to 1 against Los Angeles. There were two out when Cravath came to bat and he drew a base on balls. Brashear came next and slapped the ball to left field for a double. The ball, according to a next and slapped the ball to left field for a double. The ball, according to a majority of the fans who remembered the performance, was thrown in from the field to Mott, the Portland third baseman. Mott took the ball in his left hand, intending to have Cravath go to sleep and step off the bag, when Matt would touch him out. Instead of this Cravath slapped the ball out of Mott's hand and it rolled 50 feet away to the bleacher fence and both Cravath and Brashear sprinted to the plate and and Brashear sprinted to the plate and scored. Umpire Kelly didn't see the Cravath business and would do nothing but allow the runs and then McCredie protested the game. Very few people saw the trick for the big majority of them were watching the pitcher who was making a bluff as if to pitch.

These two runs tied the score and then the locals made the winning run in the locals made the winning run.

Portland scored in the first inning on Casey's Burdett's double and Bassey's to right. The final two in the hth came from Burdette's double to center, Brashear's juggle of a grounder singles by Donahue and McCredle and an out. The score:

The ninth inning looked to be a perfunctory affair. interesting to Mr. Harriman just now. He will undoubtedly show the most interest on the trip north from Odell. There the road runs for 100 miles through broad, seemingly endless plains, where the bunchgrass grows thick and where wheatfields as wide as the horizon will replace the present waste just as soon as a railroad makes farming profitable in that isolated region.

The irrigated districts along the Deschutes will unquestionably be visited and the wonders being worked there by turnof low gradients in the modern traffic world, he is expected to approve the projects of engineers for a road up the Deschutes from its mouth.

The trip south from Shaniko with the practically empty automobiles is expected to take about two days, while the run back to Shaniko will probably take three. By the end of the week the party will return to the railroad and will probably come to Portland in Mr. O'Brien's car. The special train will walt at Shaniko until Mr. Harriman's arrival.

Kruttschnitt's Report Favorable.

This purpose of Mr. Harriman to go over the territory to be served by a road up the Deschutes is looked upon as hastening the construction of such a line into Eastern Oregon. It is regarded as the most significant move by the Harri-

Members of the Harriman party who

will make the trip in the automobiles no on their way to meet them are: E. H. Harriman, his two sons, Edward Roland, aged 11, and W. A., aged 15; J. A. Taylor, Dr. W. G. Lyle and W. O. Hill all of New York. Colonel William H. Holabird, of Los Angeles, is with the party and it is expected that besides General Manager O'Brien, attorneys and others in the Harriman pay in the interior who are familiar with the local situation there, will be picked up and carried along so that they may give the railroad magnate whatever

information he desires. Wheat Awaits Transportation.

Probably the trip just mapped out by Mr. Harriman is the most satisfactory thing he could do if he had consulted the wishes of Oregon people. Confidence is felt that if he but sees the country, he will be entirely satisfied that a line into the interior will pay from the day it commences operation. In the Agency Plains district, now far from a railroad, Mr. Harriman will see threshers at work gathering 1,000,000 bushels of wheat. That this section will become practically one, vast wheatfield with the completion of a railroad will be apparent.

Mr. Harriman will find thriving towns along his route where children, grown almost to maturity, have never seen a railroad train. He will find settlers flocking into that country, eager to till the fertile soil and waiting only for the encouragement offered by a means of marketing their products, to make a verifable garden of the greatest undeveloped to the whole United States.

When Mr. O'Brien left Portland last night he was poring over a map of the state to find his way from Shaniko due south to the Klamath country. From Shaniko to Prineville, it is said, the roads promise the roughest traveling, but from Prineville south the route is a level prairie road where fast time can be made If no mishaps occur, Mr. Harriman should be in Portland by the last of the present week and it is believed he will have developed considerable enthusiasm over at least one portion of this state he
