SEEKING PORTLAND AND SCHROEDINGER.—J. C. McLean, superintendent of the public schools of West Omaha, has been visiting in the city with his wife, for several weeks. With Rev. Earl S. DeBola, of the Grand Avenue United Presbyterian Church as guide, he has been seeing Portland and its surroundings. Tuesday he went to The Dalles by boat with Mr. DeBola, where they remained one day taking in the scenery about that place. They returned Wednesday. Yesterday they went to Oregon City. Concerning the scenery along the Columbia Professor McLean said he never saw anything so grand, and expressed doubt whether it is exceeded anywhere. Portland is a natural park," he declared, when he got back from his trip to Oregon City. With his wife he will leave for his home tomorrow and will carry with him most pleasing impressions.

MUNICIPAL PAINTERS NEXT.—Painting of buildings and vehicles owned by the city will probably be done hereafter by men permanently employed by the city. At a meeting of the fire committee of the Executive Board yesterday, the subject was taken up and Chief Campbell was instructed to investigate and report to the committee. It is thought that civil service employees can be secured to do this work more cheaply than it is done at present under the contract plan. Chief Campbell and Fire Marshal Roberts reported to the committee that they had made an inspection of the Baker Theater, which is to open its season next Sunday. The house, they said, has every protection from fire that can be given in a frame building.

PORTLAND WOMAN INJURED.—Mrs. Harriet D. Jones, wife of a Portland newspaper man, was injured in a wreck on the Denver & Rio Grande Railroad, near Salida, Colo., last Saturday. The news reached the city yesterday morning, when Lawyer Frank King, who was passenger, arrived and made known the fact. Owing to the almost complete tie-up of the telegraph wires because of the strike, the injured woman was unable to get word to her husband. Mrs. Jones sustained injuries to her head, which will confine her to the hospital in Denver for several weeks. Her husband, who killed and ten other persons were injured in the wreck.

SALOONKEEPERS FINED.—Louis Trummer, proprietor of a saloon on Washington street, near Sixth, was arrested Monday morning for violating the closing ordinance. Through his attorney Trummer pleaded guilty in the Municipal Court yesterday morning and was fined \$25 by Acting Judge Strode. Chris Kalmbach, proprietor of a saloon at 735 Thurman street, was fined \$20 for keeping his place open on Sunday.

HALF LOT IS SOLD.—C. N. Rankin sold his half lot on the east side of Grand avenue between East Burnside and East Couch street for \$500. Henry Reimans is the new owner. Mr. Rankin bought the property six months ago for \$400. It is 25x100, and occupied by a one-story cottage. Mall & Von Borstel made the sale for Mr. Rankin.

WILL PROBABLY KEEP THE GIFT.—Mr. and Mrs. E. T. Zeller, 123 East Fortfifth street, will probably keep the infant girl left at their home Tuesday afternoon. Mrs. Zeller discovered the walf in a hammock at 5 o'clock Tuesday afternoon, and it is said the infant found a home at once in the hearts of both Mr. and Mrs. Zeller.

CAR RUNS OVER NEW BRIDGE.—The all-East Side car is being operated over the new Grand avenue bridge across Sullivan's Gulch while repairs are being made to the downtown tracks. It has been about five years since cars were operated over Sullivan's Gulch on Grand avenue.

TO STOP DUMPING RUBBISH.—A crusade will be started in East Portland against the practice of dumping rubbish on the low lands west from Union avenue. On the sides of the hills recently completed on East Morrison, East Washington street and Union avenue may be seen rubbish of all kinds.

DEATH OF JACK DORNEY.—Fourteen years of faithful service in the employ of one firm was ended yesterday by the death of Jack Dorney, head bookkeeper and cashier for the Western Union Telegraph Company. He began work with the company when 15 years of age and had been with the local office continuously ever since. Manager Dumars says of him: "It was before the days of bicycles for messenger boys, and Jack attracted our attention immediately because he didn't walk as the rest of the boys did, but ran with his messages. As fast as we could we promoted him. He was one of the kindest and most faithful men that I ever worked with." Mr. Dorney died at his home, 546 East Davis street, his death was due to kidney trouble. He was a member in good standing of the Ancient Order of Hibernians. The funeral will be held Saturday at 9 A. M. from St. Francis Church.

GOVERNMENT OFFICIAL COMING.—Alford W. Cooley, Assistant Attorney-General of the United States, will arrive in Portland sometime between September 5 and 10. It is not known what the object of Mr. Cooley's visit is, but it is believed to be to investigate land-fraud matters in Oregon. Mr. Cooley's advent is expected to hurry matters along because of the belief that he will find conditions in such shape as to warrant the department in allowing Mr. Bristol to push the land-fraud trials through as rapidly as possible. It is also thought that during Mr. Cooley's stay he will look into the question of establishing a bureau of immigration in Portland. A movement is on foot to establish immigration bureaus all over the country, so as to relieve United States attorneys in investigating the qualifications of applicants for citizenship.

VICTIM OF HUNTERS WILL RECOVER.—W. Howard, father of Miss Attean, 23 Howard, the 12-year-old girl, who was accidentally shot at Seaside a few days ago, returned to Portland yesterday and reports that his daughter is resting easily. The physicians attending the injured girl have so far been unable to locate the bullet, but no fears are entertained as to her being permanently injured by the wound. District Attorney Heiges and Deputy Sheriff McClain, of Astoria, are investigating the affair and entertain hopes of finding the careless hunter whose random shot inflicted the painful injury.

SEEKS TO LEARN ORG METHODS.—Business men of Chamber of Commerce of Coffeyville, Kan., have written to the Portland Chamber of Commerce stating that they are organizing a similar institution there and would appreciate receiving such printed matter as the Portland Chamber is sending out, so that they may copy on the best methods employed. J. P. Dusar, the secretary of the Coffeyville Chamber says that his town has a population of 19,000, a number of prosperous factories, a good agricultural district and abundant natural gas.

SLATER TO BE RETURNED.—G. E. Slater, who was arrested here Wednesday afternoon, will be returned to San Diego, Cal., in charge of forged checks against him. He is a physical weakling, and at 1 o'clock yesterday afternoon fainted in his cell at the City Jail. City Physician Ziegler was summoned and attended him. PLENTY OF WATER ON BAR
Portland Will Use Influence to Have Battleships Call Here.

The telegram from Washington yesterday announcing that the battleship fleet when it enters the Pacific early next year will not visit Portland on account of insufficient water on the Columbia River bar, but will, however, call at Seattle, is resented by the various commercial bodies of Portland, and the Oregon representatives in Congress will be asked to use their influence to have this city included in the route.

The draft of the warships making up the fleet has been examined and it was found that the greatest draft of any of the ships is but 24.5 feet, less than that of many tramp steamers loading at this port. The protected cruiser Charleston, which visited Portland last June, had the same draft as the largest of the warships to arrive on the Coast next year, and came in with ease, making the trip up the river without the slightest danger of running aground.

WANT WHISTLING STOPPED

BROOKLYN RESIDENTS' SLEEP DISTURBED MORNINGS.

Locomotives and Electric Motors Make Much Unnecessary Noise at Street Crossings.

The whistling of locomotives and the shrieking of electric cars shall soon cease in Portland except for emergency cases, if the wishes and purposes of the Brooklyn Republican and Improvement Club are carried out. This matter was brought to the attention of the club at its meeting last night by A. L. Keenan, who said that the whistling of locomotives passing from the Southern Pacific case shops at crossings at an early hour in the mornings had become an intolerable nuisance to that section. Mr. Keenan declared that the noise was wholly unnecessary, and aroused people from their sleep from 3 A. M. to 5 A. M. Besides, he said, there was no call for it anywhere inside the city. Rev. Father Gregory also said that the shrieking of the electric motors passing along Milwaukee avenue at night should be stopped.

It was decided, on the advice of Councilman Rushlight, to ask the City Attorney to prepare an ordinance forbidding the whistling of engines in the city except for emergency.

M. G. Griffin, in speaking of this matter, said that in Eastern cities whistling by locomotives was prohibited by law, and such law should be adopted in Portland.

Father Gregory characterized the action of the Portland Railway & Light Company in tearing up and disrupting Milwaukee street, which had recently been repaired, as a shame and an outrage, and said the Council should not tolerate such a violation of the rights of the people.

The crowded condition of the Sellwood cars in the morning was brought up, and the matter was referred to a special committee. The garbage question was discussed. Councilman Rushlight said that a special meeting of the Council would be held next Tuesday night to consider leaving the city.
