Francisco, where she was chartered by the Portland & Asiatic Company to re-lieve the press of business on the steamers of that line, showed the steamer to be one of the speediest turned out for many months.

The Kalomo is moored at Alaska dock The Kalomo is moored at Alaska dock and her appearance elicited many ex-pressions of admiration from seafaring men yesterday. She is one of the larg-est freighters that hus visited this port this season. Her dead weight capacity is \$200 tons, carrying which she draws 25 feet. She was launched at Glasgow in January of this year and this

is her maiden trip around the world. She made her first trip to New York and from that port went to New South Wales for a cargo of coal for San Fran-claso. The run from New York to Aus-tralia was completed in 143 days and from the Antipodes to California in 24 days, all but establishing a world's rep-ord for the run. She made something hetter than 11 knots coming from San

Francisco, despite fogs. The officers in charge of the steamer are: Robert Linklater, captain; A. H. Raymer, first officer; A. B. Cook, sec-ond officer; W. McAllister, chief engineer.

incer/ The Kalomo is scheduled to sail Sep-tember 28, with a full enrge of flour for Japan, and it is now now known whether she will return on the next trip or not, as the charter is supposed to cover but one way. All the space for the Arabia, which

will sail about the same time as the Kalomo, has been engaged and as the ad-ditional steamer is also engaged for full cargo, the value going out at that date will amount to nearly a half million

Disorders

Imperfection and weakness? While I do not feel that I am qualified to speak from complete knowledge of all medical subjects, I have a right to speak emphatically in regard to the diseases and disorders that constitute my specialty. Twenty-five years' experience in curing diseases of men has given me a knowledge of this line of aliments that enables me to make direct and definite statements, and it enables me to prove to you that my state-ments are founded upon fact and are correct. I say that you can be cured. I stand ready to back up this state-ment with proof. I ask you to call at my office and talk with me about it. Examination and consultation will cost you nothing, and I will ex-plain to you my methods of curing. The methods I will tell you about are unlike those employed by any other doctor. They are, in their chief essentials, methods of my own devising. They are founded upon a knowledge of the truth in regard to the diseases of men. That's why they cure, and why they are the only methods that can soundly and thoroughly cure. ey cure, and broughly cure.

QUALIFICATIONS

Before placing your case in hands of a Specialist for treatment, INVESTIGATE his medical qualifications to treat you. DON'T TAKE HIS WORD FOR IT. Be a Mis-sourian and have him "show you."

Our chief Consulting Phy-sieinn, WHO CAN ALWAYS BE SEEN WHEN YOU CALL, graduated from a leading Eastern medical college March, 1885. DIPLOMA HANGING IN OFFICE.

**Contracted Diseases** 

DR. TAYLOR.

The Leading Specialist.

Fully one-fourth of the cases of organic weakness with which I come in contact are a direct result of the improper treatment of some contracted disease. This should be sufficient warning against patent nostrums and other uncertain methods. I never dismiss a patient until I know that every possibility of relapse or evil result has been removed.

The remedies I employ are known to myself alone, and I have every reason to regard that as the surest and safest ever devised for the cure of contracted diseases.

#### Varicocele

My treatment for Varicoccie is a painless one, and in most instances the patient need not be detained a single day from his business. Even in advanced cases; a cure by my method is a matter of but a very few days. There is no doubt or guesswork, but absolute certainty of a thorough and lasting cure, with complete return of that de-gree of health and vigor that ex-isted before the discuse began.

### **EXAMINATION FREE**

I offer not only FREE Consultation and Advice, but of every case that comes to me I will make a Careful Examination and Diagnosis without charge. No alling man should neglect this opportunity to get expert opinion about his trouble. If you cannot call, write for Diagnosis Chart. My offices are open all day from 9 A. M. to 9 P. M., and Sundays from 10 to 1.
