

PORTLAND LEADS AS WHEAT PORT

Shipments in Eight Months Increase Nearly Fifty Per Cent.

DECREASE ON THE SOUND

Falling Off in Exports Nearly One-Half — Immense Proportionate Gain in Portland Flour Exports Also.

OREGONIAN NEWS BUREAU, Washington, D. C., Sept. 20.—Portland's dominance of the wheat export trade on the Pacific Coast is being sustained, according to official figures of the Department of Commerce & Labor. The latest statistics giving the exports for the eight months closing in August show that Portland so far this year has exported 3,520,888 bushels of wheat, as against only 2,354,638 bushels from the entire Puget Sound district. In the corresponding months of last year Portland shipped 2,974,799 bushels, and Puget Sound's export was more than double that quantity.

Portland's trade shows a gain of 50 per cent over the eight months of 1906, whereas Puget Sound shows a decline of nearly 50 per cent, but in actual figures Puget Sound's wheat exports have declined much more rapidly than Portland's have advanced. The combined flour exports of Puget Sound have always exceeded those of Portland, but it is evident that Portland is rapidly catching up to its competitors to the North and, if its flour trade increases in the future as it has during the past year, Portland will dominate not only the wheat but the flour export trade as well. In the first eight months of 1904 Puget Sound exported 1,255,399 barrels of flour and Portland 352,084. In the corresponding months of this year Puget Sound exported 1,947,028 barrels and Portland 1,004,650. The percentage as well as actual gain is largely in Portland's favor.

WILL HUNT IN CANEBRAKES

Roosevelt Will Camp in Louisiana After River Voyage.

OYSTER BAY, Sept. 20.—Far from the scene of official routine, President Roosevelt will enjoy 17 days in camp in the northeastern corner of Louisiana. He will pitch camp on or about October 5. The plans provide for a "camping trip" but everyone who knows Northeastern Louisiana knows that the canebrake shelter game worthy of a huntman of Presidential caliber. The President will leave Oyster Bay for Washington next Wednesday, and on the following Sunday will start on his Western and Southern speaking tour. At Memphis, on October 4, the speaking program will be interrupted and the President will start for the camping grounds. He will break camp on October 21, going directly to Vicksburg, Miss., to make his promised speech there. The return to Washington will be begun immediately after, and the White House will be reached on the afternoon of October 23. The President will be the guest while in camp of Civil Service Commissioner John A. McElhinny, of New Iberia, La., and of John M. Parker, of New Orleans.

Lets Contract for Destroyers.

WASHINGTON, Sept. 20.—Secretary McCall today awarded the contract for the construction of five torpedo-boat destroyers, provision for which was made by the last Congress, and bids for which were opened at the Navy Department about a month ago. The following were the successful bidders: William Cramp & Sons, two ships, at \$355,010 each. The Bath Iron Works, two ships, at \$24,000 each. The New York Shipbuilding Co., one ship, at \$345,000.

Forts Can Protect New York.

NEW YORK, Sept. 20.—Even if the Navy should be engaged elsewhere, New Yorkers need have no fear of their homes in case of an attack of warships of a hostile country, according to Major-General Frederick D. Grant, commanding the Department of the East. While General Grant declines to make any comparison between the work of the Navy and Army gunners in the forts, he did say this: "I am convinced that the gunners in the forts in my department can shoot so well that they can put warships out of action fully as fast as they can come up against them."

BAR OUT EMMA GOLDMAN

RETURN OF ANARCHIST LEADER MAY BE PREVENTED.

Wet Blanket to Be Thrown on Triumphant March When She Comes From Anarchist Congress.

NEW YORK, Sept. 20.—(Special.)—Emma Goldman, the high priestess of anarchy, is to be barred from the United States. Anarchists, unaturalized foreigners, ex-convicts, persons with no visible means of support, undesirable citizens, on any or all of these counts the female firebrand of chaos may be halted on her triumphant return from the international congress of anarchy at Amsterdam.

From inner sources in the Immigration Bureau it was learned today that this decision had been reached after the assassination of President McKinley, which the murderer attributed to the inflammatory speeches of "Red Emma." Congress enacted laws barring out anarchists who knock at our gates for admission. Prison bars have failed to suppress Emma's preaching of terrorism and destruction. She has thrived on small imprisonments and preached to larger audiences from cell than she could reach from her platforms. Perhaps a little exclusion will succeed where jailing failed.

NECK BROKEN BY ROBBER

Chicago Teacher Found Murdered. Empty Purse Beside Her.

CHICAGO, Sept. 20.—Mrs. Lillian White Grant, a kindergarten teacher in the public schools, was found dead in bed today at her home, 329 Madison avenue, her neck broken by a piece of linen cloth twisted about her throat. Mrs. Grant's empty purse was found later in the day in the office of a physician, 50 feet distant. The police suspect a colored chore man of the neighborhood. Mrs. Grant was intending to move, and had engaged two men to carry her furniture. One of them went to the room yesterday morning and, seeing the body lying across the bed, withdrew. Today he went again, and finding the body in the same position, notified the police.

State Must Pay for Lockers.

OREGONIAN NEWS BUREAU, Washington, Sept. 20.—The State of Washington recently sought to have the General Government pay from the allowance for the militia organization the expenses of equipping with Army trunk lockers the barracks used by the National Guard of that state. These lockers are part of the equipment of the permanent barracks at Army posts, and are used by the enlisted men as a place of storage for extra uniforms and other clothing. The militia law left to the state the duty of providing an armory and the current expenses found necessary for the security and preservation of the arms, clothing and equipment furnished by the General Government and, as the trunk locker is a part of the furnishing of the barracks, it is held by the War Department that the state must pay the expense.

Cook, a Southern Pacific brakeman, residing in Los Angeles, was instantly killed today while trying to board a westbound passenger train at Colton, on which his wife was returning from the East. The body was badly mangled. Mrs. Cook was not informed of the accident and continued on her way to Los Angeles.

ST. PETERSBURG, Sept. 20.—The Roesta today publishes an official note confirming the reports that Russia will make immediate use of the free hand given her under the terms of the Anglo-Russian treaty. The Russian Minister at Teheran has followed with friendly interest the labors of the Persian National Assembly in endeavoring to bring about reforms, but regrets that under the new regime disorders had occurred, affecting Russian interests, and added that, if the Persian authorities were unable to put down the disturbance, it might become necessary for Russia to take steps in the direction of military intervention on her own account.

RE-ENACTS FAMOUS SIEGE

Kaiser Trains Army With Live Projectiles in French Style.

POSEN, Prussia, Sept. 20.—Emperor William is personally watching the siege operations which the German troops are carrying out near here on the same general lines as those of the Japanese at Port Arthur. Heavy long-range siege guns and numerous batteries of field artillery are engaged, the distinguishing feature being the firing of live projectiles against the improvised fortifications. As the artillery is using "shells" with full bursting charges, the ground has been cleared of inhabitants and animals. No permits have been given foreign officers to witness these maneuvers. It is understood that these operations are the result of the gigantic siege experiments conducted by the French army last year.

ROME, Sept. 20.—This being the 37th anniversary of the occupation of Rome by the Italian troops and the fall of the temporal power of the papacy, all the armed men in the Vatican were detailed to watch the entrances of the apostolic palace or to patrol the gardens and courtyards, considerable anxiety being felt regarding the possibility of hostile demonstration, in view of the recent displays of anti-Catholic feeling.
