Roosevelt Ignores Ohio Senator's Indorsement for Max Burgheim.

Son-in-Lay and George Cox Dictate Appointment, Which Means That Taft's Lieutenants Can Get What They Ask For.

WASHINGTON, Sept. 20.—(Special.)— The process of eliminating Joseph Ben-son Foraker from Ohio politics is moving swiftly. The developments of today have emphasized the fact that Senator For-aker is no longer a factor in control of the Federal patronage under the present National administration even to the extent that one in his official position, friendly or otherwise, is usually conceded sideration when his party is in power

at Washington. Bernhardt Bettman has been selected for collector of internal revenue at Cin climati, according to announcement made at the White House this evening. Sen-sitor Foraker, who naturally would dic-tate the appointment, selected Max Burgheim, editor of the Volksbiatt, as his candidate for the position and recommended him accordingly.
It is understood that Senator Dick said

A few days ago President Roosevelt practically admitted having received the senatorial indorsement.

### Taft's Men Given Preference.

Betiman was appointed internal rev snue collector several years ago on For-sker's recommendation and served nearly two terms, resigning about a year ago because he was tired and was in poor health. His deputy who succeeded him resigned a few weeks ago and Foraker then picked Burgheim. Foraker's friends now say Foraker thought Bettman did not want it again, but at any rate the President put the question up to Repre-sentative Nicholas Longworth, and Longworth and George Cox, the old time Cin-cinnati boss, fixed up Bettmann and persuaded him to assume the harness again

Longworth and Cox, it is said, did not consult Foraker, which shows two things plainly: first, that the umpires in the case didn't care for Foraker's opinion one way or the other, and, sec-one, that Cox and his organization are sticking to the movement in Ohio that means Taft for the Presidency and Poraker to the discard so far as those power in his home city are con-

prise to most of the politicians who, analyzing thoroughly, hold that it is designed to have a big effect on Taft's candidacy by strengthening him throughout the State of Ohio as a

### Double Dose for Foraker.

Within two days Foraker has had a double-barreled dose, the development today following upon the heels of the Republican municipal convention at Cincinnati on Saturday, when harmony

Cincinnati on Saturday, when harmony was the watchword and the factional differences were buried without any help from Foraker and without even passing reference to the services or personality of the Senator at any stage of the proceedings.

Nicholas Longworth, President Rossevell's son-in-taw, presided over the convention and made a speech of great National significance, which thus far has received strikingly meager attention outside of Ohio. It was a Taft speech as well as a speech devoted to local issues, and an important feature local issues, and an important feature was a significant declaration by the President's son-in-law that Roosevelt must be taken at his word regarding a third term. Taft, it was declared, is the man who represents the Roosevelt policies which the people demand shall

### MAY PROSECUTE KIDNAPERS Older Leaves Case Entirely in Hands of Heney.

SAN FRANCISCO, Sept. 30 .- Assistant District Attorney Francis J. Heney may institute criminal proceedings egainst R. Porter Asia and Luther Brown, of the United Railroads, for the part they played last week in the arrest of Fremont Older, managing editor of the Bulletin, and his removal from the city and county without privilege of bail. Mr. Hency said roday:

roday:

"I am looking into the matter carefolly, and if I find that an offense against the law was committed I shall take legal action. I am not prepared to say more at this time."

Mr. Older said: "I have turned the whole matter over to Mr. Hency. He will decide whether criminal suits are to be brought. The statement is being circulated that I was not kidnaped, because I was legally placed under arrest and was removed from the county by officers of the law duly qualified. This is not true. I was arrested on a by officers of the law duly qualified. This is not true. I was arrested on a warrant by an officer of the law—a Los Angelos Constable—but he at once turned me over to the employes of the United Railroads, by whom I was physically restrained from the exercise of my statutory right to be taken before a San Francisco magistrate, and by whom I was hustled to Santa Barbara. It was an employe of the United Railroads who poked a pistol in my ribs and threatened to pistol in my ribs and threatened to shoot me if I made an outery."

### TROUBLE SIMMERS IN CUBA

Troops Pursue Outlaws and Strike Ties Up Railroads.

HAVANA, Cuba, Sept. 20.—The small band of rebels which has been traversing the country in the vicinity of Mayari, in the northern section of Santiago province, has, according to inte dispatches, again exchanged shots with the pursuing rurales. The latter are close on the heels of the handits.

of the bandis.

While there are signs of uneasiness in various parts of the island, the opinion prevails here that no serious disturbances are likely. In commenting on the situation, the Diario de La Marina

combination of unpleasant circommutances having no link with each other appears to make the situation at first sight more serious than it really is. Each one of the problems that are at present confronting the administration—the yellow fever epidemic, the conspiracy of Perra, Miret and Ducassi,

the existence of hands of outlaws in the country and the railroad strike, is of an alarming character, but except for the tendency of the strike to be-come general and stop railway com-munication throughout the island these ents are of no great importance in

"The yellow fever has not spread, and there appears no danger of a gen-eral epidemic, as cases are comparaeral epidemic, as cases are compara-tively few up to the present time. The conspiracy was a very ridiculous one, and even if it had succeeded in induc-ing some fools to take the field, it would have been nipped in the bud. The Mayari band of outlaws cannot be considered of more importance than many other previous bands of guerril-ias who have occasionally appeared in Cuba.

"There is no reason, therefore, for extraordinary alarm, or for believing Cuba is on the brink of an abyss. "Even the strikers have not as yet committed any act of violence. If their disagreement with the rallway com-panies is not settled, other men will be found shortly to run the trains. In this case, any attempts on the part of the strikers to resort to force will be prevented and punished according to law.

The situation, for all these reasons, is not so grave, and the Government has not so grave, and the Government has ample means to cope with it."
Clenfugos may soon become the trouble zone. The waters there are on strike, and others plan to strike soon. It is reported also that political trouble is coming in that vicinity, where conspirators have been active.

Most people think that the railroads and other strikes offer more prospects of serious trouble than the threatened

Governor Magoon has determined to deal with outlaws and insurrectionists with a strong hand. The orders of the rurales, it is stated, are to capture. kill or drive them into the ocean

### Strike Will Not Delay Mails.

WASHINGTON, Sept. 30.—The railway strikers in Cuba have declared that the movement inaugurated by them shall not interfere with the movement of the mail so far as they are concerned. This is the attitude ascribed to them in a dispatch received at the War Department from Governor Magoon.
