The ceremony was performed by Dr. Frederick W. Clampett of Trinity Church. San Francisco, assisted by Rev. John Dawson, rector of the Church of the Good Shepherd. A unique feature of the wedding was the fact that Dr. Champett had also performed the wedding of Dr. and Mrs. Morrison which took place in New York City. The bride, who is a in New York City. The greatest daily range was of 31 de-grees, on September 2, and the least of 4 degrees, on September 25. In 1906 the average mean temperature for the month was 62 degrees and for 35 years 61.3. Postmaster Minto and Cashier Straus are of the opinion that had the Postoffice Department at Washington been able to fill all of the big orders sent from Portland for special request envelopes the gain would have reached about 40 per cent. Orders for these envelopes were sent to the Postoffice Department, but on account of the heavy demand for special request envelopes only part of the local orders were filled. Had they been filled the sales would have been recorded as stamp sales. Mr. Minto says the splendid increase of the local office is due entirely to the healthy business condition of Portland.

A number of improvements have been made at the postoffice during the past month. The stamp division has been changed from its former location and the stamp window is now located at the south end of the building. The division is now better lighted and has more ventilation. Another improvement just about completed is the weather protected Postmaster Minto and Cashier Straus
