PRICE IS TOO HIGH

Oregon Potatoes Shut Out of Southwest.

UNDERBID BY COLORADO

Shippers of That State Offering Stock Far Under the Prices Quoted Here_California

Also Barred.

The outlook for the Oregon potato-grow-ars is not so rosy at the present time as it was a year ago. What may develop in midinter cannot be foreseen, but it sufe to by that unless something unexpected hap-ens, prices are going to rule lower.

pens, prices are going to rule lower. Colorade potato shippers have entered the Southwestern field actively and set a price that the Oregon shippers must follow if they want to do business there. The basis thus fixed is considerably below that which has neen current here. Advices from Colorado yesterday said that shippers of that state were offering potatoes at 75 to 85 cents, according to quality. With an average rate of tatoes can be sanded in the Lone Star State at around \$1.50. As the freight rate from Oregon to the same point is 75 cents, in order to compete with the Colorado prices potatoes will have to sell here at about 60 cents f. o. b., which is equivalent to 50 to 55 cents net to the grower.

California is offering freely its best rivers

for Texas shipment at 75 cents f. o. b., and

The Eastern hop trade will have to learn that it cannot buy in Oregon under the market, or growers here must lower their ideas, if business is to become active. Of the two, the latter event is the less likely to occur. It is more than probable that in a few dock the Eastern dealers will see the utility of making 8 and 8½-cent offers 2. b. for atrictly choice Oregon hops. The ocal trade is well supplied with Eastern orders at these figures, but there is no show by filling them when the farmers are deof filling them when the farmers are de termined to have a 9 or 10-cent market. It is because of the cent or two difference be-tween the ideas or bayers and sellers that trading is of such light proportions.

Only two or three firms are known to have made purchases yesterday. Klaber, Wolf & Netter bought 412 bales on the West and East Side, part of them on foreign account. Charles Livesley has bought for the E. C. Horst Company the M. L. Jones lot of 200 bales at Brooks at a price not learned. Ernest Wells bought 90 bales at Aurora for the Horst Company at 84 and 9 cents. Krebs Bros, also bought several lots during

portant part in the hop question, particularly where early shipments are required. The dealers are apprehensive that they will fare as badly as they did last season in this

CEREAL PRICES ARE ALL FIRM. Wheat Merchants Buying Sparingly, Owing to Scarcity of Cars.

The grain markets were all firm yesterday but the volume of business was not heavy. The wheat trade is disinclined to operate very freely in the interior, as an immense amount of money is already tied up in wheat that cannot be brought down to tidewater ewing to an insufficient number of cars. When the movement improves a more active trade can be looked for. An excellent demand for feed barley and

onts keeps the market for these cereals in strong condition. Millifeed is also quoted very strong. Hay is being offered freely by farmers, but the consumption is large and prices are on a steady basis.

RECEIPTS OF CHICKENS ARE LARGE With the Demand Slow Prices Are Maintained With Difficulty,

Receipts of chickens were large yesterday and the demand, as was feared, was light Some dealers succeeded in cleaning up, but most of them carried stock over. The trade trying to maintain present prices.

Eggs were very firm, both Oregon and Eastern, and quotations were unchanged. (thy creamerymen report a further decrease in cream receipts and less difficulty in holding stocks down. From street is still lib erally supplied with butter, which is offered

FANCY GRAPES ARE QUOTED FIRMER Salway Peaches in Better Supply and Sell-ers, \$5@5.50.

The fruit trade was lightly supplied with the better grade of grapes yesterday and Tokays sold at \$1,500.1.85. Some Salway peaches of excellent quality wore-goffered at \$1,25. Good Bartlett pears are scarce, but snough of the other varieties are on hand to supply the trade

The market is to good shape for sweet potatoes and they are moving freely. To-matoes are not so plentiful and firmer as the cold rains have checked their ripening. Celery and cauliflower are in large supply and quoted lower. Cabbage holds steady

EGGS—Fresh ranch, candled, 32½c per dozen; Eastern, 27 ½ \$30c per dozen.

California is offering freely its best rivers for Texas shipment at 75 ceuts f. o. b. and sven at this low price is unable to get any business, as the Colorado trade has full control of that territory.

With a good average crop in California and large crops in Eastern Oregon. Washington and lishes, the latter able to reach the best markets on a low freight rate, the suilock is not a particularly bright one for the Valley growers. There may be a time in the Winter when cold weather will stop the Colorado movement and give the Oregon and California trade a chance, but shippers in general believe the farmers of Oregon will make a mistake by holding back supplies for a high market that is not likely to be realized.

A wire from San Francisco yesterday quoted \$1.60 as the top price for extra fancy onlone. If there were any demand in that market for the Oregon product, an equivalent price would be \$1.15 g.1.2 bern. The local market is very quiet. the only demand heing for small shipments to Seattle and other Northern's points.

EASTERN TRADE WANTS CHEAP HOPS

Aggressive Selling of Stocks at New York.

SHORTS COVERED EARLY

President's Speech at Keokuk Is Generally Assigned Reason for Change of Front by the Pro-

fessional Element.

NEW YORK, Oct. 1.-The professional dement in the speculation operated with timent which prompted operations fluctu ated constantly. The early advance was nents to cover shorts, which developed among the bears yesterday, and the object

among the bears yesterday, and the object lesson of the severe punishment administered to this element by yesterday's movement in Canadian Pacific emphasized the disposition to caution.

This movement among the uncovered shorts had proceeded to sufficient length to reduce materially the dimensions of the short interest and in proportion the potential demand for stocks and the technical strength of the market position. The destroyer of the market position. The

short interest and in proportion the potential demand for stocks and the technical strength of the market position. The demand not only ran out, however, but selling was renewed with some aggressiveness. The contents of President Roosevelt's speech at Keokuk was the generally assigned cause for this new turn to the selling side by the professional element.

Aside from this a reduction in the dividend on Anaconda to \$1.25 a share, compared with the preceding \$1.75 quarterly dividend, was of next importance. The action of the stock on the announcement was a measure of the previous certainty that such action was imminent. It is a manifest fact that the decline which has occurred in copper securities is intended to measure fears of a reduction in returns of lagor proportions than is made in this instance. The highest price touched by Anaconda was after the announcement of further cuts in the price of copper, both in London and at the New York Metal Exchange. St. Paul was under some special pressure, accumpanted by several unvertible to the favorable return of earnings for August, although Atchison was also notably firmer throughout, despite a large decrease in net earnings for August. United States Steel stocks sold off on reports of a cutting down of the working force at the mills. The Metropolitan Street Railway receivership revived the often repeated weakness in the local traction group.

The call money rate did not relax appreciably and held at the moderate show of strength manifested yesterday. The squeeze of shorts in St. Paul was a repetition of yesterday's besson in Canadian Pacific, fluttered the bears again and closed the market strong.

Eonds were irregular. Total sales, par value, \$1.508,000.

Weather Report Causes Advance in Price.

CHICAGO MARKET STRONG

Threshing Operations Are Interrupted in the Northwest-Trading in Oats Is Almost at a Standstill.

CHICAGO, Oct. 1.—Wet weather in the Northwest had a strengthening effect today on the local wheat market, the December delivery closing with a net gain of the McCorn was up to the Corn Provisions were 22 to to wer. Provisions were 22 to the Corn. The wheat market was inclined to be weak during the first few minutes of trading, because of selling by pit traders who were bearishly influenced by a decline at Liverpool. Sentiment, however, soon became builish, owing to wet deather in the Northwest, where threshing operations are still in progress. A forecast of additional rain tonight and tomorrow for Minnesota and the Dakotas and Northwest Canada further strengthened the market. The market closed strong. December opened unchanged

of Sc. and then advanced to so Sc. The close was at 98% #98%c.

Trading in oats was almost at a stand-still and prices fluctuated over a small range. December opened Mc lower at 51%c, sold between 51% #51%c and 52c, and closed at 51%.

at 51%c.

The corn market closed firm. December opened a shade to % % %c lower, at 57% & Sec. Advanced to 58% @58%c, and closed at 58%c-

at 584c.
Provisions were a trifle easier, owing to liquidation of October holdings. A 10-cent decline in live hogs was the chief weakening factor. At the close January pork was 25 65c lower at \$15.20 (15.22 %; lard was 25.50 %).
