How Civic Federation Secured Report on Public Ownership.

SECRET COMES TO LIGHT

Divided Report on Workings of the System in Europe Suited Man Who Irrigated New York Traction System.

NEW YORK, Oct. 9 .- (Special.) -- Another of the manifold channels through which Thomas F. Ryan has stamped his Impress on civic affairs and has permit-ted the Metropolitan Securities Company to pay the bill was revealed when William M. Ivins today resumed the Interborough-Metropolitan inquiry before the Public Service Commis

It will be recalled that about a year and a half are the National Civic Federation undertook on a somewhat ambitious scale to make a therough investigation of the utility of municipal ownership in its application especially to public service corporations. For that purpose the Civic Federation sent abroad at an expense of nearly \$20.00, a commission of more or less eminent experts, who made a study in Europe of municipal ownership as exemplified in various civic centers and then collated the results of their observations. The members of the committee found it difficult to agree on a single report and two minority reports were actually filed.

None of them, however, came out in favor unreservedly of municipal ownership, and the first conclusion registere, in the report of the majority read thus.

Ryan Paid the Cost. and a half ago the National Civic Fed-

There was much surprise today, and that surprise will doubtless be shared by nearly, if not all, of the eminent experts who are now abroad, when Mr. Ivins disclosed from documents that, in lvins disclosed from documents that, in co-operation with August Belmont, who is president of the National Civic Federation. Thomas P. Ryan was largely responsible for that investigation of the numicipal ownership problem and personally guaranteed its expense to the amount of \$20,000. As Mr. Belmont needed the funds for the purpose of the Federation, he called for them in installments of \$5000, and H. H. Vreeland, acting for Mr. Ryan, sent to Mr. Belmont checks drawn to the order of the Federation on account of the Metropolitan Securities Company.

Another Guaranteed Cost.

There was one other guarantor, who also pledged himself to the amount of \$2,000 toward defraying the expenses of this inquiry. The name of that particular capitalist has not yet been revealed in evidence, but there is good reason to belleve he was and is closely associated with Mr. Ryan in the city's transportation systems.

addition to the \$40,000 jointly guaranteed by these two financiers, something like \$30,000 was raised by subscription from other sources toward sending the Civic Federation's commission on its way

LONDON, Oct. 9 .- Heavy liquidation has been in progress on the Stock Ex-change for the last few days from Amsterdam, owing to two or three firms there having been heavily hit by the recent decline in American securities. They were interested not only in rallroads, but also in cop-per shares generally, and had also been speculating largely in American industrials and London Underground Electric issues. The stocks which the Amsterdam firms speculated in were again the subject of liquidations from there today, but nothing definite could ascertained regarding the amounts

Governor Curry Talks Plainly of Trip Down the Mississippi. .

WEST INSISTS ON ACTION

Rough Rider Executive of New Mexico, While Unable to Obtain Direct Statement, Believes President Will Finally Consent.

ALBUQUERQUE, N. M., Oct. 9 .- (Special.)--President Roosevelt will accept the Republican nomination for re-election next year if it is forced upon him by the convention. He will make no ef-fort to seek this great honor, ner will any of his friends be authorized in any way, shape or form to secure it for him. In a word, President Roosevelt is only a passively receptive candidate for the nomination. He prefers that it go to some other Republican, namely Taft, but if the convention insists that he has no moral right to refuse to serve again his party and country, and nominates him against his wishes, he will accept and make the vace.

against his wishes, he will accept and make the race.

Your correspondent gleaned the above information from Governor Curry, the popular cowboy rough rider executive of New Mexico, during a long talk with him last night. Governor Curry was one of the Western Governors who were invited to take the recent trip with President Roosevelt down the Mississippl River. He stands very close to Roosevelt, for both are of the strenuous, straightforward type of men. Roosevelt admires Curry as much as Curry admires the Nation's chief. They are friends in all the term implies.

mires the Nation's chief. They are friends in all the term implies.
During the long trip down the Father of Waters, Fresident Roosevelt and Governor Curry saw much of each other and, naturally, Western politics was a subject that was not wholly eschewed by either. Fresident Roosevelt always wants to know what is going on in different parts of the West-a section dear to him-and Governor Curry supiled the information from a Curry standpoint.

"I told President Roosevelt that the West would insist that he accept the 1998 nomination and make the race. I used plain language, too, and he understood." Governor Curry refused to be quoted as to what answer the President made, but the statement I made in the first paragraph covers it fully. According to Governor Curry, 17 other Governors who were the President Roosevelt must be the standard-bearer of the Republican party next year. President Roosevelt was informed of the action of the Governors.

The Evening Session.

The afternoon was devoted to business matters and election of officers. This evening the meeting for discussion was held at the Commercial Club. The visitors were welcomed by John Gavin, president of the club. President Smith presided. The report of the executive committee showed about \$6000 on hand and \$7000 yet days from subscriptions to the committee of the due from subscriptions to its fund. An expenditure of about \$3000 will have to be made for terminus improvements of the portage. The remaining money, about \$5000, the committee recommended he added to the fund for extending the line. No plans were adopted for the extension, and that matter was left for future consideration. Mr. Menetee advised the \$60,000 plan and said the city of The Dalles could probably be depended on to contribute \$10,000. The city would spond \$10,000 for whorfage facilities under authority granted by the Legislature in 1906. Under this plan, traffic arrangements could probably be entered into with the Great Southern Railroad for use of about three miles of its track. An independent line would require an appropriation by the Legislature. due from subscriptions to its fund.
