Luther Brown Accused of Inducing Chauffeur to Perjure Himself.

HENEY GETS CONFESSION

Man Who Drove Car on Which Editor Was Abducted Betrays Employer—Union Chairman Is Also Under Indictment.

SAN FRANCISCO, Oct. 10.—The grand jury today returned another indictment against Luther G. Brown, law partner in Los Angeles of Earl Rogers, and reputed to be "the head of the United Railroads" detective force in this city. Brown, who was indicted recently with R. Porter Ashe on charges of abducting Fremont Older, managing editor of the San Francisco Bulletin, was today accused by the grand jury of suborning of perjury in procuring G. A. Wyman, a chauffeur, to testify falsely before the inquisitorial body while under examination as to the alleged kidnapping. Wyman drove the car in which Older was taken against his will to Redwood City, on the way to Los Angeles, to answer a libel suit instituted by Brown in connection with the present bribery graft prosecution. Wyman, according to the prosecution, was "cornered" by Francis J. Henehy in the grand jury room and confessed that Brown had induced him to perjure himself. Wyman was not indicted.

The grand jury also returned an indictment against John E. West, a member of the Electrical Workers' Union, accusing him of the perjury offense of short-circuiting the wires of the United Railroads.

Mulai Hafig Advancing, Backed by Holy Men of Fez.

TANGIER, Oct. 10.—The power of Mulai Hafig, who has been proclaimed Sultan in the south, has been greatly strengthened in that part of Morocco by the declaration of the ulamas or holy men at Fez that he has more legal and moral right to the throne than has Abdul Aziz, the Sultan of record. This, coupled with the approach of Mulai Hafig's army upon Fez, argues a speedy capitulation of the northern capital.

Need Not Pay Dues on Coal for Fleet on Pacific.

WASHINGTON, Oct. 10.—Foreign bottoms carrying coal for the United States Navy will not be compelled to pay the tonnage and light dues assessed under regulations of the Department of Commerce and Labor. A decision to this effect was rendered today by Attorney-General Bonaparte, the question having been referred to him when the British tramp steamer Ferrenden, carrying coal from Newport News to San Francisco, protested against the paying of the charges after carrying a cargo of coal to the Bremerton Navy-Yard on Puget Sound.

The enforcement of the tax meant that the Navy Department would be called upon to pay a higher amount for the coal used by the Atlantic fleet on the voyage

Frank Hitchcock Investigates Difficulty of Keeping Postal Clerks.

SALT LAKE CITY, Utah, Oct. 10.—First Assistant Postmaster-General Frank H. Hitchcock was in Salt Lake City several hours today on his way from Montana and Nevada. He has just finished a tour of inspection of Montana postoffices, particularly that in Butte, and he goes to Nevada on the same mission. One of the objects of Mr. Hitchcock's visit to the West is to ascertain the cost of living in this section as compared with conditions in the East. At the present scale of wages the Western postoffices find it difficult to secure and to keep sufficiently competent employees. Data collected by Mr. Hitchcock will be embodied in a report to be submitted to the next Congress.

Crew Labors With Hysterical Passengers While Fighting Flames, but Wins Battle.

NEW YORK, Oct. 10.—The Austrian steamer Giulia, which arrived today from Trieste with 703 passengers, had a narrow escape from destruction by fire in mid-ocean during a violent storm on October 3. The crew fought the flames all day before they were extinguished, while the panic-stricken passengers prayed for help.

The Giulia left Trieste September 14, calling at Patras and America. After passing Gibraltar September 25, the steamer encountered stormy weather with heavy seas. At daylight on the morning of October 3, while about 200 miles west of the Azores Islands, one of the crew discovered fire in the cargo at the bottom of No. 2 hold. The wind was blowing violently from the southwest and the Giulia was laboring heavily.

Bigelow Confesses Threats to Use Dynamite.

UNLESS MONEY WAS PAID

Railroads, Merchants and Postmaster of Denver His Chief Victims—Dummy Package Sent, but Not Claimed.

DENVER, Oct. 10.—Kemp V. Bigelow, the young clerk from Farmer, Ohio, who mailed dynamite packages last Monday to Governor Henry A. Butcher and several other prominent citizens of Denver, confessed today that he was also the author of letters mailed on August 29 last to the Burlington Railroad, the Moffatt road, the Adams Express Company, the Daniels & Fisher Stores Company, the May Shoe & Clothing Company and to Postmaster Paul Sours, demanding amounts varying from \$10,000 to \$50,000 and aggregating \$100,000. These letters contained threats that unless the demands were complied with, passenger trains would be wrecked with dynamite and the Daniels & Fisher and May stores and the Federal building in this city would be blown up and C. H. Day, local agent of the Adams Express Company, would be killed within 30 days.

Bigelow's confession was made to Chief of Police Michael Daley in the presence of Mr. Day and John F. Vallery, general agent of the Burlington road in Denver. The letters contained instructions for placing a different mark upon each package and demanded that it should be put in one bundle and thrown from a certain Burlington train as it passed the Denver stockyards on the night of September 30. A dummy package was made up of the contents of the train, as directed. Detectives were in hiding near the spot designated for leaving the package of money, and kept up a vigil all night, but nobody appeared. The next morning the package was returned to Mr. Day.

PRISON LABOR FOR ROADS

Illinois Considering Plan of Using Convicts on Highways.

CHICAGO, Oct. 10.—(Special.)—Prison labor will construct good roads in Illinois, if the plans of the supervisors, county commissioners and county clerks who are here attending their twenty-first annual convention, are carried out. A new plan, which is receiving serious consideration from the highway commissioners, and upon which they expect help from the Legislature, is the construction of good roads without an increased burden upon the tax payers by getting stone and gravel from state prisons solely to accomplish this. The highway commission advocates the building of small subdivisions in the various parts of the state to supply the demand. This plan would accomplish wonderful results, according to the chief engineer of the commission, and would create a new state industry.

CREDIT TO REYNOLDS' BANK

Seattle Merchants Give Aid to Alaskan Promoter.

SEATTLE, Wash., Oct. 10.—(Special.)—The H. D. Reynolds Bank, at Valdez, yesterday closed its doors. Seattle bankers say the failure will not injure Seattle's financial institutions and that the money Reynolds owes Seattle merchants will be paid. These have extended a line of credit to Reynolds amounting to approximately \$50,000. Boston and New England capital, furnished largely by school teachers, formed the basis of Reynolds' first exploitation of Alaska. He had several mining enterprises a year ago, but finally determined to get into the transportation business. John G. Brady, former Governor of Alaska, became interested with him and allowed the use of his name in the New England states, and President Theodore Roosevelt decided his usefulness as Governor of Alaska was at an end.
