

BEAVERS TAKE HIDE OFF SEALS

Score Seven Easy Runs in the Ninth Inning and Make Game a Joke.

DESTROY WILLIS' NERVE

Singles, Doubles, Triples and Walks Come in Close Succession, Causing a Procession—Hartman Allows Only One Run.

SAN FRANCISCO, Oct. 16.—(Special.)—The Beavers gave the Seals an awful trimming this afternoon by making seven runs in the ninth inning and turning a fast, snappy and exciting ball game into a joke. With one down in the fatal round, Spencer made the only error of the game by dropping Johnson's fly. Kennedy followed with a single and Bassey tripled to the clubhouse. Then Mott unloaded a double into center and Hartman followed the example of Bassey. This last walk-up took all the life out of Willis, and he walked Casey. Donahue immediately took off a single, registering Hartman. Raftery and McCredie were hit by the pitcher, and Casey came across with the seventh and last run as Johnson was being retired short to first.

SCHOOL TEAMS PLAY TIE

HILL ALL BUT SCORES AGAINST COLUMBIA.

Cadets Drop-kick Goal, but Officials Decide Ball Had Not Been Put in Play.

Columbia University, 0; Hill Military Academy, 0. Before a small but noisy crowd of students and followers of the two schools, the Hill Military Academy football team played the Columbia University eleven a tie game yesterday afternoon on Mount Pleasant Field, opening the interscholastic football season of 1907. The teams were evenly matched and both squads played the game as though their very lives depended on the outcome.

Toward the end of the second half the Cadets worked the ball within striking distance of Columbia's goal and sent the pigskin between the posts by a place kick. But the ball had been put in play before the whistle blew and the officials decided to make Hill try again. They failed in the second attempt. Gruesi kicked out from the 35-yard line, and Hill's last chance to score was lost. Columbia, too, had the ball close to the opponents' goal several times, but every attempt to score was met with strong opposition from the hunky Cadets.

OPENING OF EILERS NEW TALKING MACHINE PARLORS LAST EVENING PROVES DECIDED SUCCESS

Throughs Crowd Store and Recital Hall Throughout Entire Evening—Beauty of New Rooms Excites Universal Admiration—Finest on the Coast—Enjoyable Musical Programme Rendered in Recital Hall.

Music lovers in goodly numbers took advantage last evening of the invitation extended by Eilers Piano House to inspect their splendid new Talking Machine Parlors. For several hours a steady throng passed through the Eilers establishment, first stopping to view the new Trial and Demonstration Rooms, then visiting the Recital Hall, where a continuous musical programme was rendered, which included a fine collection of instrumental and vocal numbers reproduced upon the latest style Talking Machines, and other numbers rendered upon the marvelous Welte-Mignon Piano.

COMPLETE INNOVATION.

The beauty of the new Talking Machine Parlors brought forth expressions of admiration and approval from every guest, and well they might, for they are certainly the handsomest and most up-to-date of anything in this line yet seen in Portland. Each parlor is enclosed with double sound-proof glass walls, windows and doors, is finished in the newest beam-ceiling effect, and individual color schemes are carried out in each room, one being in green, another in red, and still another in orange. Each room is entirely separated from the one adjoining, so far as conflicting sounds are concerned, and with the several rooms now available, a number of patrons can be accommodated at once, affording each an opportunity to hear any records called for, without interfering with those being played for other patrons.

WONDERFUL NEW RECORDS.

The popularity of the modern Talking Machine increases every day, and with the great improvements made in both machines and records during the past year or two, are bound to continue to hold the attention of all who are musically inclined. Many of the late records are indeed wonderful in their realistic faithfulness of their reproductions, it being practically impossible to distinguish between the Talking Machine rendition and the original production.

LEADERS IN THIS LINE.

Eilers Piano House carry the largest stock of Talking Machines, records, record cabinets and supplies of any Pacific Coast firm, and their popular methods of handling this department of their business have given them the largest trade in this line. With their now increased facilities they will be enabled to cater to the wants of customers in this line to better advantage than ever.

Those who have not seen the new Parlors are invited to inspect them at any convenient time.
