words "Good-bye, Eva." Edward Nell Kelly, a young workman, drew a revolver and fired a bullet through his head, on the platform of the Apostolic Faith Church here this evening. The girl he referred to was sitting in the audience, within 10 feet of the young man, when he fired the fatal shot.

Kelly died at the Wayside Emergency Hospital a half hour later. Kelly, who was 19 years old, met Eva Kestersen, a 15-year-old schoolgirl, at evangellist meetings held here in the early part of Séptember, and a week ago they became engaged. They were to hold the wedding at Thanksgiving. ding at Thanksgiving.

As one of the speakers at the church finished testifying "in foreign tongues," which is part of the belief of the creed, Kelly arose, with the words, "It is my turn next," He then started singing "The Fire of Heavenly Love is Burning in My Soul." As the last words were finished he drew a gun, turned toward the girl, said "Good-bye," and fired the fatal shot. fatal shot.

The Apostolle Church of God is of a nature akin to that of the famous Holy Rollers, who flourished in Oregon some years ago. The disciples of the peculiar doctrine throw themselves on the floor and declare that while they are in their paroxysms the devil leaves their bodies. The general impression caused among the Filipinos by the Secretary's speech at the opening of the Assembly yesterday is excellent, but the American papers here call for a prompt announcement of the Government's policy toward. the Islands, declare that Mr. Taft evaded any positive statements on the subject and allege that his speech was a rehash of the addresses which he made here two years ago and has since delivered in the United States.

A clash occurred in the Assembly today between the -president, Sergio Osmena, Nationalist, and Dominado Gomez, who seconded the president's nomination yes-terday in an eloquent speech and who during the session yesterday delivered an address declaring against bringing poli-tics into legislative business and asking the delegates to show their patriotism by forsaking party affiliations and legis-lating for the benefit of the Filipino peolating for the benefit of the Filipino peo-

Foremost among them all is Walter Macarthur, the ablest labor all is Walter Macarthur, the ablest labor leader in the West. He not only has opposed Schmitz and his crowd, but he has taken the platform against Mr. McCarthy. He appears with Dr. Taylor at public gatherings and, championing the cause of labor, exhorts the union host to show that it is second to no element in the community in its desire for honest and efficient government. Mr. Macarthur

P. W. McCabe, former secretary of the Labor Council, Michael Casey, president of the Board of Works, and Ralph Mc-Leran, three of the strongest men in ent, have allied themselves with Dr. Taylor.

Many Labor Men for Taylor.

Among several unions there is a decided Taylor sentiment. The employes of the Union fron Works have arranged a meeting and have invited Dr. Taylor to address them. The Carmen's Union gave DEED OF SEATTLE YOUTH

Mr. McCarthy an indorsement by a bare majority. It would be foolish, however, for one to delude himself into the cellet that Mr. McCorthy was not to get the bulk of the labor vote. He will get it and the only question is: Will it be sufficient to elect him?

The conditions brought about by the fire will work great injury to Dr. Taylor. Thousands of voters have not yet returned to San Francisco, but have taken up their residence in the cities about the bay. These are all business people who would cast their votes for Dr. Taylor. Five to 10,000 votes will be lost to him in this way.

in this way.

Dr. Taylor is not a politician. No "interests" are behind him. On the contrary, the magnates whom Mr. Heney has pledged himself to prosecute are aware that they can get no respite from Dr. Taylor.

There is no reason to believe that Mr. Ryan will poll more than one-half as many votes as either of his competitors.

J. Ogden Armour, Who Is Having a Wheat Market.

It is also an assured fact that he will cut far more heavily into the Taylor than the McCarthy vote. Most of the citizens are unable to understand why he does not withdraw and leave a free field for Taylor. Perhaps the answer lies in his youth and his ambition. There is nothing else that could account for his

The Mercantile National of this city is the Butte bank's correspondent, but is not affected by

its suspension. A number of meetings were held to-day in the offices of Otto Heinze & Co., but no statement of any sort was given out. It is said that the claims against the firm, growing principally out of the attempted corner in United Copper, attempted corner in United Copper, may reach \$2,500,000. Heinze's Meteoric Career.

Heinze is one of the most pictur esque and remarkable figures in the finance of America. A graduate of the Columbia School of Mines, he went West without capital and began the development of copper properties which brought him into conflict with the great Anaconda Company, now a part of the Amalgamated Copper Company. This conflict lasted for years, and was fought out from court to court until a year or more ago a compromise was effected.

was effected.

The terms of the peace agreement were not made public, but it is known that Mr. Heinze received enough as his share to make him several times a millionaire.

For some time past the situation in the copper shares has been rather un-favorable. For a number of weeks the Amalgamated Copper Company has been holding down the production of its mines to about half its normal output, on account of a heavy overproduc-tion of the ore and the refusal of consumers to buy at the prices which had prevailed. Since then the price of the metal has slowly but steadily continued to decline.

Following the policy of the Amaiopper Company and Phelps Dodge interests, the Cerro de Pasco mines, in Bolivia, South America, it was announced today have reduced was announced today have reduced their output to 75 per cent of the normai. The mines have been turning out at the rate of 24,000,000 pounds a year. These mines are controlled by J. B. Haggin and the Hearst estate.

This pleasant mixture, if taken regularly for a few days, is said to overcome almost any case of Rheumatism. The pain and swelling, if any, diminishes with each dose, until permanent results are obtained, and without injuring the stomach. While there are many so-called Rheumatism remedies, patent medicines, etc., some of which do give relief, few really give permanent results, and the above will, no doubt, be greatly appreciated by many sufferers here at this time.

Because of unsettled conditions and rumors that cannot be verified that may cause unusual and excessive demands by depositors, and owing to a shortage of currency and inability to secure additional currency immediately with which to pay demands which may be made, the management has deemed it advisable in the interest of all depositors to suspend for the time being. The bank is solvent.

There was no demonstration and less han 100 persons congregated in front of the bank at any time today. The bank was closed because the directors anticipated a run, which would at this time prove disastrous to the financial welfare of the city. It was explained that, in the event of a run, the bank would not be in a position to pay out all demands. be in a position to pay out all demand be in a position to pay out all demands, no more so than any other bank doing business in the city. The rather tight condition of money, the failure of Otto Heinze & Co., of New York, and the general air of uncertainty pervading the country entered into the conclusion of the directors, to close.

It is stated that the bank is solvent and will pay out inside of 60 days. Otto Heinze & Co. did not owe the bank a dollar and F. A. Heinze owes it less than \$300,000, which is amply secured. Mr. Largey, the president, owes it about \$7500 and he is able to pay many times that amount. The bank holds on hand about \$800,000 and its deposits amount to about \$200,000. There are about \$500 depositions. \$3,000,000. There are about \$000 depositors and of this number 575 are commercial depositors, the others are savings of workingmen and women.

The directors announce that they will croceed with the building of the new bank, which is nearing completion and which will cost about \$200,000. State Ex-aminer Coilins will take charge of the bank tomorrow.

The State Savings Bank thas 6,000 de positors with more than \$5,000,000. Its depositors are mainly small wage-carners, and the loss will be felt keenly throughout the laboring circles of the city. The last statement showed it had borrowed \$150,000 and its reserve was below 15 per cent of deposits required by law

HELENA, Mont., Oct. 17.—State Bank Examiner A. T. Collins was here this afternoon and will arrive in Butte some time tonight. The difficulties of the firm arise chiefly from its connection with a mining company at Teplitz, Bohemia, in which much capital was locked up. In addition, the firm has interests in several coal mines in Austria and was concerned in several real estate ven-tures.
