A special committee also was appointed at the last meeting to get the opinion of experts in bridge construction as to whether in rebuilding Madison bridge, it can be built higher than the present structure. There are many important questions coming before the club if the local organizations will send their delegates.

McKenna, president of the Initiative One Hundred, is planning to take a trip East in about two weeks for the express purpose of studying the methods of street improvement and street cleaning followed there. TRULY ONE OF THE REAL WONDERS OF THE WORLD A mere thing of wood and metal—as it were; a roll of perforated paper—the touch of a tiny lever—and lo! the playing of Paderewski, of d'Albert, of Busoni, of Pugno, of Josef Hofmann, Sauer, de Pachmann, Richard Strauss, or of any one of a host of the greatest living pianists, at will, is instantly heard, with all the realism, fire, delicacy—with all the varying characteristics—all the individual qualities of interpretation, touch and tone peculiar to each, just as rendered by themselves; preserved for all time, to be enjoyed not by the favored few, but by the many music-lovers the wide world over.

This is the Welte-Mignon Self-Playing Artistic Piano—the most remarkable achievement yet realized in the history of music. So responsive, so accurate, so delicate is the recording of the original rendition accomplished, that the exact degree of pressure upon each note and key, the length of holding, the tempo, the pedal movement, all are measured and duplicated with a faithfulness hardly less than human—in so extraordinary a manner as to be almost beyond belief. It is the sensation of the present decade.

The Welte-Mignon is the final word in musical mechanical genius—nothing more can be possible—nothing more can be said. To hear the Welte-Mignon is to live in the very presence of the world's most famed and gifted master musicians—to enjoy their greatest productions, played in their own way—to absorb—as might be said—the highest ideals in all the realm of melody.

TONIGHT'S CONCERT AT EILERS RECITAL HALL Will include the playing of Paderewski, Josef Hofmann, Busoni, Leschetitzky, d'Albert, Grieg, Lhevinne and Mero, as faithfully reproduced as though these master artists were here in person.

It will be a treat of unusual merit, and one in which the real music-lover and critic will find the utmost pleasure and delight. The Welte-Mignon is exclusively represented in Western America by
