Seattle to Play Salt Lake. SEATTLE, Wash., Oct. 22.—(Special.)—Negotiations which have been on for some time to secure the Salt Lake City High School football team for a game with the Seattle High eleven have practically closed and the chances are very good that the Mormons will play here November 3. The Seattle eleven is champion of the Coast, having defeated the best teams on the Coast and winding up with a decisive win over the North District eleven of Chicago last year. It is figured that neither Tacoma nor Spokane has any chance with Seattle, which is stronger this year than last. It was hoped to get a game with the Lick High of San Francisco, but that is believed to be impossible because the San Francisco boys have so far been unable to finance the trip.

For years past there have been a great many complaints made against dredgers and business firms doing business along the river. Once the Government officials got after the gas company, but legal action was not taken because the gas company, when legal action was threatened, removed the oil and other waste matter they had dumped into the river. Since the indictment was found against the Star Sand Company, complaints have been fewer, and now that they have pleaded guilty and paid a heavy fine, the dredging industry is confident that all previously offending firms will be more careful.
