It is estimated that not to exceed 20 cars of the Oregon crop, exclusive of sead, have been disposed of to data, and the weak holders are all believed to be out of the way by this time.

The potato market is in a good position, so far as fancy varieties are concerned, and buyers are readily paying \$1 for this kind. There is but little demand for inferior grades.

RETTER FEELING IN BUTTER MARKET.

Supplies Cleaning Up More Promptly—Poultry Is firm.

Couniry produce of all kinds moved yesterday at the previous day's quotations. Receipts or poultry were quite large, but the demand was good for all descriptions. The egg market held steady.

A better feeling is noted in the butter market, as supplies clean up more promptly. There is no likelihood of any lowering of prices, with grass getting short and feed values higher than ever before. On the other hand, the present situation does not seem to justify an advance in quotations.

Sharp Advance at Liverpool Is Ignored in View of Reported Conditions in the Eastern Financial Circles.

LONDON, Oct. 24.—Bar silver, steady, 28%d per cunce. Money, 31 per cent.
The rate of discount in the open market for short bills is 4%24% per cent; three months bills, 4%24% per cent. CHICAGO, Oct. 24 .- The wheat market opened weak with prices %c to 1%c below the close of yesterday. A sharp advance at Liverpool was completely ignored in the face of the onditions in the financial world, the suspencion of several banking concerns in the East having been reported before the opening of Daily Treasury Statement.
WASHINGTON, Oct. 24.—Today's statement of the treasury balances in the general fund shows: the board. Trading early in the day was not in large volume, but as the session advanced it increased to liberal proportions. Liquida-tion, which had been confined to small holders, became general and included some of the bull leaders. With the increase in business, prices were forced down more rapidly. The NEW YORK, Oct. 24.—The market for evaporated apples is easier and it seems that the tight money situation has led to cancellations. Fancy is quoted at 10½c; choice, 10; prime, 9½@9½c; common to fair, 8%9c. Primes are unchanged. Aprimarket closed weak and near the low point of the day. December opened %a to %c lower at \$1.00% to \$1.01, sold off to 98%c and closed 2%@2%c down, at 98%@98%c.

The corn market was decidedly weak all day because of selling induced by the financial eltuation, ideal weather for the crop and the situation, ideal weather for the crop and the weakness of wheat. The market closed weak. December opened 1624c higher to 1624c lower, at 58 to 58%c, sold off to 56%c, and closed 14601%c down, at 57c.

Heavy selling of oats by cash houses and sharp declines in the East caused a decline of almost Ic in all deliveries. December opened 150 lower, at 51c. declined to 50%c and closed 150%c lower, at 51c. declined to 50%c and closed 150%c.

Mile lower, at 5034950%c.

Despite the weakness of grain and a 10c to 15c decline in the price of live hogs, the provision market was strong all day. Decreas-

provision market was strong all day. Decreas-ing stocks and an improved cash demand were the causes of the strength. Shorts and in-vestors were good buyers throughout the day and trade was in large volume. At the close, January pork was up 27½c at \$14.75; lard was 12½c higher at \$8.02½; ribs were 17½c higher, at \$7.70.
