

LAW TO BE ENFORCED

Customs Officials Watch Owners of Launches for Enrollment.

RULES AND REGULATIONS

Craft Used for Hire Must Carry Life Preserver for Each Passenger—Regular Steamer Lights Also Necessary.

In compliance with the recent instructions from and rulings of the Department of Commerce and Labor, officials of the local Customs-House have been engaged in compiling a list of the power launches in this district together with the names of owners and in seeing that the navigation laws and regulations covering life preservers and lights are adhered to.

All power vessels, without regard to use or tonnage are required to comply with the provisions of pilot rules in regard to lights, whistle, bell, fog-horn, etc., and to have on board two copies of said pilot rules.

All vessels of 15 gross tons, or less, propelled by power and carrying passengers for hire, are required to carry one approved life-preserver for every passenger carried, and such boat shall be operated only in charge of a duly licensed operator.

All vessels of over five net tons, engaged in carrying passengers or freight for hire, are required to be documented by the Collector of Customs.

Vessels of less than five tons, used exclusively for pleasure, and not rented, or used in the carrying of passengers for hire, are not required to be documented and are not required to comply with the provisions in regard to licensed navigator and life-preservers, but must conform with other laws.

Gasoline-driven fish and oyster-boats, not carrying passengers for hire, are also exempt from documenting and do not require licensed operators.

Power boats of less than 10 tons and open, may use a combination hand and side light, but must carry stern light.

For any violation of the navigation laws, fine is assessed by the Collector of Customs.

Collector of Customs P. S. Malcom states that Congress is expected to pass special legislation at the coming session for all gasoline craft. He is much pleased at the co-operation his office is receiving from all launch-owners in this district.

Following is a list of the pleasure and licensed gasoline craft in this district, so far as ascertained:

Table with columns: Name, Owner, Address. Lists various boats and their owners.

REDO DO FOR COOS

Steamer Will Be Operated to Southern Ports.

OWNERS TO MANAGE HER
