# FROM FAMILY MAN TO BOLD ROBBER

George Rand Makes a Rapid Transition After Having Few Drinks.

STEALS RIGHT AND LEFT

Young Sunnyside Benedict Breaks Into House After Drinking Bout With Bachelors-Gets a Six-Months' Term in Prison.

From an eminently respectable man of family to a thief hunted by half the po-lice department, is an unusual transition for one to undergo in half an afternoon. Such a change occurred Sunday afternoon in George Rand, a young married man residing at Sunnyside. After four years of exemplary married life he set out to renew practices of bachelor days, during the absence of his wife, and in less than six hours he was in jall for robbery. While the man's downfall was unfortunate and he is clearly not a criminal, the nature of his offense was such that he will be compelled to serve a term of six months in the County Jail.

Rand told openly of his downfall, in the Municipal Court yesterday forenoon. While Mrs. Rand and their two children were away he went for a walk, met some bachelor friends and accepted their invibachelor friends and accepted their most tation to share the contents of a keg of beer which they had purchased Saturday and taken to their room on Burnside street. Something in the nature of a drunken revel followed and when he left

the room late in the afternoon he was staggering badly.

Rand was doomed for arrest. Even had he gotten out of the lodging-house he would have been picked up for drunkenness. But that would have meant only one day in jull while as it was he commenced staggering from room to room stealing everything he could lay his hands upon. He stole openly and with a drunk-en disregard of the consequences. It is doubtful if any suggestion of possible consequences ever entered his sodden

He was very promptly discoverd and the police were notified by telephone. By the time the officers

arrived he had star-gered away. After an extended search he was found in an alleyway by Acting Detective Smith. A big clonk a leather Detective Smith. A big clonk, a leather strop, a revolver and an assortment of worthless trinkets

ing things when he allows whisky to his thinking for him," said Judge

Cameron epigrammatically Rand, a neatly-dressed young fellow with a homely face, reddish halr, big treckles and the makeup throughout that appears to best advantage behind a perambulator containing twins, made no appeal for lenience when the court said it would be necessary to send him to fall. He appeared very anxious and wor-ried but made no great display of his

"Intoxication is no justification of eft," said the Judge. "It may be taken thett." said the Judge. "It may be taken in mitigation if the facts so justify. You have already been given the benefit of the simplest charge under which your rrime can be classed. Under the ciristances six months in the County Jail is the least this court can give you

What became of the whisky in the bot-tle that was secured by Tom Kay as syldence in his raid on the Franz Telder salcon, at Third and Taylor streets, Sun-

The bottle was full to the neck when the officer found Felder and several friends gathered about it in the rear of the Felder saloon. It was still quite full when iMr. Kay turned it over to Captain Slover to be held as evidence. The captain doesn't drink, and of course he didn't deats.

drain it.

But the contents mysteriously disappeared—all but a few drops in the bottom of the bottle. It could not have evaporated so quickly, and it was not upset. Possibly members of the police department found this bottle a little oasis in the great dry desert of dry Sunday. Fortunately the dry minion, or minions, who tapped the bottle left enough to serve the nurposes of presecution. There serve the purposes of prosecution. There was, perhaps, a thimbleful in the bottom. This was slender evidence, to be sure, but Judge Cameron thought it sufficient upon which to base a small fine of \$15 against Felder.

'It's an outrage for the police to arrest a man for drinking on Sunday and then drink up his liquor themselves," said At-torney Petrain in righteous indignation. But no one seemed to hear him.

Miss Jessie Sullivan, a spinster from and paid no attention to the command. Irvington, had a weird story to tell of The officers immediately opened fire, how she came to be staggering about on Weird as it was, the story jured, but the fugitives made their way jured, but the fugitives made their way

how she came to be staggering about on the streets. Weird as it was, the story had the stampmarks of truth, and the court gave her the benefit of a doubt. Here is what she said:

"I was crossing Burnside bridge on my way home. I live in Irvington. There was a fine, big-looking man came up and called me by name.

He was a stranger, Here is what she said:

"I was crossing Burnside bridge on my way home. I live in Irvington. There was a fine, big-looking man came up and called me by name. Fie was a stranger, but I consented to walk with him. Half way across the bridge he said it was chilly and pulled out a bottle. I took a drink from his bottle. That is all I remember. I was

drugged. He drugged Most everyone was smiling at the improbable story when corroboration was offered by the police. The woman had been found in a dazed condition at Front and Burnside streets. She appeared to have been drugged. At least she was doing nothing worse than occupying half the sidewalk when found and seemed sick rather than drunk

rather than drunk.

Miss Sullivan did not grow hysterical. Her emotions, in fact, must have been pleasing to her, for she smiled continually, her smile throadening as the police substantiated her yarn, and it grew into a sort of rippling chuckle as the court said, under the circumstances, he would rather than drunk.

let her off, but that she must keep a lookout for the strange bad man and try to locate him for the police.

SHAVE COSTS MECHANIC \$50.15

Leo Zockro Leaves Court for Razor and Loses Bail.

and Loses Ball.

Lee Zockro, a mechanic carning not more than \$4 a day, enjoyed a luxury yesterday foremoon that most millionaires would shy at. It was a \$56 shave. Zockro was among the horde of petty offenders that infested the Municipal Court at \$2 A. M. yesterday. The charge against him was that of being drunk and disorderly. His case was not a particularly aggravated one. He waited for half an hour for his name to be called and then, learning his name was far down the docket, went out to get a shave, of which he was sadly in need. Zockro had not been gone ten minutes before his name was called by Clerk Hennesay. The bailiff made a personally conducted search for the missing man, but without finding any trace of him. Later Zockro came back with a newly-mown visage, only to learn that newly-mown visage, only to learn that his shave had cost him \$50, not to men-tion the 15 cents paid to the barber.

# CLUB WILL FIGHT PLAGUE

BOARD OF GOVERNORS TO HELP THE CITY.

Commercial Body Believes Every Possible Precaution Should Be Taken to Guard Against It.

At its meeting yesterday morning the board of governors of the Portland Com-mercial Club gave earnest consideration mercial Club gave earnest consideration to the question of preventing the introduction of bubonic plague into Portland. The board is alive to the danger of the disease gaining a foothold here and urges that every possible means be employed to rid the entire city of rats and all conditions favorable to the propagation of the disease. In the following letter addressed to the Mayor and City Council, the Commercial Club tenders it services to the city in any plan of campaign to the city in any plan of campaign which the municipal government may

### Danger From the Plague.

The danger of the introduction of bubonic plague into Portland was the chief topic for discussion at the meeting of the board of governors of the Portland Commercial Club

at noon today,

While the board is aware that the city
government has stood behind the Health Degovernment has stood behind the Health Department in taking precautionary measures against the introduction of the plague into Portland, we believe that the commercial and property interests are in favor of a most vigorous campaign looking towards the earliest possible extermination of all the rats in the city, and at the meeting today a motion was unanimously carried recommending a larger appropriation for the use of the Board of Health and a larger bounty for every rat destroyed.

The Commercial Club feels that with the introduction of the plague at both San Fran-

introduction of the plague at both San Francisco and Seattle there should be a greater publicity given to the fact that the introduction of the plague into Portland would be

strop, a revolver and an assortment of worthless trin kets were in his possession.

The District Atterney's office was asked for a complaint charging Rand with larceny from a dwelling. On such a charge the unlucky offender could have been sent to jall for several years. Deputy District Atterney Haney, however, inested that the case was one where some degree of leniency was justifiable and made the charge simple larceny. It was to this charge that Rand consented to plend guilty.

In admitting his guilt, Rand said he had only the faintest recollection of the charge simple larceny. It was to this charge that Rand consented to plend guilty.

In admitting his guilt, Rand said he had only the faintest recollection of the city should be advised as to the danger and as to their duties in helping in every possible way the efforts of the Board of Forthestolers, in the stolen articles.

"A man doesn't need any reason for foing things when he allows which for the plague into Portland would be a great detriment not only from the stand-point of he stand-point of health, but in a financial and commercial way as well.

An "Impression has gone forth that it is only necessary that the rate should be killed in the business house near the river, but it is certainly desired that the entire population of the city should realize that it is their duty to see that every rat in the city is killed in the business men from the Club visited all places of business on both sides of Forth streemly. As a result many people were busy catching and killing rats. The board of governors feel that the people of Edity should be advised as to the danger and as to their duties in helping in every possible way the efforts of the Board of Promitive for the city should be advised as to the danger and as to their duties in helping in every possible way the efforts of the Board of Promitive for the city should be advised as to the danger and as to their duties in helping in every possible way the efforts of the Board of Promitive for the city should realize

### Favors Automobile Road.

The board of governors also passed a resolution favoring the proposition of the Astoria Chamber of Commerce to connect a good road from Warrenton with the beach at Fort Stevens and 15 miles further on down to Seaside. This plan also contemplates the construction of a bridge across the Necanicum River, enabling automobiles to make 15 miles of bridge across the Necanicum River, en-abling automobiles to make 15 miles of the journey on the beach, that is the dis-

tance from Fort Stevens to Seaside, passing Gearhart and other popular beaches.

The recent invitation of the Lewiston Commercial Club to the Portland Commercial Club to visit the Idaho city when the Lewiston-Riparia branch of the O. R. & N. line is completed, was discussed and a motion passed favoring an ex-cursion and authorizing the President to name a committee for the purpose of organizing such an excursion with the co-operation of the other Portland commercial bodies,

ABDUCTS HIS OWN CHILD

Covers Mother-in-Law With Gun and Takes 3-Year-Old to California.

LAKEVIEW, Or., Oct. 24.—The peo-ple of this town were treated to a sensation when Tom Handley, a former resident of Lakeview, but now of Point Richmond, Cal., kidnaped his own child and escaped across the state line

into California.

Handley and his brother drove to the home of his wife's parents, Mr. and Mrs. John Wendell. They found the latter at home alone with Handley's two children. He aimed a six-shooter at his mother-in-law with a threat to at his mother-in-law, with a threat to fire if she moved. Next he grabbed the oldest child, a girl, of about 3 years, and made for the buggy, where his brother was in waiting. The case was reported to the authorities at once, and Sheriff Dent telephoned to New Pine Creek to stop the kidnapers. Officers at that place halted them at the point of guns, but the men were desperate and paid no attention to the command.

### MEN'S ELEGANT SUITS

And Cravenette Raincoats, Worth \$15 and \$18, at \$8.85-The Chicago, 69-71 Third Street.

Today and Wednesday take your pick of venetian and mercerized silklined suits and cravenette raincoats at \$3.85. ,Men's brown worsted suits, imported gray plaids, black thibets, silk mixed cassimeres and smooth velours (all sizes) at \$8.85. Also 1000 craven-ettes in the newest colorings and black, greatest value in the city, at \$8.85.— The Chicago Clothing Company, 89-71 Third street, between Oak and Pine. .

\$18,431, for Port Natal.

RUSSIA BUYS STEAMERS HERE

for Shallow Siberian Rivers.

The Russian Government sent a special representative to Portland last week to arrange for the building of four light-draft steamers to patrol shallow streams in Siberia. This representative had a long conference with Joseph Supple, with thy result that the plans for them will be prepared in San Francisco, when all four crafts will probably be built at Supple's yard. They will be 30 feet wide by 130 long, and will have a four-foot hold. They will be built along the lines of the light-draft steamers running on Alaskan waters. The whole contract for the four waters. The whole contract for the four steamers will aggregate about \$100,000, and probably more including machinery. However, their machinery will consist of gasoline engines and the boats will be provided with sailing facilities. They are intended for patrol duty and will be operated in Siberian waters. It will take

tended for patrol duty and will be operated in Siberian waters. It will take about a month to prepare the plans. The vessels will be shipped "knocked down" to the far-away destination.

Plans also are being prepared for another Alaskan boat to be built in Portland. Mr. Supple said that a representative of the company which wants this craft first went to Seattle, but was told that he had come to the wrong place, as Portland was the place where the light-draft Alaskan steamers were built. Mr. Supple has the contract to build a light-Supple has the contract to build a light-draft steamer for a mining company in Mexico, and will start work in a short

Frisco Steamers Change Time.

Steamers of the San Francisco & Portland Steamship Company will operate on a Winter schedule, beginning with the sailing of the City of Panama, November I. On that date the vessel will sail at 4 o'clock in the afternoon, instead of 9 A. M. This will allow the craft to cross A. M. This will allow the craft to cross out over the Columbia River bar in the morning and save the delay in Astoria. The delay in San Francisco will be increased 12 hours and shortened a like time at the Portland end.

Telegraph Ties Up for Season.

The steamer Telegraph will make the The steamer Telegraph will make the last run of the season to Astoria Wednesday. She will then go into Winter quarters. The Telegraph has been making daily round trips since Spring and will close a successful season tomorrow. Passenger business is reported to have been better this past season than at any time since the Telegraph went into commission on the Columbia River.

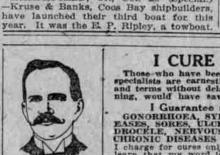

### Yukon River Pilots Return.

Captains Miles Lemly, James T. Gray, A. Newcomb and Al. Saass have returned from the Yukon River. All were engaged in operating steamers between St. Michaels and Fairbanks during the season. The officers bring a report of a heavy season in the north. There are several employes of the company who tied up at Fairbanks who will come out over the trail. The only casualty of the season was the death of Engineer Wade on the steamer Tanana. Captains Miles Lemly, James T. Gray,

# MEN CURED

New, Different and Better Methods

which

# Take Less Time Cost Less Money

Don't be practiced and experimented upon by physicians, druggists, electric belts and incompetent specialists. My large practice and quick, thorough methods enable me to cure Men's Diseases in half the time and at about one-fourth the usual fees asked.

My best reference is:

# Not a Dollar Need Be Paid Until Cured

No Stimulants for "Weakness"

My success in permanently curing that condition commonly known as "weakness" fully demonstrates the absolute correctness of my method of treatment, which is a method of treatment, which is a method of treatment, which is a method employed by myself alone. I do not stimulate the functions to temporary activity by the use of strong internal tonics. This is the course commonly pursued by hoth general practitioners and specialists, and is a treatment that cannot possibly result in a permanent cure. "Weakness" is merely a symptom of chonic inflammation of the prostate gland brought on by excesses, early dissipation or by the improper treatment of some contracted disease. A complete and radical cure is, therefore, a question of restoring the prostate gland to its normal state, and this I accomplish promptly and completely without the use of internal remedies. My treatment is a local one entirely. It is original and scientific, and has been proved absolutely effective by thousands of tests. I am convinced that by no other methods can full and permanent restoration of strength and vigor be accomplished. No Stimulants for "Weakness"

No Cutting for Stricture

My method of curing Stricture is new and entirely original. No cut ting or dilating. The stricture is dissolved and completely removed and all affected membranes ther oughly cleansed.

Less Time in Curing Contracted

Disorders

Disorders

I have reduced the time required for curing contracted disorders about one-half. This is an important achievement. Is replaces danger with, sarety. It forestall chronic compileations. It removes the infection and inflammation before that vital center, the prostate gland, can become involved. To many men't means the difference between perfect health and a lifetime of misery and functional weakness. My method is mine alone. My treatment is original. In some features it resembles the ordinary. In its chief essentials it is different. In results it is entirely different. It is safe, prompt and thorough.

Many men afflicted with varicocele are endangering their general health, their manly powers and even life itself by allowing the disorder to remain uncured. Varicocele results from partial paralysis of the delicate nerve fibres that have a part in controlling local circulation of the blood. The muscular coatings of the veins being deprived of nerveous communication and control, become inactive, weaken and relax. The blood vessels expand from the pressure within, the circulation in the parts becomes sluggish, and frequently stagnant pools form in little mosks and pockets that constantly enlarge as the relaxation continues. The possibility exists that clots may form in these stagnant pools and then pass out into the general circulation. Should one find lodgment in a valve of the heart, the result might be instant death, or should it be carried to the brain, general paralysis would follow.

I guarantee to cure varicocele in one week by a method and so thorough is my work that there need not be the slightest fear of a reliapse into the old condition. No Operation for Piles I positively cure every case of Piles I treat. No operation whatever, The cure accomplished by mild and gentle measures, no matter how severe or how long standing the case may be.

No Surgery for Varicocele

## No Minerals for Specific Blood

Poison Others dose the system with minoral poisons, scarcely less dangerous
than the disease itself. The best
they hope to do by this treatment
is to keep the disease from manifesting its presence upon the surface of the body. Under my treatment the entire system is cleansed.
The last taint of virus is destroyed.
Every symptom vanishes to appear
no more. I employ harmless bloodcleansing remedies. They are remedies hereetofore unknown in the
treatment of this disease. They
cure by neutralizing and absolutely
destroying the poison in the system.
Such cures cannot be other than
complete and permanent.

We Will Treat Any Single Uncompli-

cated Allment for \$10.00.

We cure safely and promptly WEAKNESS, LOST MANHOOD, SPERMATORRHOEA, SPECIFIC BLOOD POISON IN ALL STAGES, VARICOCELE, HYDROCELE, GONORRHOEA, GLEET, OR ANY OF THE DISEASES COMMON TO MEN. Personal attention given all patients. MUSHROOM INSTITUTIONS.

In selecting a physician or specialist, when in need of one, some consideration and thought should be given to the qualifications, experience and length of time an institute or medical man has been located in the city. It stands to reason that an institution that has stood the test of time and numbers its cures by the thousands is far superior to mushroom institutions that spring up in a night, last a few months and nre gone. We have been curing men 27 years and are the oldest specialists curing men in Portland.

We invite those who have deep-seated and chronic disorders to call and be examined. Consultation and examination is free, and carries with it no obligation to engage our services.

WE CURE WEAKNESS. WE CURE WEAKNESS.

This is to men who lack courage, whose nerves are shaky, whose eyes have lost the sparkle, whose brains are muddled, ideas confuned, sleep restless, confidence gone, spirits low and easily depressed, who are backward, hesitating, unable to venture because they are afraid of failure, who want somebody to decide for them, who are weak, run down and restless. It is to men who have part or all of these symptoms and want new life, new snergy. We especially solicit those cases in which many so-called treatments have failed, or where the money has been wasted on other methods of treatment. Don't experiment when our direct method offers a certain means of cure by local treatment.

Our effices are equipped with the most modern and scientific mechanical devices for the treatment of chronic diseases. Our charges are reasonable and in reach of any workingman.

Write if you cannot call. Our system of home treatment is always.

Write if you cannot call. Our system of home treatment is always CERTAIN and most successful. All correspondence sacredly confidential. HOURS—9 A. M. to 5 P. M.; Evenings, 7 to 8:30; Sundays, 9 A. M. to 12 noon.
