Dealers Unable to Execute Eastern Orders.

TRADE AT A STANDSTILL

Prices Affected by the Situation. Downward Tender of Values in the Produce Market.

Mill Feed in Demand.

A peculiar state of affairs exists in the hop market. There are some orders on hand from the East and a good many more are expected soon, but dealers are at a loss to know how to transact the business. It is tomary in the hop market, when a dealer to buying hope and shipping them to the East, to sell his draft, with the necessary snipping document attached, to the banks, but at the present time these latter instions are not taking such paper, even for ections, owing to financial conditions in the East. The result is that trading in the Oregon market has practically come to a standstill at the very time of year when business is usually heavy. The members of the trade are trying to devise some plan by which operations can be carried on. It may be they will have to fall back upon express transportation as a means of get-ting their pay for hope shipped, that is, if the Eastern dealers or brewers have the cash with which to pay for the goods.

The financial situation naturally has a weakening effect on hop prices. Not many growers are offering their hops yet, but the few that are trying to sell are willing to take lower figures than they wanted tast month. The only business reported in the past few days was the sale of a lot of 155 balas at \$10 cms and a \$100 bala black at \$100 bala bala black at \$100 bala black at \$100 bala black at \$100 bala bala black at \$100 bala b bales at 5 ½ cents and a 400-bale block at 6 ½ cents. Neither of these lots were highgrade goods. In the absence of any business in choice qualities, it is impossible to say what such hops would bring.

The latest issue of the Waterville, N. Y., The latest issue of the Waterville, N. Y.,
Times says of the market there:

It has been rather quiet this week in the
hop market, caused perhaps by the menoy
troubles in New York. There have neen a
few sales at 15c down, the lower qualities
being not in so much demand as the hetter
grades, which a dealer said this morning
were getting rather hard to find.

The weekly report of Cattley Gridley &

were getting rather hard to find.

The weekly report of Cattley, Gridley & Co., of London, received by mail, says;
A considerable trade has been done in the new growth, the principal sales being of selected choice hops, and the healthy, bright qualities of Wealds and Sussex. General currency is unaitered, although somewhat higher prices have been paid for best qualities. The scarcity of good choice East and Mid-Kents is very marked. Foreign markets are more active, and a fair business has been done on the Continent for England in the choicer qualities. Their markets are somewhat higher for best hops. There is liftle doing on the Pacific Coast except for home consumption, and prices are firm, especially for the selected hops, which are extremely scarce again this year.

CHICKENS DECLINE TO TEN CENTS. Slump Occusioned by Heavy Receipts and

Slower Buying. The chicken market got down to the 10-cen asis yesterday. The slump was occasioned by large receipts and a very poor Arrivals have been heavy for several days and when buying slowed down prices, of course, had to suffer. Even at the cut made yeaterday, all of the day's receipts were not moved. The situation was not so had in other lines, geese and turkeys even showing come firmness.

The egge market was unchanged, with a fair amount of business passing.

Butter was quoted weak in some quarters but in general the movement was fair. That country producers are engaged in turning their surplus produce into each as fast as they can is shown by the way that dressed ment is being rushed to market. Arrivals of both weal and pork ere heavy, one Front street firm receiving 47 hogs yesterday and 80 the day before. With those large redeipts, the market is necessarily weak.

Moderate Demand for Fruits. The fruit market presented no new feasures of interest yesterday. Business was only fair and prices, as a rule, held steady.
San Francisco advices indicate a weak
tone in the potato market, due to liberal
arrivals of both Oregon and California potatoes. Prices here are unchanged, but the

feeling in the market is easy.

There were freer offerings of onions yesterday, both by growers and speculators, and quoted prices were therefore adversely affected.

Oregon Wools in the East. Regarding Oregon wools in the Eastern markets, the latest advices from Boston

The week has passed without any impor

tant transactions in grease wools, the supply of which in staple is practically sold out. No. clothing wool sold in small lote at 20 to Me, to cost about 650, clean."

Good Inquiry for Mill Feed. No trading is reported in local grain mar-

kets, and prices are nominal. A brisk de-mand for mill feed is reported and as supplies are light, the market is on a very firm basis. Hay is coming in freely on previous purchases, but consumption is large and prices are steadily maintained.

Wholesale Grocery Trade Good. Wholesale grocers state that business continues good in their line and some express surprise at the steady volume of orders coming in. No price changes of importance have been announced this week except a decline of 1 cent per gallon in coal off.

Bank Clearings.

Bank clearings of the leading cities of the Northwest yesterday were:

PORTLAND QUOTATIONS.

Rise in Bank of England Rate Hurts Stocks.

WEAK TONE AT THE CLOSE

Atchison Line and Industrial Reports Also Bear Heavily on the Market-More Gold Engaged for Import.

NEW YORK, Nov. 7 .- Several important events today served as an admonition that conditions are not yet ripe to remove defi-nite influences of the fluencial disturbances from which the country has suffered. The action of the stock market indicated some disposition to contest the effect of these events, but a heavy tone prevailed ulti-mately.

events, but a heavy tone prevailed ultimately.

The rise in the official discount rate of the Bank of Engiand to 7 per cent, while clearly foreseen yesterday, was too imposing an evidence of the strain now extending through the world's money markets not to make a formidable impression. It had been expected that the Imperial Bank of Germany would be forced to further raise fis rate, but the increase in the Bank of France rate to 4 per cent, had not been so much considered and emphasized the influence of the English bank's action. The 7 per cent rate of the Bank of England has no parallel since the crisis of 1878, although the rate in that year went as high as 9 per cent. In the case of the 4 per cent of the Bank of France, it seems not to have been touched since the France-Prussian war period. The decline of \$15,000,000 in the buildon holdings of the Bank of France of \$6,25,000 show the reason of the solicitude which has prompted the rise in discount rate, although the Bank of France's position is reinforced by a heavy loan regulation and a large contraction of outstanding note issues.

Additional gold was engaged for New York today, in solic of these paragred.

lation and a large contraction of outstanding note issues.

Additional gold was engaged for New York today, in spite of these measures which may, in fact, serve to attract gold to London and Paris from other sources, but some influences seem to obstruct the withdrawals for New York. Foreign money markets have held a suspicious attitude towards New York's requests for credits all through the present year, but in the marketing abroad of our commodities and payments falling due, the action of the foreign banking corporations have no effect on the foreign for maturing loans of American borrowers. Our choice of payment in gold for our exports, therefore, leaves foreigners no alternative.

Another installment of some \$1,900,000 of

ports, therefore, leaves foreigners no altermative.

Another installment of some \$1,900,000 of gold arrived in New York today, with a \$1,000,000 installment close at hand and others to arrive before the week end. The effect of this was most marked in the fail of premiums which are being paid for currency by some users. The extent to which the money market was affected was a disappointment to those who had looked for prompt relaxation with the first arrivals of gold. The explanation is found in necessary repair of the deficit below the legal reserve of the banks, and also of the urgent requirement of the interior for currency to complete the movement of the crops, a process of vital importance in righting the situation, and in setting free means for facilitating the liquidation.

The fine levied on the Atchison for rebating and the reports from various sources of shutting down of industrial operations bore heavily on the market and forced it to a weak close.

Bends were irregular: total sales, \$2,284,000. United States 4s advanced % per cent

NO TROUBLE, SAYS HAYASHI

Japan Trusts America to Settle Im-

migration Problem. TOKIO, Nov. 7.—The official silence so long consistently maintained by Japan on the subject of the relations of the United the subject of the relations of the cinetic States and Japan in connection with the persistent reports of friction was broken today by an Associated Press interview with Minister of Foreign Affairs Hayashi. He prefaced his statement by expressing the hope that a sincere pronouncement by the Foreign Minister of Large and its application would prevent Japan and its publication would prevent further misrepresentation and finally result in discrediting those who are constantly circulating false and harmful reports. He spoke not only as Foreign Minister, but as representing the sentiment of the entire Cabinet and the public. Minister Hayashi then said that the re-lations between Japan and America were as smooth and cordial as ever, and the se of civilization as well as community

interest demanded their lasting peace and friendship.

In order that full weight may be given In order that this interview, it is proper to state that this interview, it is proper to state that the was granted by the Foreign Minister weak opening, wheat advanced a only after lengthy consideration of the big export trade last Tuesday. The big export trade last Tuesday. only after lengthy consideration of the propriety of an official statement at this time. His pronouncement confirms the views expressed on every hand by politicians, newspaper men and others.

Minister Hayashi admitted that the immigration question was the most serious matter and was uppermost in the public mind, but he was positive that it would be settled without friction. Already it practically has been decided. The Japanese government proposes to control emigration in such manner as to benefit Japan and at the same time conform to the wishes of the American Government and is taking the most active steps in this direction. The Foreign Minister believes that Japan will be able to solve the question in this manner, it requiring only putlence of the peoples of both countries. One thing certain is that the Japanese government is not solicitous for the immigration of its people into any country. During the interview Minister Hayashi said:

"The only thing causing anxiety in the

"The only thing causing anxiety in the "The only thing causing anxiety in the minds of the public here is the immigration question, but, far from being unduly excited, the people of Japan are satisfied to rest the case, in full confidence that it will be adjusted in a manner worthy of both nations, by the fair-minded people of America, who have earned that name by a pre-eminently just and liberal policty in the extreme East during the last half century. According to reports from various sources dealing with what is called century. According to reports from va-rious sources dealing with what is called the Japanese situation, it appears certain that a portion of the press of the United States is bent on representing an ultimat conflict with Japan as inevitable, and in order, apparently, to subserve this special purpose, events of trivial importance are magnified into matters portending grave consequences. Facts that can be ex-plained easily and naturally by the commonest kind of common sense, are com-mented on and called into question on some far-fatched, impossible hypothesis, and the uninitiated public gradually is led into the vague belief that the relations of Japan and the United States are anything but smooth and cordial. These misrares

of complete complacency and absolute
confidence. It is true that at the time four normals and the number of pupils of the San Francisco troubles popular in the training department are shown in feelings of mortification and resentment were aroused, but our people knew that the hostile feeling in Normal in Training Dept.

Arrest 187 Saloonmen.

SPOKANE, Wash., Nov. 7 .- (Special.)-Wholesale warrants were issued this morning for the arrest of salconmen who are alleged to have violated the Sunday-closing ordinance. In all 197 warrants were issued. The move to enforce loons on Sunday is backed by the Law Enforcement League, a quasi-secret organization composed of is members, whose identity is withheld.

WHEAT IS UNSTEADY DOWNING-HOPKINS CO.

Wide Fluctuations in the Chicago Market.

CLOSES AT SHARP LOSS

Firm for a Time Because of Cold Weather in Russia - Slumps When the Winnipeg Market Breaks.

CHICAGO, Nov. 7.—The wheat market opened weak because of a further advance in the rate of discount by the Bank of England. The opening declines here ranged from %5% to 1615%. There was general selling at the start, partly for liquidation and partly for short account. The market however, soon became strong because of the cold weather in Southern Russia. An advance of 4 cents at Winnipeg, caused by active bidding by exporters, was an additional bullish induence. The market at Winnipeg later declined 2 cents and this resulted in a break of more than 3 cents from the high price of the day in the local market. The close was weak. December closed at 90%. May closed at \$101.00%. The corn market was weak the greater part of the day. The market became strong in sympathy with wheat and declined along with that grain later in the day. December closed 15 01% to love, at 47% 94.1% c.

clored 14 % % c off at 57 14 % % c.

The cats market was dull. December closed 13 % 13 % c lower, at 47 % 647 % c.

Provisions were weak early in the day because of selling by packers and lower prices for live hoga. Later, the loss was ready with january pork up 5c, lard was off 2 % c lower.

The leading futures ranged as follows:

These misrepresentations are incomprehensible, and we are unable to explain them, except on the ground of a political or financial nature.

"The repeated publication abroad of intimations of strained relations is deplorable chiefly on account of the baneful effect it cannot fail to produce upon commerce, a delicate plant, which thrives only in the genial atmosphere of mutual confidence and cordial interdependence.

"A relieving feature is found in the happy fact that these ominous statements find no echo on this side of the Pacific. Notwithstanding persistent reports to the contrary, the people of Japan regard the situation with a sense of complete complacency and absolute confidence. It is true that at the time of the San Francisco troubles popular
