SOME LIFE IN HOPS

But Business Is Being Done at Very Low Prices.

CHOICE GO AT 7 CENTS

Future of the Market Is Uncertain. Farmers Not Inclined to Hold. English Trade Advices. Movement of Grain.

There are some signs of life again stirring in the hop market, but business here is by no means brisk and is not likely to be until financial conditions, both East and West, are

the market and secured a few lots.

The future of the hop market was never more uncertain than it is now. It did not look good before the financial trouble began and this circumstance, of course, has not improved its prospects. A curtailment in the beer output in the East is regarded as inevitable and brewers are showing less concern over the barley shortage and naturally will take less interest in hops. On the other hand, the foreign situation is still to be reckoned with, as is also the position to be reckened with, as is also the position of the short interests in this country. As for the latter, it must be said that the market has played into their hands. In the meantime the farmers are doing but little, perceiving the futility of effering

their hops on such a market. That many of them are not in a holding mood is evident from the success with which consignment schemes are being carried on at sev-Advices from Vakima vesterday were that

there was quite a burst of activity in that It is needless to add that the prices were low. McNeff Bros. bought 468 tales of the Moxee crop at 41/2 cents and 220 bales of the Stover crop at 4 cents. Guy Grafton bought the Bell lot of 400 bales at \$15 cents. Between 400 and 500 bales more changed hands, but the details of the transactions were not learned.

The latest trade reports of the English

firms received by mall follow: The choice hops are now in a very small ampass, and eagerly sought after. The enersi trade is not very fast, but the best fit are being picked over. Low, healthy rown hops are inquired for.—Manger & lenley, London.

brown hops are inquired for Manger & Henley, London.

Buring last week trade was not quite so active in consequence of the Brewers Exhibition occupying both buyers and sellers attention. Some considerable trade, however, was been carried through, and the demand for strictly choice hops continues exceptionally keen, full prices being paid. The useful grades of East and Mid-Keut hops are not being freely offered, and values are more of less indefinite. Continental markets have been fairly active during the week, with choice hops becoming much searcer, and cather higher prices being paid. Cables from America show that a good demand is experienced there for the choicer qualities, but little is being done for England in a general way.—Cattley, Gridley & Co., London.

don.
Thade during the week has not been so brisk as last, the demand being chiefly for the nest qualities at full market rates. Husiness in the middle and lower qualities continues, but prices paid for these are considered to be much below the value. Some entire large growths have been disposed of during the week. There is also a trade for yearlines.—Exchange & Hop Warchouses, London.

Inndon.
There was a much smaller attendance at market on Saturday, and it is evident that the bulk of the Worcester crop has now left growers' hands. The demand for fuest samples was well maintained, such qualities and the samples was well maintained, such qualities. selling readily at from about 75s to 80s per cwt. but the supply on offer was extremely limited. Trade in medium and low grades ruled very slow, and occasionally less money was accepted in order to force sales.—J. H. Meredith & Co., Worcester.

CONCORD GRAPE CROP ALL MARKETED High Cost of Labor and Baskets Reduces Growers' Profits.

James H. Reid, District Fruit Commis-sioner, yesterday finished the marketing of his crop of 50 ions of Concord grapes from bis vineyard near Milwaukie. In discussing the grape situation, Mr. Reld said; "In the past three years there has been a large acreage of Concords, Niagaras and

rdens put out in this state. While there has been a good demand for Concord grapes the supply has exceeded the demand this year. The only solution of the problem is the establishment of a grape-juice plant, which no doubt would be a paying invest-"This has been the most favorable year

for grape growing in the past five years for grape growing in the past five years. The growers however, have been handicapped by their inability to secure enough baskets. At the prosent scale of wages they cannot grow Concords and sell them at a profit, as baskets here cost \$35 per thousand while in New York the price is only \$18 per thousand. As wages here are 35 to 40 per thousand. As wages here are 35 to 49 per cent higher than in New York, the Oregon growers cannot, of course, produce Con-cords as cheaply as in New York. New York Concords are quoted on the Coast here at 42 cents per ten-pound basket, while the average price for Oregons this year has been 15 cents per 4-pound basket. The difference in labor and baskets more than makes up the difference in freight.
"As for quality, competent judges declare than makes up the difference in freight.

"As for quality, competent judges declare that the Oregon Cancord is superior to that grown in New York."

\$4.00 2.10.

Sheep—Receipts, 6500; market, slow. Yearlings, \$4.50 2.4.75; wethers, \$4.50 2.4.85; lambs, \$5.50 2.6.

GRAIN MARKETS ARE ALL QUIET. Some Business Under Way in Wheat and

Onts-Values Are Firm. A little buying is under way in the wheat market and the exporters believe that hy next week business will be fairly arrive. Some trade is passing in oats and people who have to have this commodity are forced to pay full prices for it. There is no demand from California as stocks there are large, but advices received resterday from San Francisco said that buyers would be in the market for oals next month and predicted high prices before the senson is over. is left in the country is in firm hands.

Hay is country in freely, as plenty of cars are available for the purpose, but the receivers are not sacrificing it.

Poultry Prices Hold Steady.

Steady.

Eggs were firm and unchanged.

Steady prices were quoted in the city creamery market and on Front street the best brands of outside butter were well maintained, but the issuincewer brands were only moved at low prices.

Chearings of the Northwestern cities yes-terday were as follows:

Chearings Balances.

Portland Seattle 1530,838 119,727

Stock Prices Rebound, but the Fluctuations Are Narrow.

INDICATES SOUND BASIS

Bear Tactics Are Again Attempted, but Encounter Obstacles-Urgent Demand for Currency Continues.

NEW YORK, Nov. 13.—A check was made upon the downward movement of prices to-day after running somewhat further in the carly part of the day. The rebound today was narrower than the downward reaction years and the market became lethargic in the later stages. This narrowing of the swing of the price movement is usually the sign of more or less table equilibrium, which drifts and feebly fluctuates until there is fresh development in the situation. There was swidence yesterday and early today that the professional operators were disposed to take advantage of the neglected condition of the market to undertake hear tractics. Means seem to have been found, also, to place obstacles in the way of these attempts, which have proved effective. The purpose of these various measures evidently is to keep the stock market quiet and free from excitement and feverishness, while the task of mending the outside financial position is pursued.

The urgency of the demand for currency continued today, largely from out-of-town sources. Bids were reported today of as high as 1% per cent for the gold to arrive on the steamship Mauretania, which will not be here for ten days hence. Premiums paid today for currency ranged up to 3% per cent. The currency strustion made it a matter of course that a keep demand should persist for gold shipment to New York, and all engagements made today were large, bringing the total engagements to well over \$60,000.000. The consignment of more than \$5,000.000. Which arrived today, made little finpression on the currency premium and was apparently disposed of in advance to arrival.

RAILROADS BUYING LITTLE

Wait for Prices of Supplies and Material to Fall.

W. V. S. Thorne, general director of purchases and supplies for the Harriman lines, with headquarters at New York, is in the city for a few days on a tour of the Pacific Coast territory. Mr. Thorne is a director of the Wells-Fargo Express Company and expressed himself yester-day as very much pleased with the new building erected by the company at Port-

"This is a time for retrenchment," said Mr. Thorne, "not only with the railroads, but with manufacturers in all lines as well. It is just now a bad time to make extensive purchases, for money is scarce and prices are still quite high. Our lines just now are buying only for current needs and will probably maintain this policy until conditions become easier.

"It will, no doubt, take some time to fully recover from the present uneasiness." fully recover from the present uneasiness and careful expenditure is the rule. It always requires a longer time to restore confidence than it does to tear down.

business prosperity.

"As a general thing, the Harriman lines are heavy purchasers of Oregon fir. We find that this material is excellent for find that this material is excellent for building boxcars. It saves about E00-pounds in the weight of the average car and this is a distinct gain. We make a rule to use it in car building when it is not too hard to get."

Mr. Thorne comes to the Pacific Coast every year or two but has not been here for two years. He finds very great im-provements in this city and comments on Portland's rapid growth of late. He will leave Friday for San Francisco and

will leave Friday for San Francisco and

NEW TARIFFS BEING MADE

Harriman Line Officials Comply With Order From Government.

The tariff department of the Harriman lines is working night and day to make the changes in rates prescribed by the Interstate Commerce Commission in its special circular No. 3, recently issued. This requires that the long and short haul clause shall be eliminated from the haul clause shall be eliminated from the tariffs, making rates specific. The long and short haul clause in a general way is to the effect that rates to intermediate points shall not exceed through charges Hereafter the publication of maximum rates will be done away with and specific figures must be given. The carriers are given until January I, 1908, to make the required changes.

A new rate for canned goods from ashing to Portland of 30 cents per 160 pounds in carload lots will be effective on the Southern Pacific November 25. This makes the same rate as that published some time ago from Grants Pass

lished some time ago from Grants Pass to Portland. The rate is another evi-dence of the Southern Pacific's endeavor to develop the fruit-canning industry throughout the Willamette Valley. Naver before has there been so much interest in this industry, and this year has seen a greater output of canned fruits throughout the Willamette Valley than ever before. The number of canneries and the size of their outputs are ex-pected to increase each year. A new rate on mineral water from Cot-

tage Grove to Portland, in carloads, of 20 cents per 100 pounds will be effective on the Southern Pacific December 12. Hood's Sarsaparilia ensures good di-gestion and strength to the vital or-gens. Insist upon Hood's.

Wheat Prices Rise Sharply at Chicago. .

FOREIGN NEWS BULLISH

Unfavorable Weather in India and Drafts-Sight, par; telegraph, 10. Sterling on London-60 days, \$4.50; sight, Argentina and Rumors of Prohibition of Russian Exports Give Market Strong Tone.

> CHICAGO, Nov. 18.—The wheat market was strong all day with the exception of a short period near the first hour, when prices broke more than one cent in sympathy with corn. Unfavorable weather in India and Argentina and rumors that Russian wheat exports may be probabled caused a strong fone at the opening, the initial quotations being \$615c above the final figures of yesterday. All of this gain was lost on selling caused by the break in corn, but the market soon railled and continued strong for the remainder of the day. December opened \$65c higher at 934 \$7 135c, sold off to 22c and then advanced to 95%c. The close was at 95%c.
>
> Corn was weak early in the day because of the ideal weather for the curing of the new crop. The market railled in the last hour on buying by shorts, who were induced in cover by the advance in wheat. December opened \$6 \$6 \$c. The close was \$50 \$c. The close was \$60 \$c. The close was \$60 \$c. The close on the second of the 50 \$c. The close of the second then advanced to 55%c. Onto declined more than one cent early in the day, but regained all of the loss on buying by shorts. December opened \$60 \$c. Sold off to \$75c. sold off to \$75c. sold off to \$60 \$c. Sold of the loss on buying by shorts. December opened \$60 \$c. Sold off the loss on buying by shorts. December opened \$60 \$c. Provisions were weak because of a 20-cent railed to 4:150, where it closed hair a cent higher.
>
> Provisions were weak because of a 20-cent decline in the price of live hogs, but later the market became strong. At the close January pork was up 22'c; lard was up 12c, and ribs were 15c bigher.

The leading futures ranged as follows: WREAT. CORN. ,55% ,57 ,56% B. L. Bancom to Genevieve Bancom, let 16 and west & of let 17, block 15. Sumyshie Wm. NURSES PLAN COTTAGE Abode for Use of Those Who Contract Tuberculosis Needed.

A meeting of the Oregon State Nurses' Association was held yesterday for the purpose of considering the erection of a cottage at the Milwaukie Open Air Sanacottage at the Milwaukie Open Air Sanatorium for the use of the nurses who may have contracted tuberculosis in the pursuit of their calling. The need of such a cottage was emphasized by the Fecent death in one of the city hospitals, where there is no proper provision for tuberculosis cases, of a graduate nurse whose friends were unable to care for her. The association has for its object not only the registration of graduate nurses and the advancement of the educational standards of nursing, but also the raising and maintaining of funds for the proper care of its sick nurses.

sick nurses.
In time, if funds can be raised, it is hoped that there may be some provision for other chronic or incurable diseases besides tuberculosis; for a nurse's life is a liard and exhausting one, and though the \$25 per week, which is the regular fee the \$25 per week, which is the regular fee of a graduate nurse in private practice, may sound large to some people, it is to be remembered that it is a physical impossibility for a nurse to go straight from case to case and work 52 weeks in the year and that, fike other people, she has expenses that run on whether she is on a case or not, while not unfrequently there are others dependent upon her, so that saving for sickness or old age is not a saving for sickness or old age is not a particularly easy matter.

A committee was appointed to make inquiries as to the cost of building and maintenance for a simple cottage on ground furnished by the sanatorium.

Baker City, Cr.—An important strike has just been made in the Red Boy mine in the Sumpter district. The vein is seven feet in width and assays show that the ore runs \$41 in gold and is high in silver. The Red Bey Consolidated Mines Company has been working for more than a year on a tunnel that would cut this vein. Pay dirt was struck at a depth of about \$50 feet and is at the end of a 2400-foot tunnel.
