HOPTRADEBOOMING

But Current Prices Mean Loss to Growers.

YET THEY WANT TO SELL

Result Is More Activity Than Has Been Seen Any Time This Season-Same Conditions Exist in Washington.

There seems to be a disposition on the part of the Oregon hopgrowers to turn their product into cash, or its equivalent, at the very first opportunity and without regard to price Some of the holders of the better qualities are more reserved, but the average grower, evidently anticipating a crash, is trying to get out from under. In fact, deal-ers say they never before knew a time when it was so easy to buy. The ideas of sellers and buyers are so close that it is easy to split their differences, and this accounts for the small fractions that figure in the prices reported.

condition of things naturally makes for a lively market. More business is under way now than at any previous time this season. The range of prices is from 5 to 7 cents with the bulk of the sales at from 5%

to 6 cents, and very few at 7 cents.

The heaviest buyers this week have been Kiaber, Wolf & Netter, whose purchases since Sunday aggregate 1339 bales. There were more reports yesterday of buying by John Carmichael. Henry L. Bents, of Aurora, continues to take hops for export direct to London. Mr. Benta latest purchases were the following lots: Bert Brooks, of Carlton, 25 bales; M. Roberts, of Newberg, 42 bales; Hugh Nelson, of Newberg, 70 bales. These are all choice export quality and brought 6% cents. A part of the Port-land buying yesterday was said to have been done by the J. W. Seavey Hep Company.

In Washington the recent buying has made a great impression on the crop and that state will soon be cleaned out if there s not a pause in the trading. A telephone nessage from Yakima said that buying was ery easy there and it was only a question of getting orders with the dealers. Among sale of the two Senn lots at Chehalis, 46 bales at 54 cents and 175 bales at 5 cents.

Yesterday's foreign news was not encour aging, so far as the English market was concerned, but there was improvement in Germany. Klaber, Wolf & Netter's London

McMimwille Growers Refuse to Contract. M'MINNVILLE, Or., Nov. 2L—(Special.)— Hop growers in this section do not seem Hop growers in this section do not seem inclined to sell at present prices, nor to make contracts, although some rather advantageous propositions have been "made them. Joseph Harris and F. W. Durbin, of Salem, have been offering to contract prime hops for periods ranging from one to three years at 14 cents, and from three to five years at 14 cents. It is understood that 10 cents has been offered on three-year contracts for choice hops. Joseph Hatty, of Lafayette, has just sold his 1907 crop to Kinber, Wolf & Netter at 6% cents. Some buyers are offering T cents for this year's erop if the growers will agree to wait on crop if the growers will agree to wait on them from 30 to 60 days.

EARLY SHIPMENTS HOLIDAY TURKEYS Demand Here Not Yet Opened-Egg Market Very Firm.

Receipts of Thanksgiving turkeys are on rease, but the demand has not yet pened. The few sales yesterday were at is to so cents for choice. Some shipments of dressed chickens came in, but these cannot be moved until next week. Live chickens ere in good demand at the previous day's rices and the inquiry for greens and ducks as also satisfactory. A good many live trkeys are reaching the market and are prices and the inquiry for grees and ducks was also satisfactory. A good many live turkeys are reaching the market and are very hard to move, even with quotations as low as 15 cents. Some wild goese are on sale on the street at \$6 per dogen.

The egg market was active with all kinds firm. There is a strong shipping demand for ranch stock at full prices. The butter market is in a steady position for both city and best state brands. There is no likelihood of an immediate change in prices. The upward movement in the Eastern markets has been checked.

WHEAT BUXING ON A LIMITED SCALE Movement of Grain From the Interior Is

Business in the wheat market is still of being made are on the basis of the quotations given below. The undertone of the market is weak, as the foreign demand has been slack for several days. Buyers on the financial situation in this country would force prices lower and they have, therefore, held off. The low level reached yesterday proved too tempting, however, and some ex-

Buying in the fruit line continued to be of good proportions. Five cars of bananas arrived, most of them in fine shape, for the city and shipping trade, and another let is due Tuesday. A mixed car of oranges, rapefruit and tangerines was received. The tangerines were the first of the season and were put on sale at \$2 per box.

A car of week pointons rapeloid the season and were put on sale at \$2 per box. A car of sweet potatoes reached the yards and will be unloaded today. The California sweet potato market is very firm, as enough cuitable cars cannot be secured for the ship-

Partly Responsible for Depression in Stocks.

SOME FORCED LIQUIDATION

Advance in Call Loan Rate Ascribed to Preparations for Subscription to the New Panama Bonds and Treasury Certificates.

NEW YORK, Nov. 21.—Liquidation of the ame painful character as for several days past was still in evidence on the stock mar-pet today and acute depression in stocks im-mediately affected was occasioned by this selling. The weakness did not embrace the list as a whole at any time, and the market showed some resiliency in the late dealings which suggested a responsibility on the par-of professional bears for part of the day.

Developments regarding the properties Developments regarding the properties wasse securities were being sold were not the motives for the selling, so far as was known. A process of cleaning up of credit accounts by the banks was helieved to be in force and to involve new relations of strictness and imperviousness to influence and favor, such as prominent capitalists of practically unbounded resources have exacted from the banks. The fact that the banking situation in New York is at present, in effect, under the centralized control of the Clearing-House authorities, through its loan committee in connection with issuance of Clearing-house certificates, is advanced as explanation for the enforcement of the new rules of procedure.

explanation for the enforcement of the new rules of procedure.

Whatever the cause, the fact is patent that the forced liquidation of loans by selling out of collateral in the stock market is ine progress from time to time. The process is obvious in securities in which syndicate transactions have occurred. The acute weakness yesterday and today of the Atonison convertible 5 per cent bonds calls attention to the fact that some \$15,000,000 of this issue, unsubscribed by stockholders, was taken recently by a syndicate of bankers. The Southern group of railroads, the Erie, New York Central, Pennsylvania, H. & O and other stocks were under severe pressure from time to time. The selling of these stocks was partly influenced, apparently, by fears of coming dividend reductions.

A decided impression was caused by the report, denied late in the day, of the cancellation by the Pennsylvania or a large order for locomotives. American Locomotive was directly affected by this rumor. The declaration of the regular dividends on the National Lead stocks helped the metal industries to some extent, especially American Smelting A rise in the price in London of

CITY'S MONEY NOT SAFE Treasurer 'Again Asks Council to Provide Suitable Vault.

At the meeting of the ways and means committee of the Council, yesterday afternoon, City Treasurer Werlein again suggested to the committee the importance of having a modern vault and safes built for use of the city in connection with his office, Several months ago the Treasurer REAL ESTATE MORTGAGE MONEY TO made this suggestion to the Council, but no action on the matter has yet been taken. It was the opinion of the committee, verbally expressed, that the work ought to be done, especially as the Treas carry large amounts of coin, and with he present facilities such an accumu-ation of cash would be unsafe. Mr. Werlein said he had been informed that the cost of the necessary work would be about \$800. He was requested to send in a written communication on the subject so that action might be taken at the next meeting
