

PUBLIC DEMANDS  
ANOTHER ARREST

Hoquiam Marshal Criticised  
for Position Toward  
Mrs. Todd.

MAYOR BACKS UP OFFICER

McIntyre Declares McKenney Is  
Pursuing Right Course—Woman  
Is Now Believed to Be Visiting  
in the City of Portland.

HOQUIAM, Wash., Nov. 22.—(Special.)—A considerable portion of local public opinion in the Hoquiam murder case found expression in the Council Chamber tonight, when Councilman Richardson asked pointedly if an honest effort was being made to apprehend the murderer of Frank Todd.

The incident was in reality a severe criticism of the methods of the local police, but failed to bring out anything but evidence of Mayor McIntyre's faith in the City Marshal.

For some days past, and especially since the published confessions of Mrs. Todd and Ralph Steele, there has been a widespread criticism of the local authorities. Expressions have been freely made that Mrs. Todd, even under her own confession, should be held to answer in some manner.

Demanding Another Arrest.

Without pausing to consider that possibly Marshal McKenney, who by his very manner and statements in the case has shown that he knows more than has yet been given out, is working along productive lines, many have thought that there should be an immediate arrest, and with the departure of Mrs. Todd from this city on Wednesday morning, this talk has increased.

The fact that it is stated that the authorities can secure Mrs. Todd any time she should be wanted is apparently hardly satisfactory to those who want their heads in firm conviction.

Within the past two days the criticism has been taken directly to Marshall McKenney, and it has been sufficient to arouse that officer to heated anger. When asked by a Councilman the other night what he was doing in the Todd case, Marshall McKenney, it is said, refused to answer other than to say that he would not tell what he knew and the investigation was ready any time the Council wanted it.

Marshal McKenney Defiant.

At tonight's Council meeting Councilman Richardson, bringing up the subject of the Todd case, stated that considerable complaint was being made over the work of the officers and he wanted to know if an honest effort was being made to apprehend those guilty of the murder and to bring them to justice. He was interrupted by Mayor McIntyre, who said that he thought the officers were doing all the work necessary, and while they were not confiding to the public what they were doing, yet he knew that the prosecuting attorney was satisfied with what is being done.

Marshal McKenney, pale and with trembling voice, arose and flung defiance in a few words.

"I am doing what I think is best and proper. If there is any one who thinks he can get the murderer or do better than I am doing, I will step aside and he will come."

This practically ended the matter in the Council.

Comment on Woman's Absence.

The whereabouts of Mrs. Todd is the main matter of comment now. She left her Wednesday morning and it is said she is visiting friends in Portland. The officials, however, when asked, simply say they know where she is.

CRITICISES THE OFFICIALS

Chief of Police Schneider, of Aberdeen, Talks on Todd Case.

ABERDEEN, Wash., Nov. 22.—(Special.)—Chief of Police Schneider, of this city, is of opinion that the authorities of Hoquiam and Chehalis County will fail in their duty if they do not arrest Mrs. Todd as an accessory in the murder of her husband. Speaking of the case, Chief Schneider said:

"It has been my candid opinion from the first that Mrs. Todd is guilty as well as Steele, that she should not go unpunished and if I were the Sheriff of Chehalis County or the Marshal of Hoquiam I would have had her behind the bars soon after the crime.

"I sincerely believe there was neglect in not arresting the two. Steele's confession in the hands of W. H. Ahrens, attorney at Montesano, will confirm all my deductions.

"It is my opinion that the authorities of Chehalis County will neglect their duty if they do not put Mrs. Todd on trial as an accessory to the commission of one of the foulest crimes that I have ever known of."

Schneider got his detective experience on the Milwaukee police force. A day or two after the Todd murder Chief Schneider was placed in possession of certain facts as to Steele and Mrs. Todd. He decided that the Hoquiam police had the right man and suggested his arrest, as well as the arrest of Mrs. Todd. Nothing was done, however, until the return of Marshal McKinney from a 10 days' absence, when Steele was again taken into custody for questioning and his revolver sent to Portland for examination as to blood stains.

Dr. Smith, of Aberdeen, who assisted in the autopsy, agreed with Chief Schneider that Todd had been chloroformed upstairs and killed while he slept, for one reason that a sheet in the possession of McKinney had blood stains.

Todd Woman in Flight.

ABERDEEN, Wash., Nov. 22.—(Special.)—It is the general opinion here tonight that Mrs. Todd, who is reported to be in Portland, intends leaving the United States. Steele's father, who is here, is greatly embittered over his son's tragic end and is said to be in touch with the authorities as to what action can be taken to bring Mrs. Todd to justice.

LURED TO LAND OF PROMISE

Hindus Drawn to Vancouver by Stories of Great Opportunities.

VANCOUVER, B. C., Nov. 22.—(Special.)—Why the Hindu has come to British Columbia was the subject of today's inquiry of Immigration Investigator King. Seven of the 180 who are leaving on the Tartar said in effect: "Plenty of work, good wages. Come to the land of promise." In three

cases of the seven trachoma was the reason for their forced return. Old age was the sole reason for the return of one.

Of all the seven, Sahai Singh was in the saddest plight. Gray, thin and gaunt, a man of 65 who had given up his little farm in Punjab to seek the few hundred dollars in this country which would mean a fortune and a re-gained life on his return, Sahai told how he had come with Cumber Singh, and added:

"Cumber Singh old. He get work. But me they say too old, send me back."

With unimportant variations this was the story of the other six. They had all received letters from friends or relatives here and those, and not the notices posted in Calcutta by the steamship companies was the inducement to come.

SEATTLE, Wash., Nov. 22.—(Special.)—Mrs. H. Gormley, mother of Matt Gormley, Treasurer of King County, was locked in her own home for several hours this afternoon by Mrs. W. C. Harrison, a neighbor, who had suddenly become insane. While Mrs. Gormley, an aged woman, was being held captive, Harrison demolished furniture and other household fittings, threatening neighbors who rushed to the rescue with death if any interference.

She held the Treasurer's mother a prisoner until the paroxysm of insanity wore itself out. Then Mrs. Harrison was captured.

SEATTLE, Wash., Nov. 22.—(Special.)—W. S. Pearce, proprietor of the Inter-Bay Pharmacy, was blown across his store by a gas explosion this morning, being hurled a distance of nearly 100 feet, surviving with practically no injuries. Pieces of timber 2 by 4 inches were broken by the force of the explosion and all the plate-glass windows in front of the pharmacy were blown out. Pearce came out almost unscathed. SUBSCRIBE WITH CONDITIONS

Eight Chicago Banks Want Certificates With a String Tied.

CHICAGO, Nov. 22.—Eight Chicago banks have arranged conditionally for subscriptions to \$2,500,000 of the new 3 percent Treasury certificates. President Morgan, of the First National Bank, chairman of the clearing-house committee, said the subscribing banks subject to certain conditions, the nature of which he would not discuss.

The subscriptions are reported to have been made with the understanding that the banks be allowed to hold 75 per cent of the purchase price of the certificates as part of their Government deposits, the subscribing banks being Government depositories.

Subscriptions amounting to \$1,800 for the certificates were received at the Sub-Treasury during the day.

Bank Exchanges Decrease.

NEW YORK, Nov. 22.—Dun's review for tomorrow will say: Bank exchanges are again reduced in volume, the total for this week at all leading cities in the United States being \$2,650,790,000, or 32.2 per cent less than last year and 28.2 per cent under the corresponding week of 1905.

There is a loss at nearly every city compared with both preceding years, which is especially large at New York because of the reduced volume of stock dealings and the low range of security values.

San Francisco also reports a heavy decrease compared with last year, but at most points in the Middle West, the loss is small and several cities in that section report a small gain, notably in the comparison with 1905.

WANT MANY THINGS

Labor Unions in Federation  
Pass Resolutions.

SHORT DAY BEFORE RAISE

Declare 8-Hour Day Paramount to  
More Wages—Strong for Union  
Label on All Goods, Even Tobacco — Election Today.

NORFOLK, Va., Nov. 22.—The American Federation of Labor today declared for a universal eight-hour workday as paramount to all questions, even to the question of an increase of wages, except in such trades and in such callings where the earnings are so meager as to make it difficult to maintain a fair standard of living; called for a campaign of education and organization to that end among all affiliated organizations. The Federation, determining that it would be impossible to secure a universal eight-hour workday by any sudden or radical concerted step, issued a call for the accumulation by all tradesmen of a sufficient fund to make them fully prepared for the fight when opportunity will favor the most immediate success with the least degree of suffering and privation.

Not Yet Time for Union Label.

Declaring the time not ripe for a universal union label, the convention declared "the present system of craft labels is best calculated to serve the purposes for which the union label is designed."

The Federation called on all persons affiliated in the trade movement to demand the union label on all products purchased, and especially called upon all men to demand the blue label on their tobacco.

The convention accepted an invitation to join the trade unionists of Washington Thanksgiving day in a great demonstration "for the preservation of trade unionism in the District of Columbia."

The election of officers was made the special order for tomorrow morning.

The labor convention is now going on between Denver, Detroit and Toronto, with Denver in the lead.

Fight for Next Convention.

The Federation today disposed of a large amount of business. A number of boycott resolutions were passed and other important actions taken as follows:

Calling for all international unions to have their locals affiliated with central bodies; calling for a minimum wage of \$3 per week for all female retail clerks; referring to the executive council the question of suppressing the two craft bodies in Spokane, Wash., and issuing a new charter for the amalgamation of the two; calling for the universal organization of "union label" goods, such as those in Denver and Salt Lake; calling on women of the country to demand a union label on all products purchased.

Quarriesmen Have Bloody Fight.

JOLIET, Ill., Nov. 22.—A riot occurred today as a result of a strike, following an attempted wage reduction among stone quarries. Strikers and men belonging to the work clashed in a bloody fight. Pistols were used, but most of the shots were fired in the air to intimidate. Stones were thrown and a number of men on both sides were hit, but no serious injuries are reported. The riot occurred in the vicinity of the Western Stone Company's quarries southeast of Joliet.

Union Condemns Switchmen's Strike

CHICAGO, Nov. 22.—Striking switchmen in Chicago were told today by first Vice-President S. E. Haeblerling of the Switchmen's Union of North America, to walk back again or lose their charter. The switchmen struck to compel the Iowa Central Railroad to pay a total disability. The facts were immediately telegraphed to E. T. Hawley, president of the Switchmen's Union of North America, at Buffalo, N. Y., and he instructed first Vice-President Haeblerling to go to Oskaloosa and revoke the charter, unless the men went back to work at once.

ALBANY, N. Y., Nov. 22.—About 600 men employed in the shops of the New York Central & Hudson River Railroad at Albany have been laid off. This is about a quarter of the entire force. It is not stated how long the reduction is to continue.

CUBAN LABORERS IN JAIL

Havana Police Charge Them With Plot Against Public Safety.

HAVANA, Nov. 22.—A strong force of detectives and police raided a meeting in a hall on Reina street of the federative committee of labor and arrested all present, numbering some 250 persons charged with conspiracy to disturb the public order, the allegation being that they had gathered for the purpose of receiving orders from officials of the committee to commit acts of intimidation and violence upon nonunionists.

There is much indignation in labor circles over the action of the judge in refusing to accept bail.

WHITE PINE VERY SCARCE

Value Now Equal to That of Best Mahogany.

OREGONIAN NEWS BUREAU, Washington, Nov. 22.—The position which the United States has held as a lumber producing nation has, perhaps, been due more to white pine than to any other wood. The timber of this valuable tree, which has played a most important part in the material development of the Nation, is fast disappearing and now is as costly as many of the hardwoods.

White pine production has shifted from New England to the Lake States, and Michigan was the leading lumber producing state for 20 years, from 1850 to 1860, with a supremacy based on white pine. In those two decades the cut was and referring to the cabinet-maker made a price, and then asked whether it should be of mahogany or white pine.

Portrait of Binger Hermann Graces Land Office.

OREGONIAN NEWS BUREAU, Washington, Nov. 22.—When Binger Hermann was indicted for destroying letter press copy books held to have been part of the files of the General Land Office, and Michigan was the leading lumber producing state for 20 years, from 1850 to 1860, with a supremacy based on white pine. In those two decades the cut was and referring to the cabinet-maker made a price, and then asked whether it should be of mahogany or white pine.

When Mr. Hermann resigned from the Land Office, he left behind a crayon picture, nicely framed, and it was hung with the pictures of the other Commissioners in the General and Office. But no sooner had the trouble overtaken the Hon. Binger than some one mysteriously removed the picture, and spirited it away to parts unknown.

A short while ago, when Commissioner Ballinger was clearing out one of the old storerooms in the basement of the Land Office, he found unaccounted for the portrait of Hermann, and by the order of the Commissioner, it was cleaned and restored to its old place on the wall.

Ballinger, by the way, had been acquitted of the charges brought against him here, there was no just reason for keeping the portrait on the junk pile, and henceforth the smiling countenance of the "glad hand" Commissioner will look down upon Mr. Binger and those who succeed him in office.
